COLOURLESS CARDS!

Building your deck around one energy type can be a good idea but try to include a couple of Colourless **'Mon**, too. Cards like **Tauros** or **Kangaskhan** are great basic cards with high HP that can hold the fort while your get your bench battle ready. But watch out, they have high retreat costs, so be sure to have an X-Speed or Leaf card up your sleeve!

S!

MARIO & LUIGI BROTHERSHIP

WATCH 'N' LEARN!

Pay attention during battles! Each enemy has its own unique way of signalling what it's going to do, giving you the opportunity to plan your next move. For example, **Scorebores** scratch the ground a set number of times before they charge, and **Hydro Seedles** will always attack in the same direction that they spin!

MULTIVERSUS

AFTER ATTACKS!

As well as thinking about what attack you're about to make, try to think about what happens after the attack, too. Some moves have a cooldown period so you can't use them back-to-back, and other moves get weaker each time you use them, so spamming them isn't very effective. Keeping this in mind can help you time your attacks and pick the perfect move for the perfect moment!

USE YOUR BRAIN!

FORTNITE

THINK FIRST!

It might be tempting to rush into a battle if you hear shots nearby, but you could be walking into danger! Chances are, you won't be the only one trying to crash the party and pick off injured players. Instead, find a spot where you can observe the action, then, once you're confident the coast is clear, you can engage!

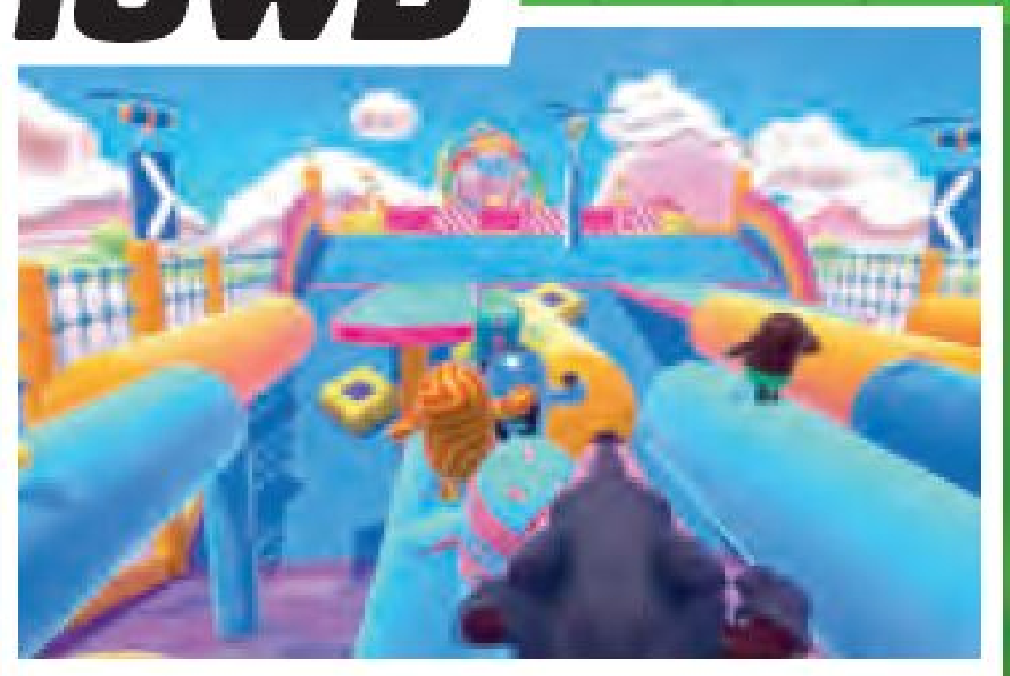
DID YOU KNOW?

WHEN YOU UNLOCK YOUR SWITCH BY PRESSING ANY BUTTON THREE TIMES, DIFFERENT BUTTONS MAKE DIFFERENT NOISES! TRY THE THUMBSTICKS OR TRIGGERS AND SEE WHAT HAPPENS!

THE DOS & DON'TS OF...

DO

FOLLOW THE CROWD



If you've never played a certain game before, sticking to the middle and following the crowd can be helpful. Once you're more familiar, you can look for shortcuts but for the first playthrough going rogue isn't always a good plan!

REMEMBER WHO YOU ARE

This sounds obvious, but with all the beans, and bright colours you can lose track of which character is yours, especially in crowded and chaotic games! To avoid this from happening, use cosmetic items and outfits to stand out more.

TRY FALL GUYS CREATIVE

This mode is worth trying out to experiment with level layouts, traps, and tricky jumps. Plus, playing other players' custom maps can help you learn new strategies and improve your gameplay!

DON'T

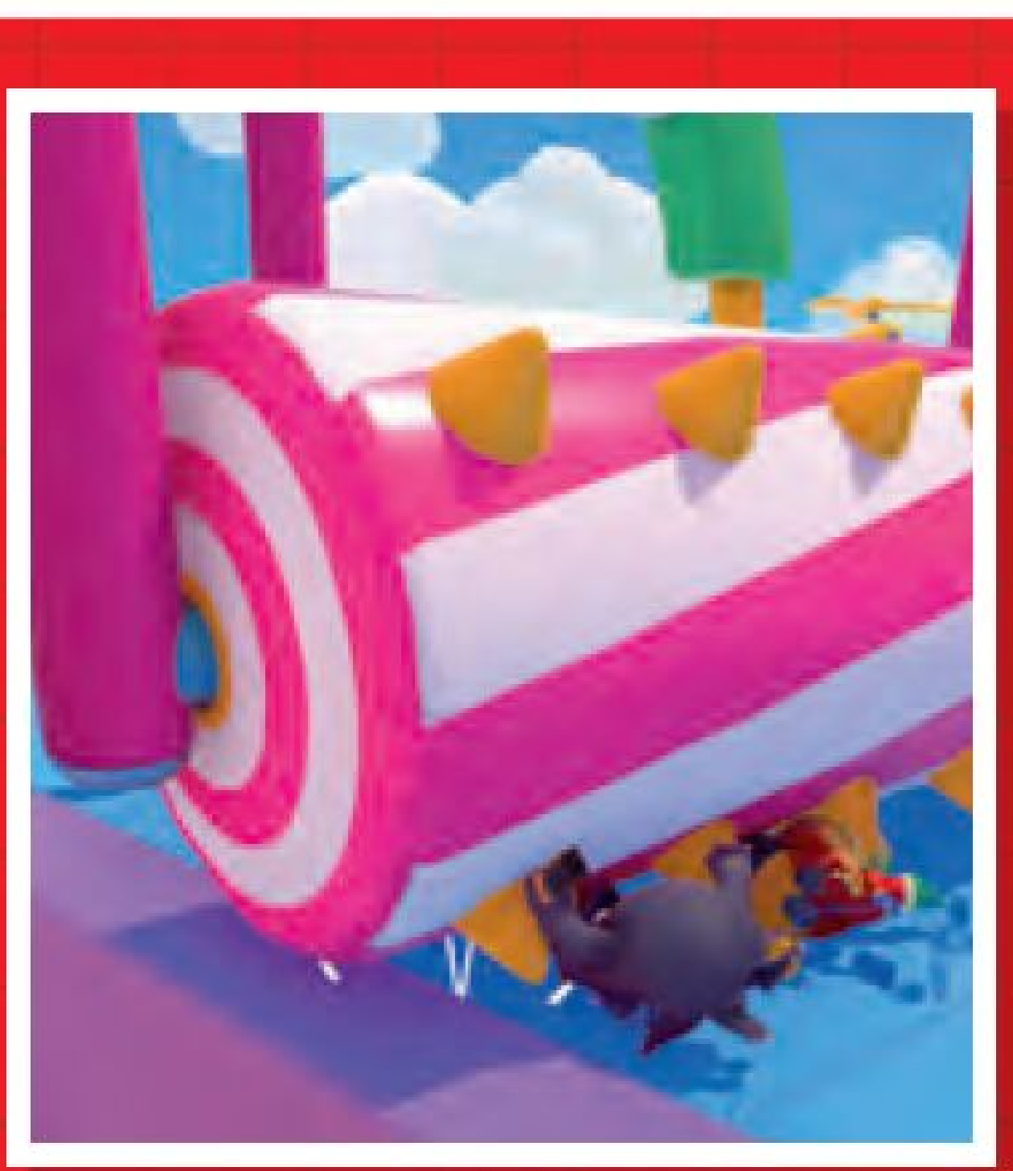
PLAY SOLO IN TEAM GAMES

Doing everything on your own in team-based games like Egg Siege can hurt your chances of winning! Don't take on everything by yourself and focus on teamwork to succeed!

PUSH AND GRAB RANDOMLY

Pushing and grabbing players at the wrong time can slow you down or make you fall. If you're going to do it, make sure you're strategic to avoid disrupting your overall plan!

QUIT AFTER ONE MISTAKE



Whether you mistime a jump or if you're crushed by a Thicc Bonkus, that doesn't always mean you've ruined your chances of winning. If you stay focused, there's still a chance to catch up!

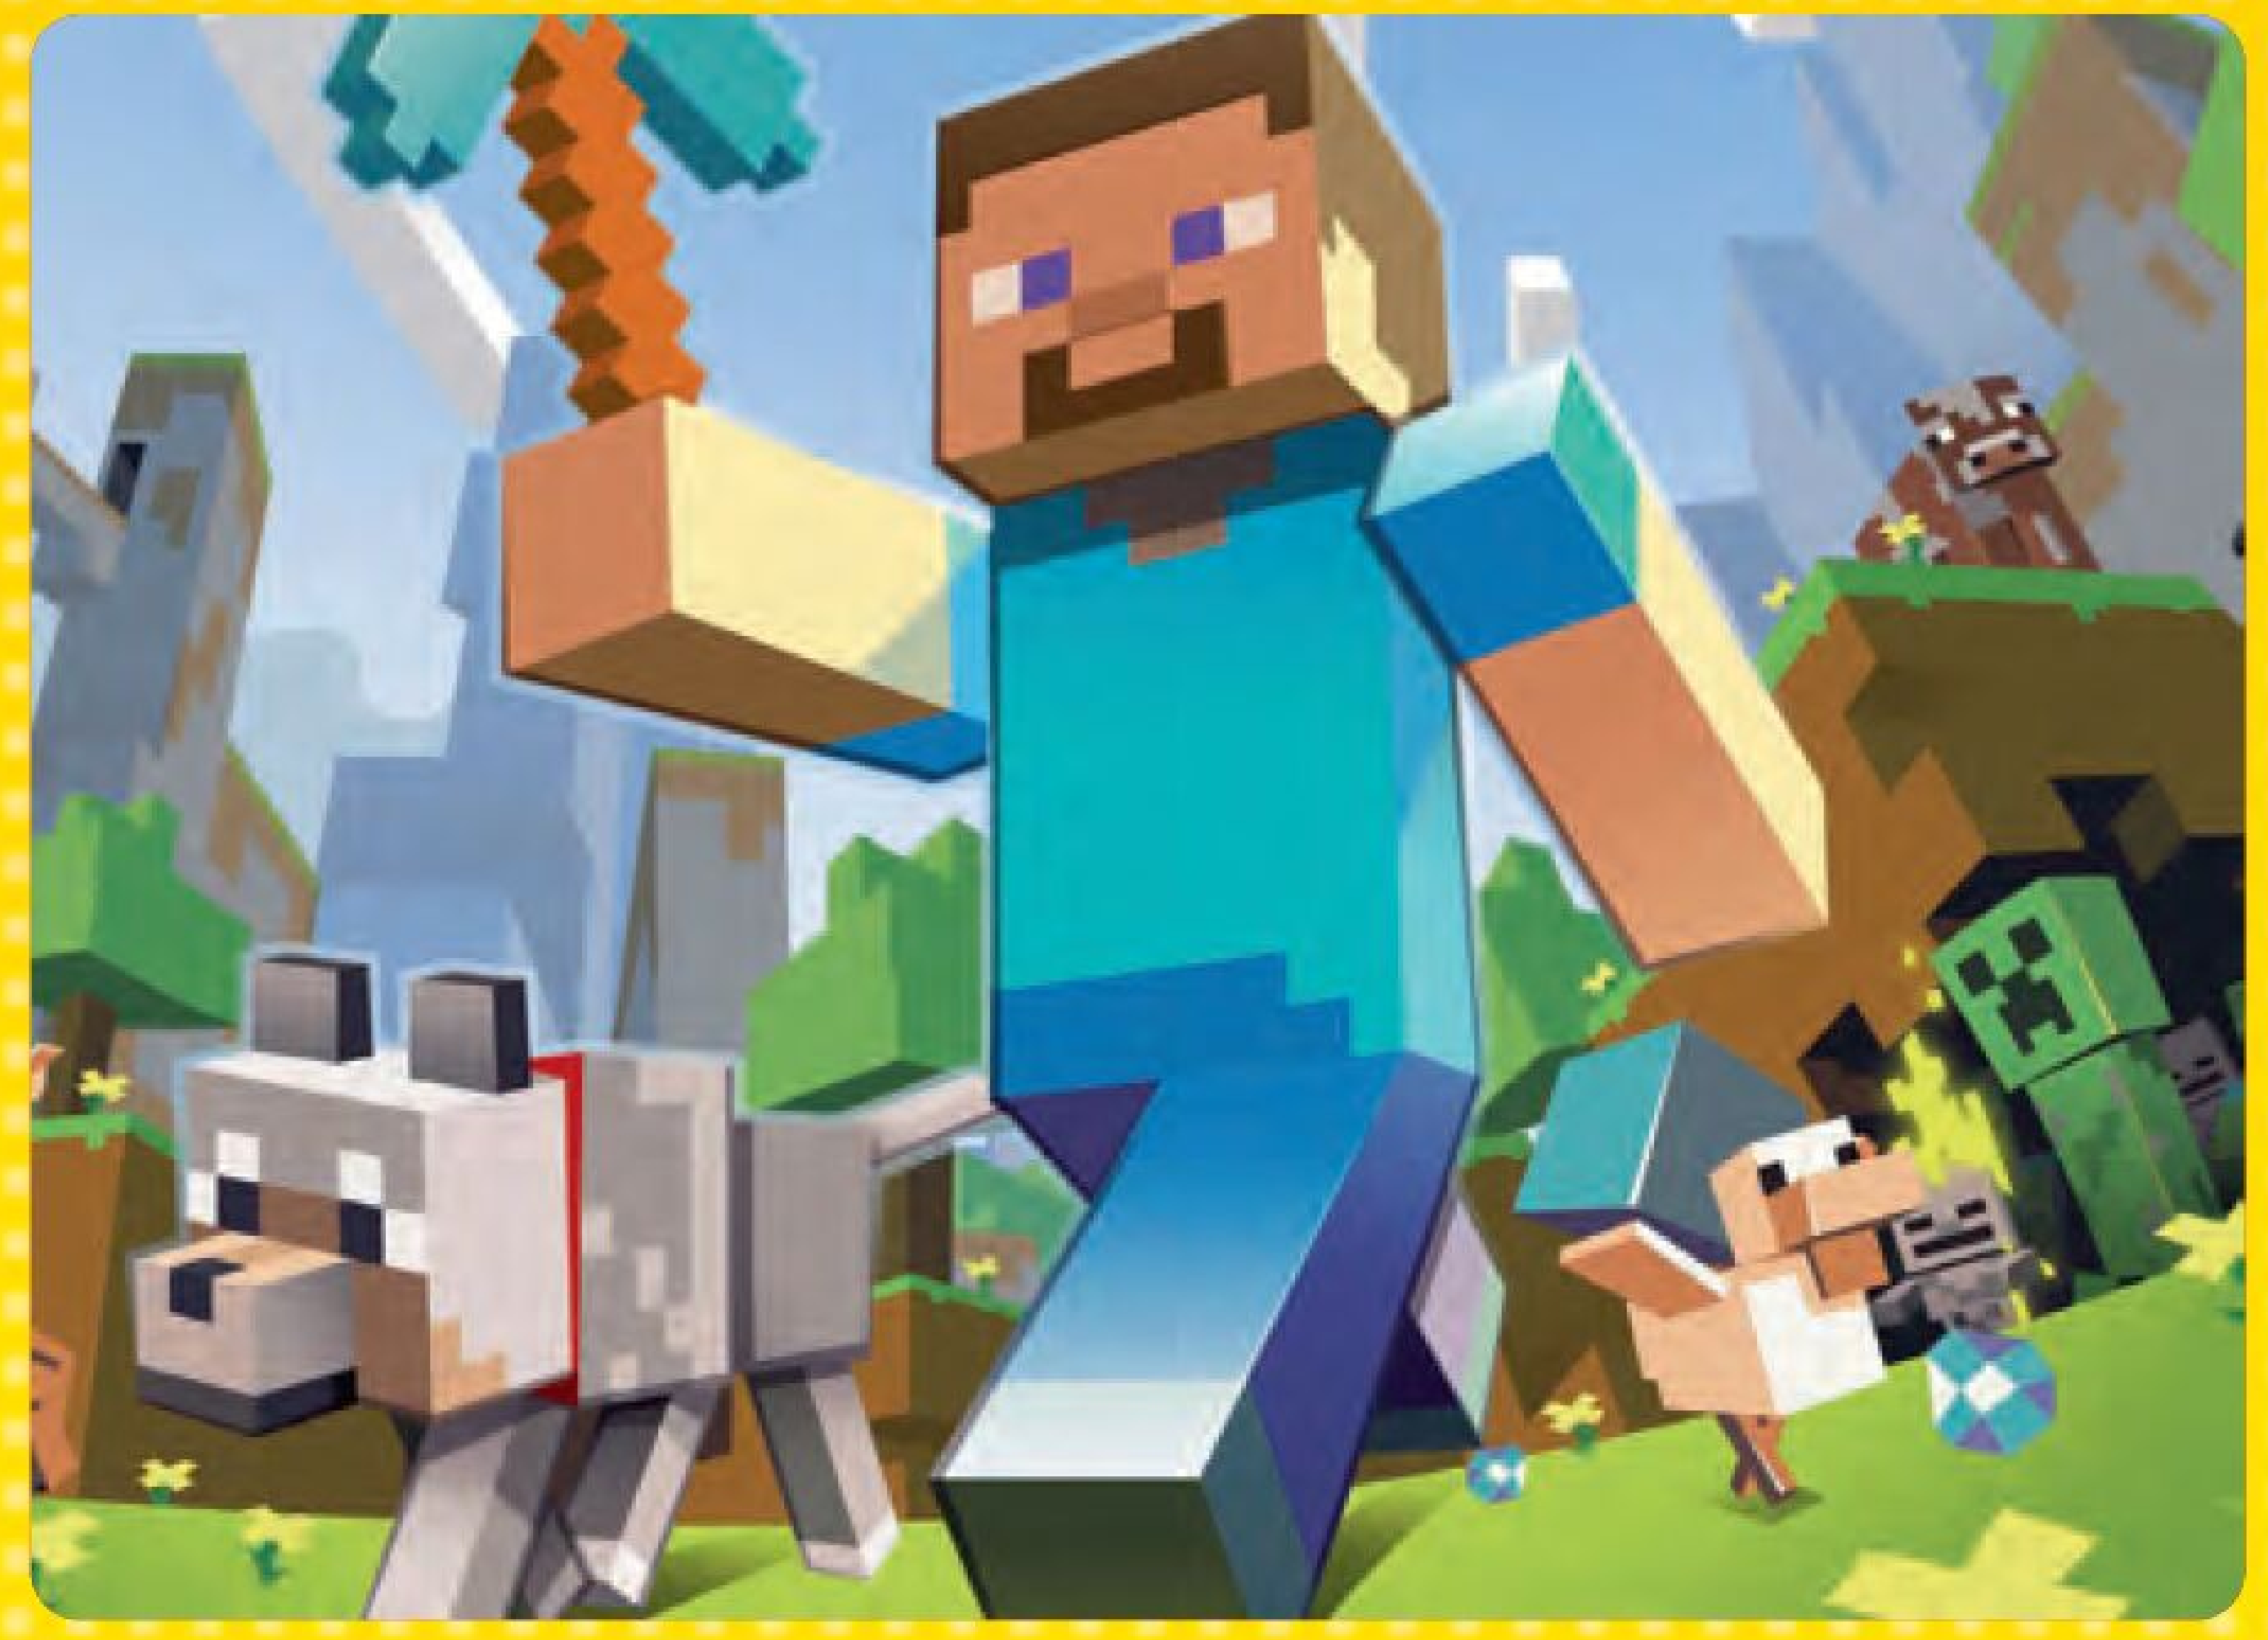
BATTLE IT OUT!

A/W Sharp Bros Illos

WHICH GAME IS THE WINNER? WE'LL UNCOVER THE BEST BITS SO YOU CAN DECIDE!



MINECRAFT

"**Minecraft** is an open-world sandbox game with endless opportunities and a simplistic style. Anyone can play it and have fun! The charm of **Minecraft** is that you can do ANYTHING in it – there's no right way to play the game!

If you ever get bored, the modding community is one of the biggest and best out there, with some of the highest quality stuff I have seen, from minigames to maps and even texture packs. There is something for everyone with **Minecraft**!

However, there are some drawbacks, like if you want your friends to join your world, then you need access to Realms. Plus, the main game can sometimes seem repetitive, but that's where mods and servers come in – they can totally elevate the gameplay."

VS.

TERRARIA

"**Terraria** is also an open-world sandbox game, but unlike **Minecraft**, it's all 2D! It has beautiful graphics and engaging gameplay that can keep you entertained for hours, while still being challenging and rewarding.

Terraria is more structured than **Minecraft**, having an obvious way to beat the game, but that doesn't mean you're restricted on how to play. You progress by beating bosses and earning rewards, and, as every boss is unique, you must strategise and practise to do so. This means that getting to the end of the game is super-rewarding!

However, it can be difficult for newer players to understand what's going on, which might be off-putting. The game can be quite difficult, but once you've mastered the moves, it's got some of the best combat we've ever played!"

THE VERDICT

"**MINECRAFT** AND **TERRARIA** ARE BOTH FANTASTIC GAMES AND WE RECOMMEND BOTH! IF YOU WANT A GAME YOU CAN MAKE YOUR OWN, THEN **MINECRAFT** IS FOR YOU. BUT IF YOU WANT A BIGGER CHALLENGE OR A MORE COMPETITIVE EXPERIENCE, THEN **TERRARIA** IS THE PERFECT CHOICE!"

POWER PROFILE!

BIRDO

POWER UP!

In **Mario Strikers: Battle League**, Birdo has the strongest shooting ability out of any character thanks to carrying the ball in her snout to fire away. You don't want to get in the way of that shot!

DAMAGE ALERT!

Her shooting may be top notch in **Mario Strikers: Battle League**, but her passing is the worst out of any character! All power and no finesse.

DID YOU KNOW?

- ★ **Birdo** is believed to be a dinosaur — like **Yoshi**!
- ★ She was first introduced in **Super Mario Bros 2** in 1988, where she was the baddie!
- ★ Originally, different coloured **Birdo** had different abilities — some shooting fire out of their mouths!
- ★ **Birdo** can also be known as **Birdetta**, and it's hinted that she and **Yoshi** are an item!
- ★ Different coloured **Birdo** variants are available to play in the **Mario Kart 8 Deluxe Booster Course Pass DLC** and **Mario Kart Tour**.

FANTASY LIFE I: THE GIRL WHO STEALS TIME

GENRE: RPG SYSTEM: NINTENDO SWITCH

Journey between two time periods for a story that's a thousand years in the making in Fantasy Life i: The Girl Who Steals Time!

A once thriving island in the seas, Riveria has fallen to ruin and a fossilised dragon will lead you there. There's a mystery that nobody has solved but that's where you come in! You'll travel back in time to collect resources then use them to bring the island back to its former glory in the present.

There are many different roles you can take on called Lives. You could become a miner and gather ore or defeat monsters as a magician. If you have a hard time deciding which Life to pick, the good news is that you can switch between them. This is an awesome feature that will prevent gameplay from feeling too repetitive.

The more you travel through time, you'll uncover truths about the island. You'll find mysterious objects called Strangelings which are possessed by spirits, but you can save them by invoking the power of the Goddess!

This is the largest open world in the Fantasy Life series and if exploring it on your own feels too daunting, you can play with friends in online or family co-op. Luckily, you can call on mounts, which makes travelling across the island quicker than you might think.

This game has major cosy vibes but there's also action and adventure. There's plenty to do, but you can do it all at your own pace. It's up to you to choose the life you want to live!

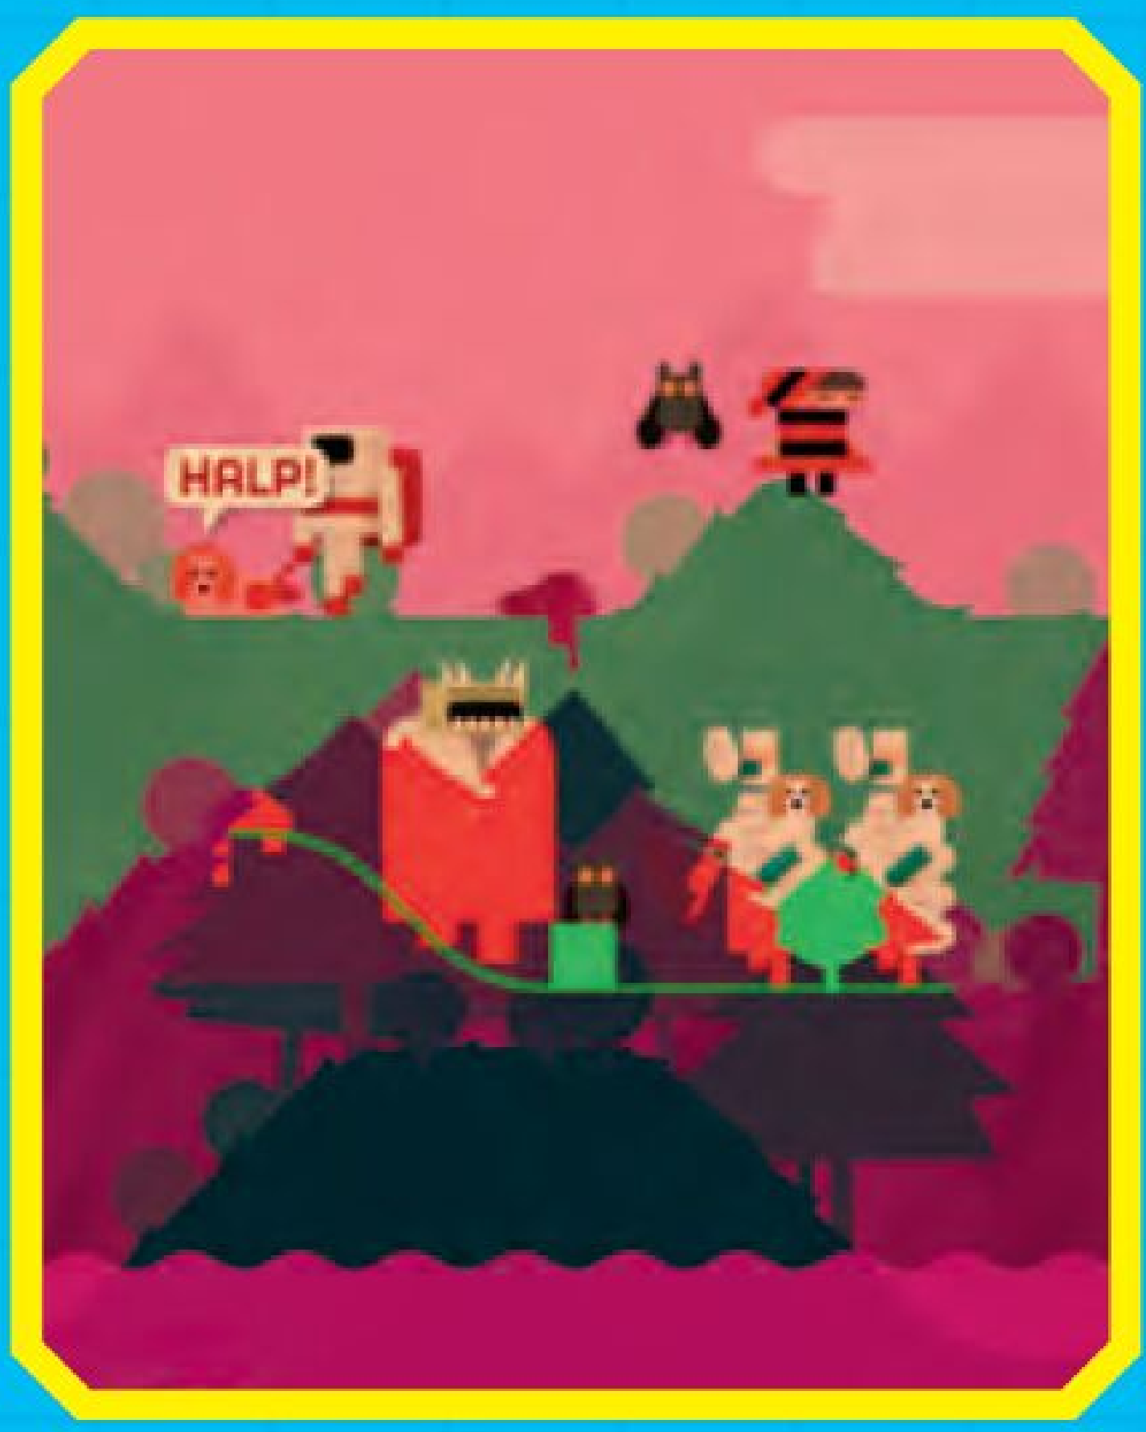
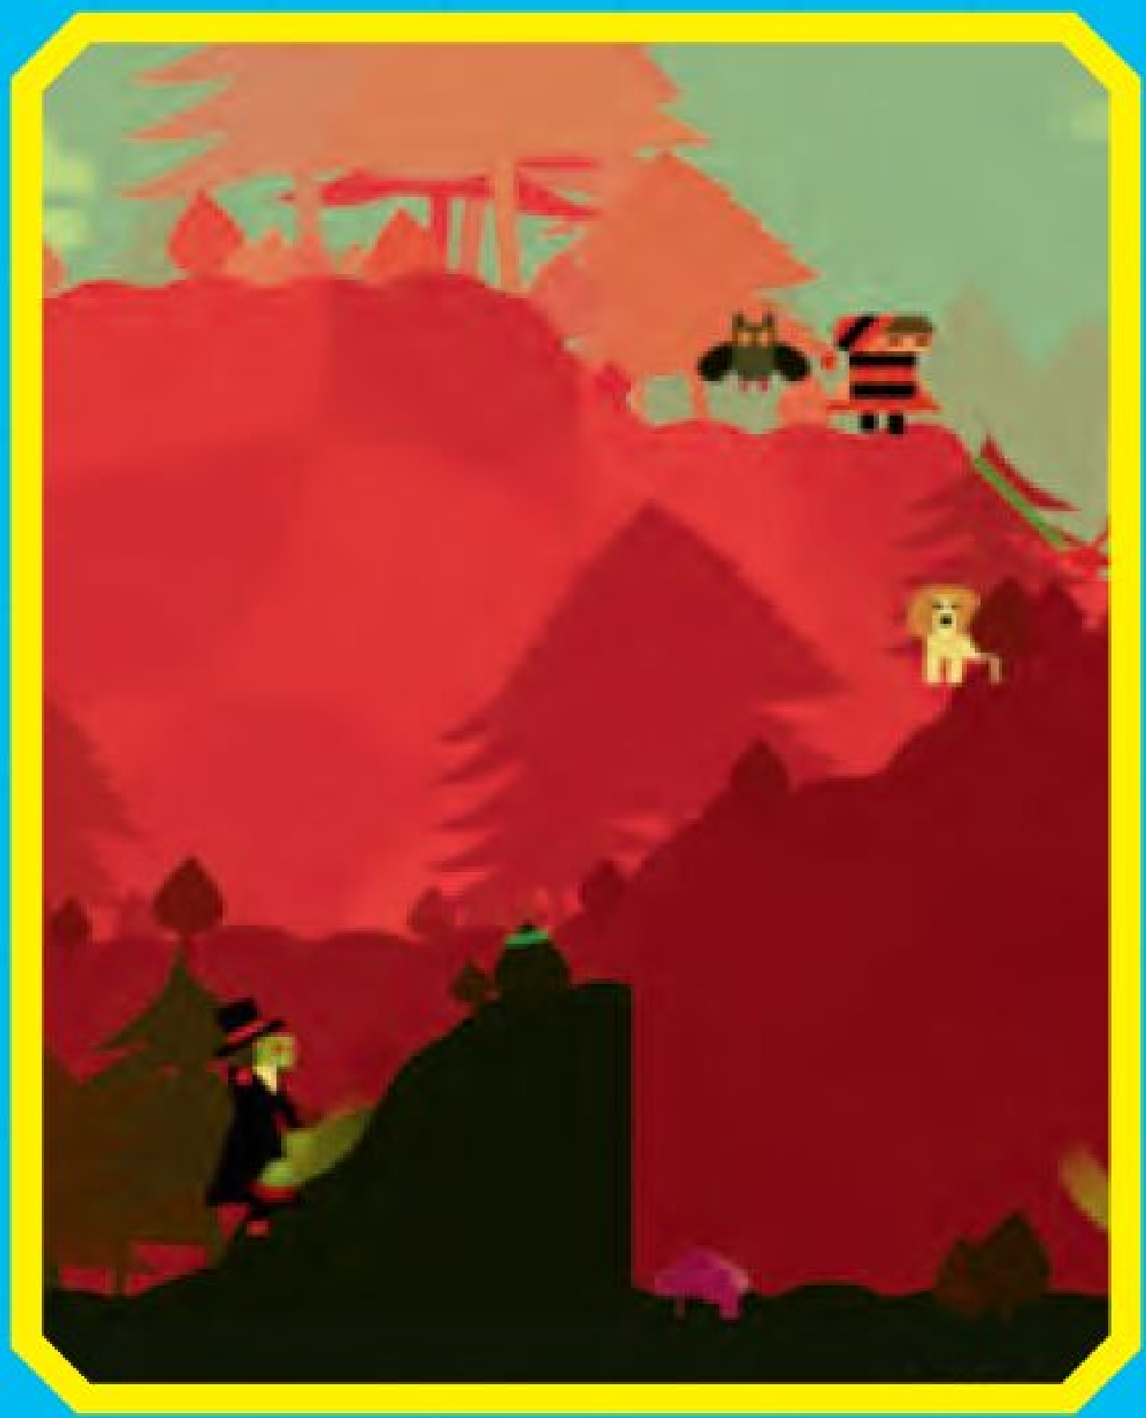
RESCUE: THE BEAGLES

GENRE: PLATFORMER, ARCADE SYSTEM: NINTENDO SWITCH





This 2D platformer was originally released for PC nearly 20 years ago but it's found a brand-new home on the **Nintendo Switch**!

What makes **Rescue: The Beagles** unique is its multi-level platforms that run along each map. There are often three or four of these different platforms, all at varying heights – but watch out, jump from one that's too high and you'll lose a life!

As you run and jump across each level, the aim is to collect the loose beagles that have escaped from an evil laboratory. Since the levels are side scrolling, the game feels fast-paced. There are also other items to collect that will make your rescue mission easier, like bats that you can throw at enemies, med packs, ropes, and parachutes. If you successfully complete a level, you'll be able to pick a skill to level up to help you get further and further through the game.

Even if you're a platform pro, there's a lot to learn, but it's worth sticking it out and learning how the game works. Once you master the gameplay and make it deeper into the game, you'll be hooked on trying to set new high scores!

YOOKA-REPLAYLEE

GENRE: ADVENTURE, PLATFORMER SYSTEM: PS5, XBSX/S & NS

Expect double trouble as one of our fave gaming duos are back!

Coming to consoles soon, **Yooka-Replaylee** is a remastered and remixed edition of the 2017 hit, **Yooka-Laylee**, made by the same team behind the **Banjo-Kazooie** and **Donkey Kong Country** games. We can't wait to get stuck into all of the brand-new features, including a new map, new currency, and loads of new customisation options! Plus, the game has improved art and animation, a new camera, and revised controls so that it looks and feels better than ever before.

If all of that wasn't enough, the totally iconic **Shovel Knight** will be making an appearance in-game with a new quest for you to undertake as you aim to collect all the magical Pagies and save the day!

If you want a vibrant and fun 3D platformer with lovable characters, then we're sure **Yooka-Replaylee** is one for you!

PGA TOUR 2K25

GENRE: SPORTS SYSTEM: PS5, XBSX/S & PC

Tee up for the next round of PGA Tour!

With all-new EvoSwing mechanics, as well as loads of new MyPLAYER customisation options, PGA Tour 2K25 looks and feels more realistic than ever! Plus, as well as competing in three epic Major Tournaments in MyCAREER, you can also take part in awesome Ranked Tours, too.

We think it's super-cool that IRL tournaments like The Open Championship and the PGA Championship will be playable in the game for the first time ever, making winning feel even more exciting! We also love being able to play on iconic courses from all over the world, with each hole, bunker, fairway, and green expertly recreated.

Whether you're a golfing great, a sports superfan, or completely new to the series, we're sure PGA Tour 2K25 is set to be the franchise's best round ever.

BIG HELMET HEROES

GENRE: ACTION SYSTEM: NS, PS5, XBSX/S, PC

Strap on your oversized helmet and get ready for some chaotic, over-the-top action in Big Helmet Heroes!

BIG HELMET HEROES

This game looks very cinematic thanks to its awesome visuals, nonstop action and movie-quality animations. You'll make your way through stunning realms filled with mummies, pirates and frightening unicorns! When you encounter goblins and other tough bosses, be sure to use the environment to your advantage as well as your weapons.

There are 29 heroes hidden across various kingdoms, find them and choose your favourite to save the princess. There are four distinct combat styles: The Warrior, Brute, The Rogue and The Monk. There are advantages to each type but if you want to balance attack and defence, it looks like The Warrior is the best choice for that!

Whether you're charging into battle solo or teaming up with a friend in local co-op mode, you can expect to have lots of fun and encounter plenty of surprises along the way!

SONIC TURB

SPEED YOUR WAY TO VICTORY!

START WITH SONIC

By playing **Sonic Generations** first, you'll pick up the basics much quicker. Once you've bossed that, **Shadow Generations** – which has more complicated battle mechanics – won't seem so daunting!

READY FOR ACTION!

PROTECT YOUR RINGS

Collect as many rings as possible during each playthrough and avoid losing them by getting hit by enemies or other obstacles. At the end of each stage, your time and rings count towards your rank!

CHAOS CONTROL

Shadow's Chaos Control is super-helpful, but you can't use it any time you like. It's best to save it for those moments when you need it most!

0 TIPS

SPEED AND STRATEGY

For **Sonic** and **Shadow**, to go fast you'll need to focus on keeping your momentum by planning your moves ahead. Only use boost on straight paths or clear areas and try to take smooth turns to avoid slowing down!

PRACTICE MAKES PERFECT

Some levels are tricky and getting a perfect run on the first attempt isn't an easy task. Revisit completed levels to improve your score and collect missed items!

MASTER YOUR FAVE LOZ GAMES!

THE ZEL

>> Explore a transformed Hyrule!

FANTASTIC FUSION

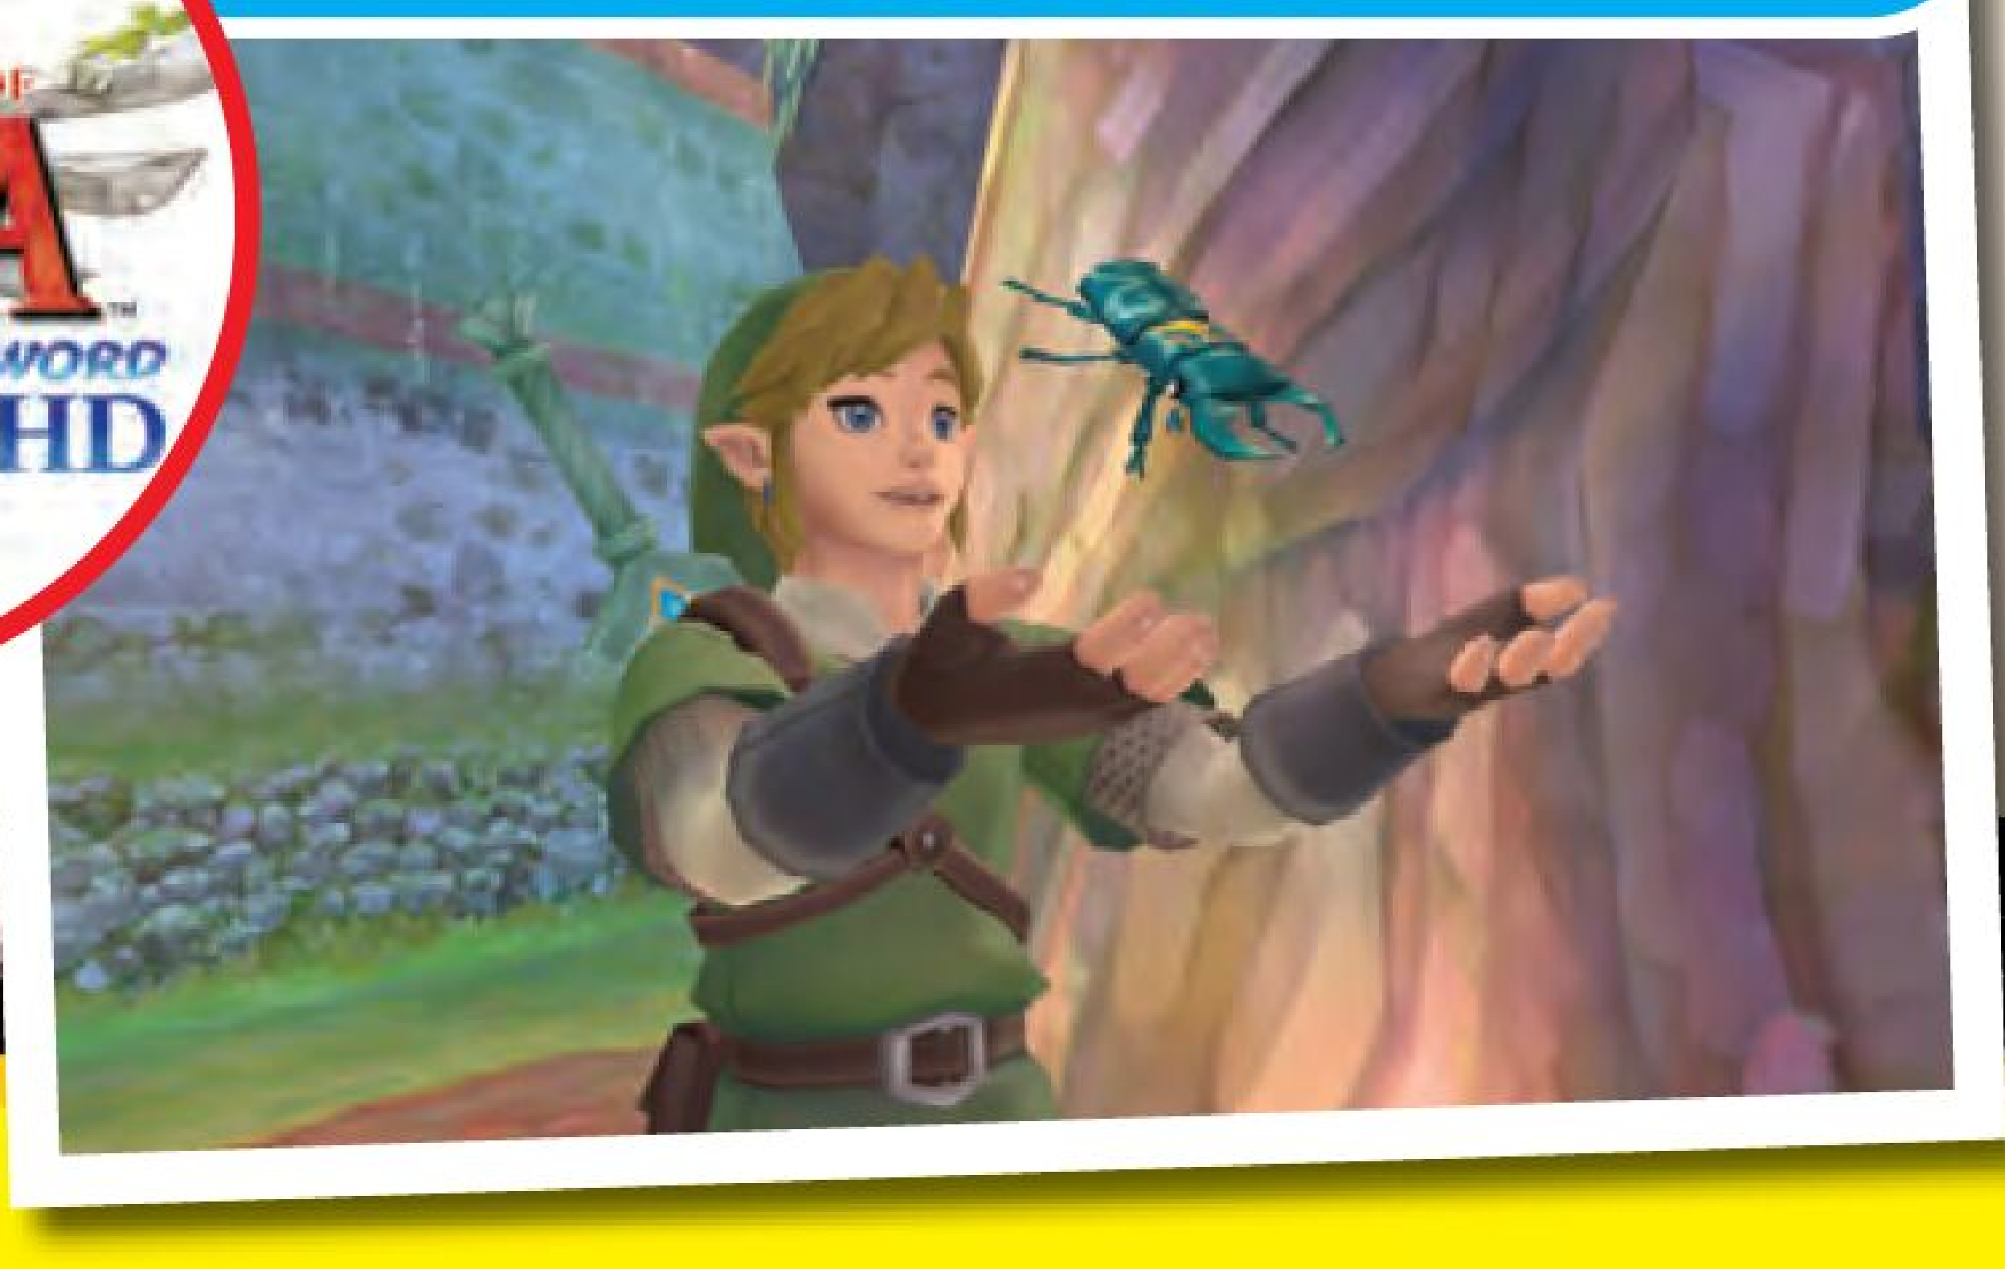
● It's easy to run out of inventory space, especially early on in the game – but that doesn't mean you should leave multiple weapons behind. You can fuse weapons together which can actually improve their durability and attack power. For example, fusing bomb flowers to arrows deal a lot of damage and are useful if you run into a horde of enemies!

DANGERS OF THE DEPTHS

● With tougher enemies and Gloom damage, the Depths are much harder to navigate than the Surface or Sky. Don't feel like you must stick out a losing battle if you're really struggling, just run away. You can always stop by later once you have better equipment and armour!

FEEL THE TRIFORCE!
IT'S TIME TO HY-RULE!

BRILLIANT BUGS



>> Experience the earliest tale in the LoZ timeline!

● You'll come across plenty of bugs in **Skyward Sword** and they're definitely worth your while catching! Buy a net from **Beedle's** Shop in **Skyloft** and you can then turn them into all sorts of different potions by visiting **Bertie** in the Bazaar. Being stocked up on healing potions is always a good idea!

DA ZONE

>> It's Zelda's time to shine!

RETRACE YOUR STEPS

● Once you've cleared an area of its rifts, that doesn't always mean your work there is done! Head back to locations you've visited before and there's a good chance there'll be some additional tasks for you to complete. It's also worth retracing your steps as removing rifts opens up areas for exploration – who knows what you might find!

TAKE A LOOK AROUND

● Use the Right Stick to move the camera around while you're exploring Hyrule. It's helpful for when you're creeping through the Suthorn Forest and want to prepare yourself for what enemies are lying ahead. You can also use it at Eldin Volcano to scout ahead for hidden drops!

>> Defeat Calamity Ganon!

SPECIAL ATTACK STRATEGY!

● Keep a close eye on your special attack meter and be sure to use it when you need it most! You can eliminate some pretty tough enemies but timing it wisely also allows you to dodge dangerous attacks. If you use it just as a Guardian fires its laser at you, you won't take any damage!

MONEY MAKING MINIGAME

>> Wake the sleeping Wind Fish!

● Don't worry about scraping rupees together for high-priced items! One of the quickest ways to build up your funds in Link's Awakening is mastering the Rapid Raid mini game. Each attempt costs 100 rupees but by using your hook shot, you'll get to hard-to-reach places and boost your in-game wealth. There are also plenty of other useful items to collect, too!

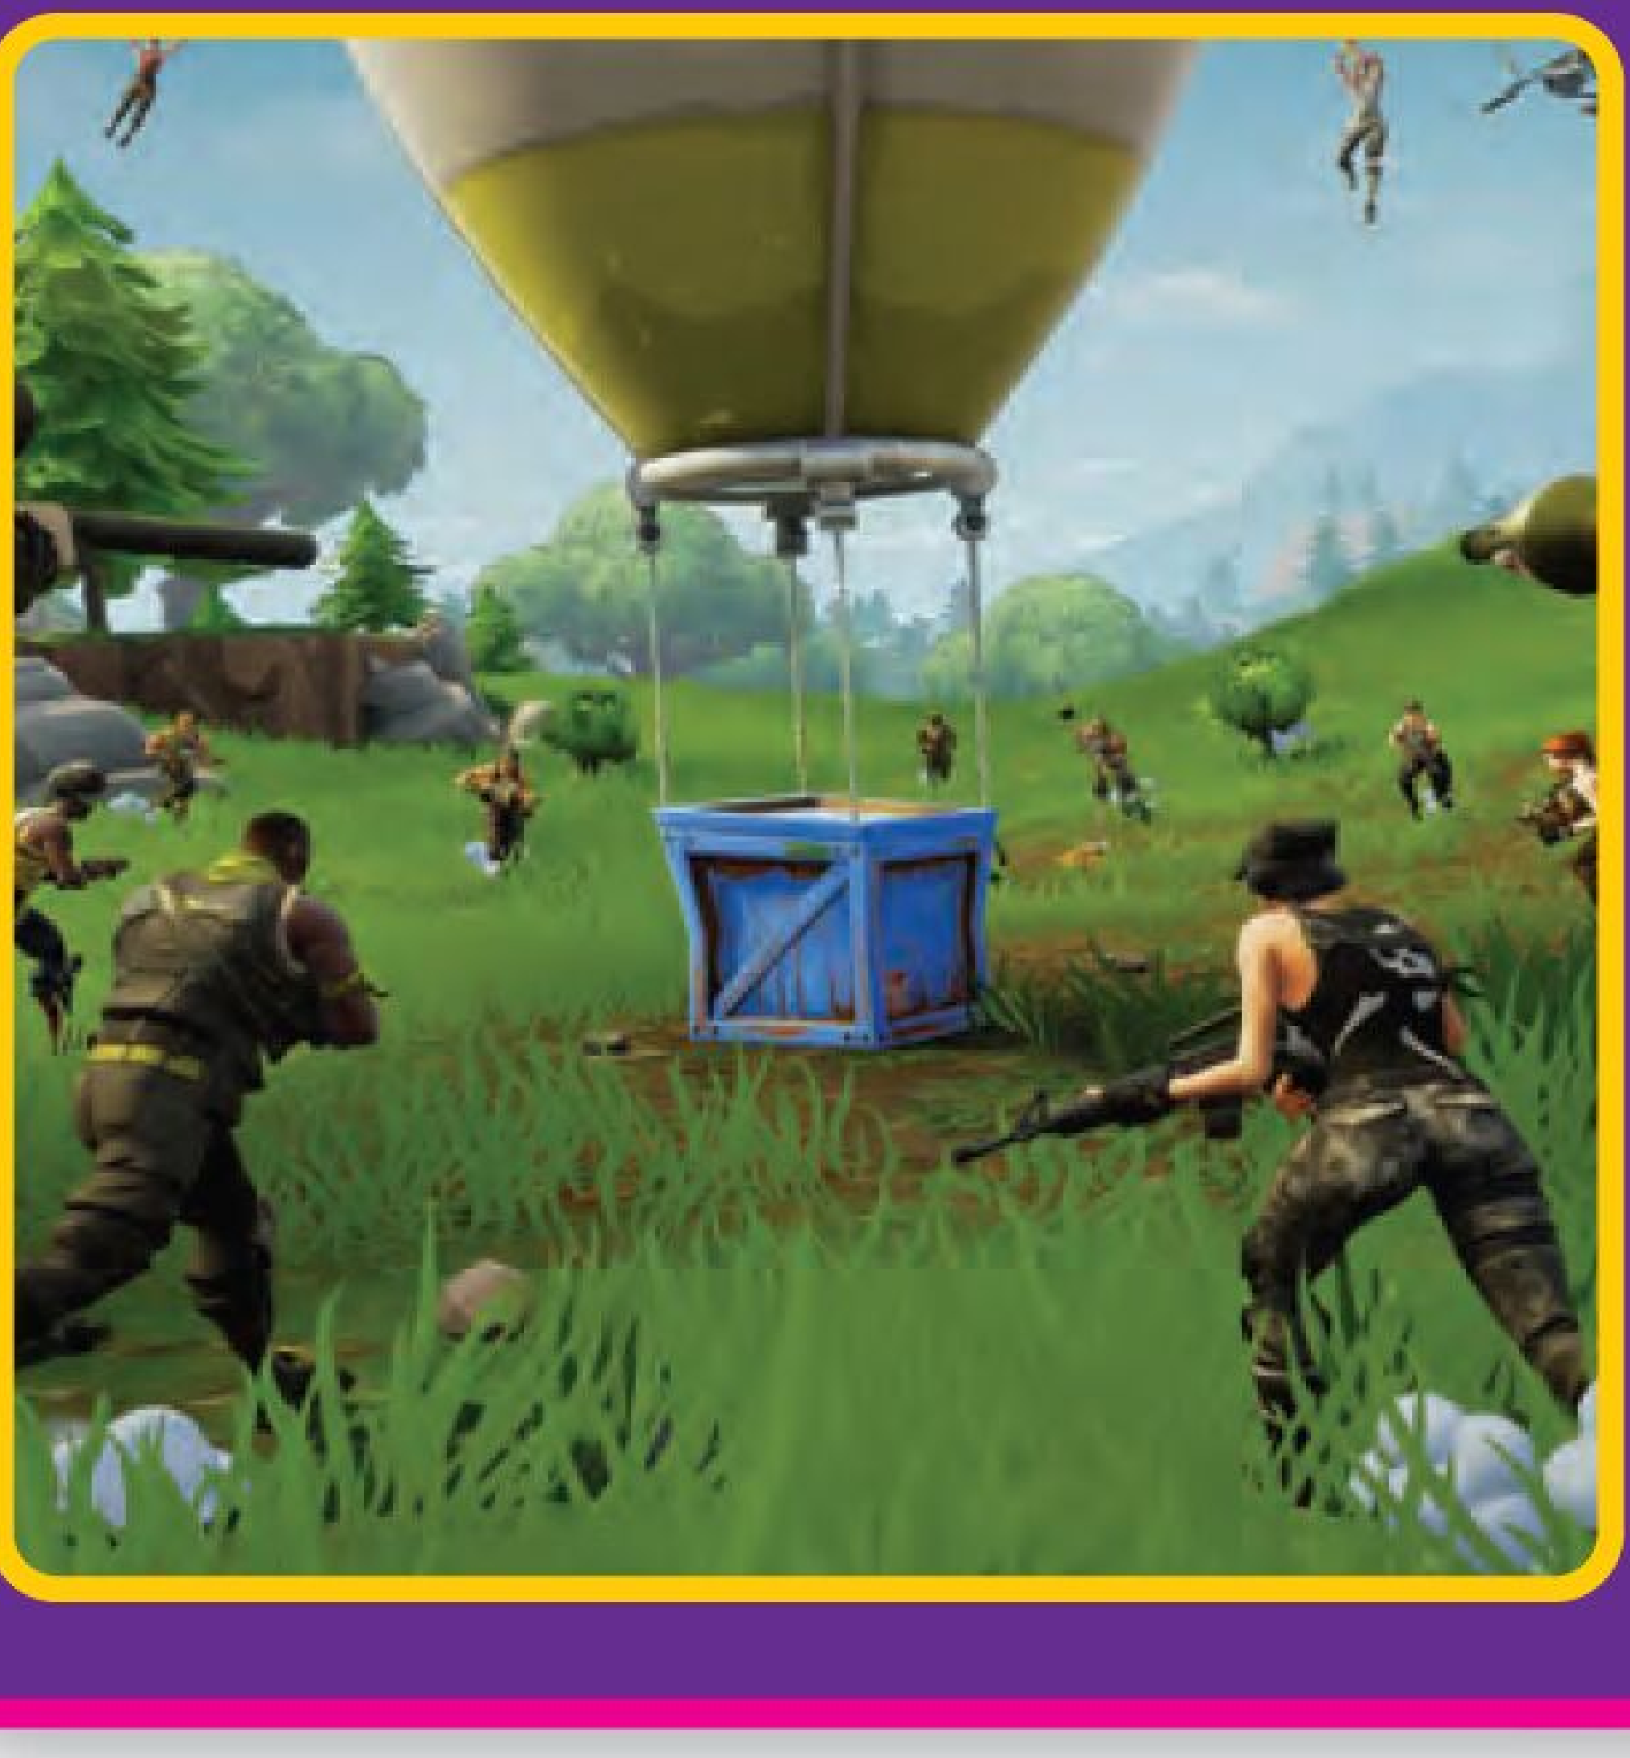
FORTNITE LOOT LEGEND!

LOOT YOUR WAY TO VICTORY!

SMART LANDING SPOTS



★ Crowded locations are a recipe for an early elimination! Instead land off the main flight path and head for cabins, small outposts, or less-known buildings. These locations may not be the most popular, but there's still decent loot to be swiped there!

PLAN YOUR PATH

★ Plan your loot path to grab better gear, stay ahead of the storm, and be ready for any fight! Head through quieter areas first but be prepared to change your route if other players have the same idea. It's also worth clearing houses or buildings from top to bottom to avoid missing loot.

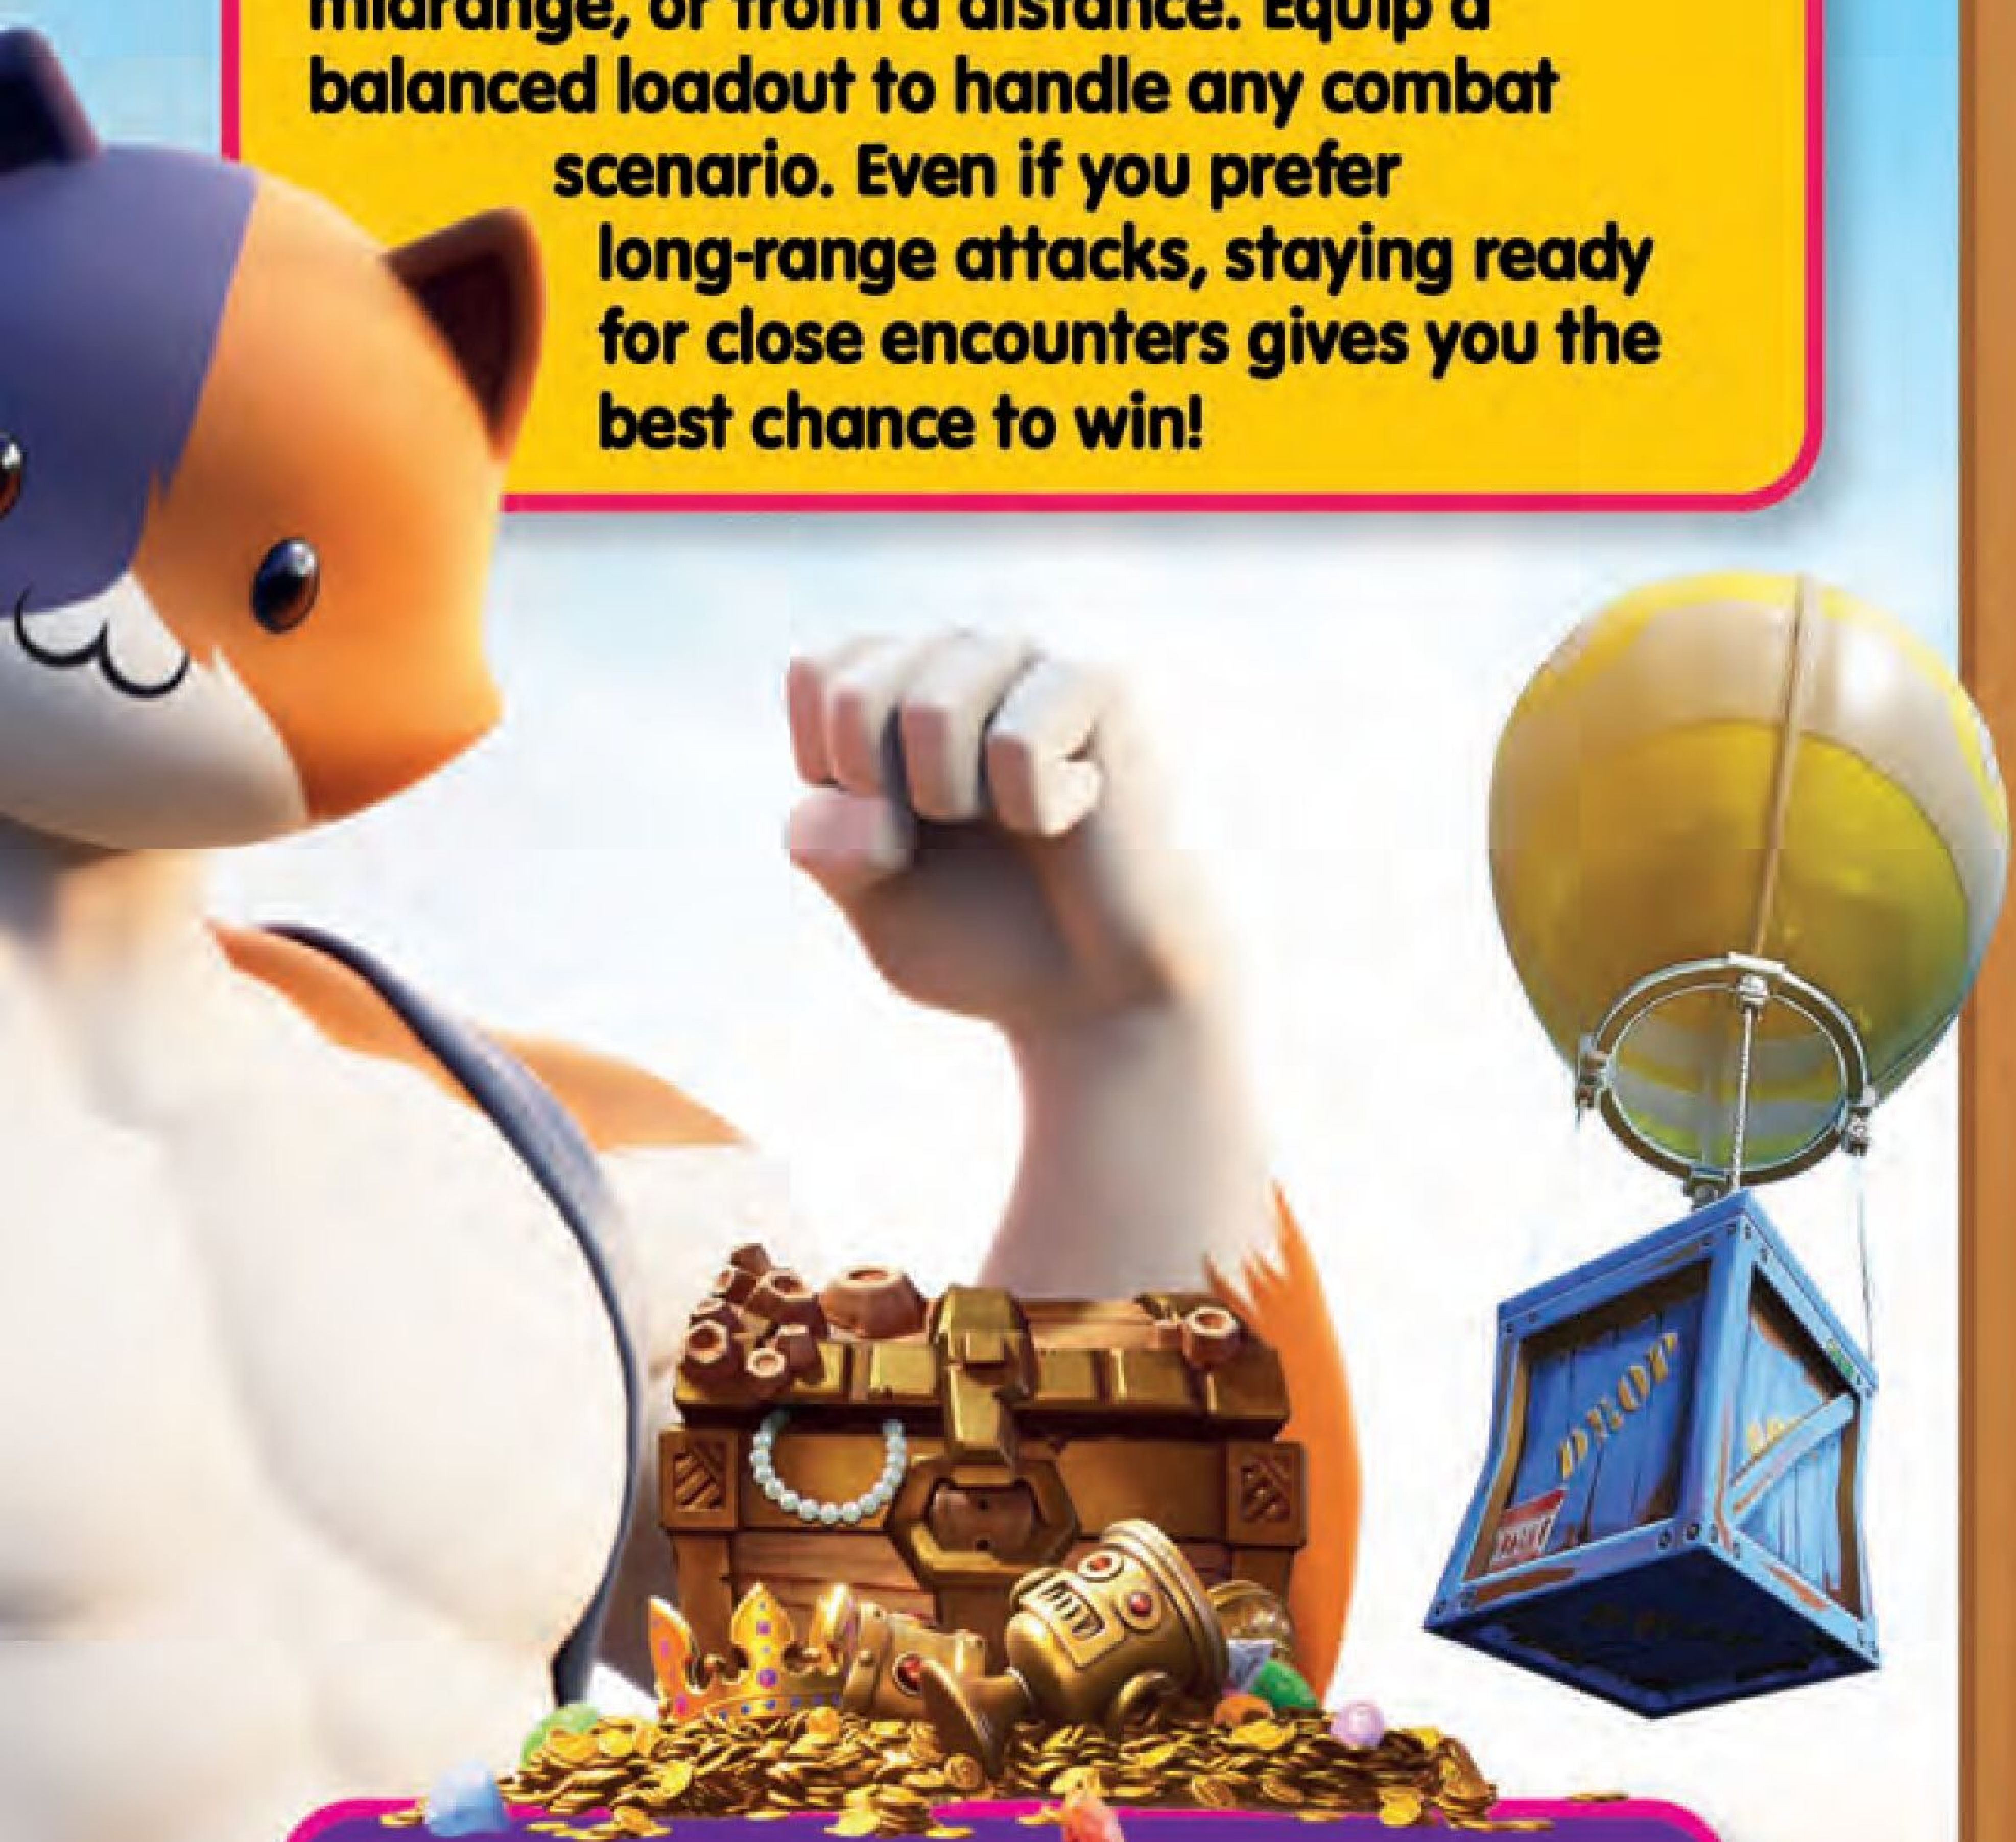
LOOT AND RUN

★ Grab what you need and get outta there to avoid getting ambushed! Prioritise getting a weapon quickly, you might not find your favourite one right away but it's better to have some kind of defence. You can always switch it out for better loot later!

VARY YOUR LOADOUT

★ Gunfights can happen up close, at midrange, or from a distance. Equip a balanced loadout to handle any combat scenario. Even if you prefer long-range attacks, staying ready for close encounters gives you the best chance to win!



CHECK FOR CHESTS

★ Chests are one of the best ways to gear up quickly! Finding and opening them will give you a strong start, just listen for a soft humming noise. Other players may hear it too, so it might be worth building walls around you for extra protection if you're in a tricky spot!

MEWTWO

NO: #150

TYPE: PSYCHIC

ABILITY: PRESSURE

HEIGHT: 2M

WEIGHT: 122KG

Mewtwo was made by **Team Rocket** in an attempt to clone the mythical **Pokémon Mew**. Despite the lab being on the remote **Cinnabar Island**, **Mewtwo** ran away from its creators and instead lives in **Cerulean Cave**. It's so powerful the cave is even guarded from the outside to make sure no trainers sneak in and get hurt trying to find it.

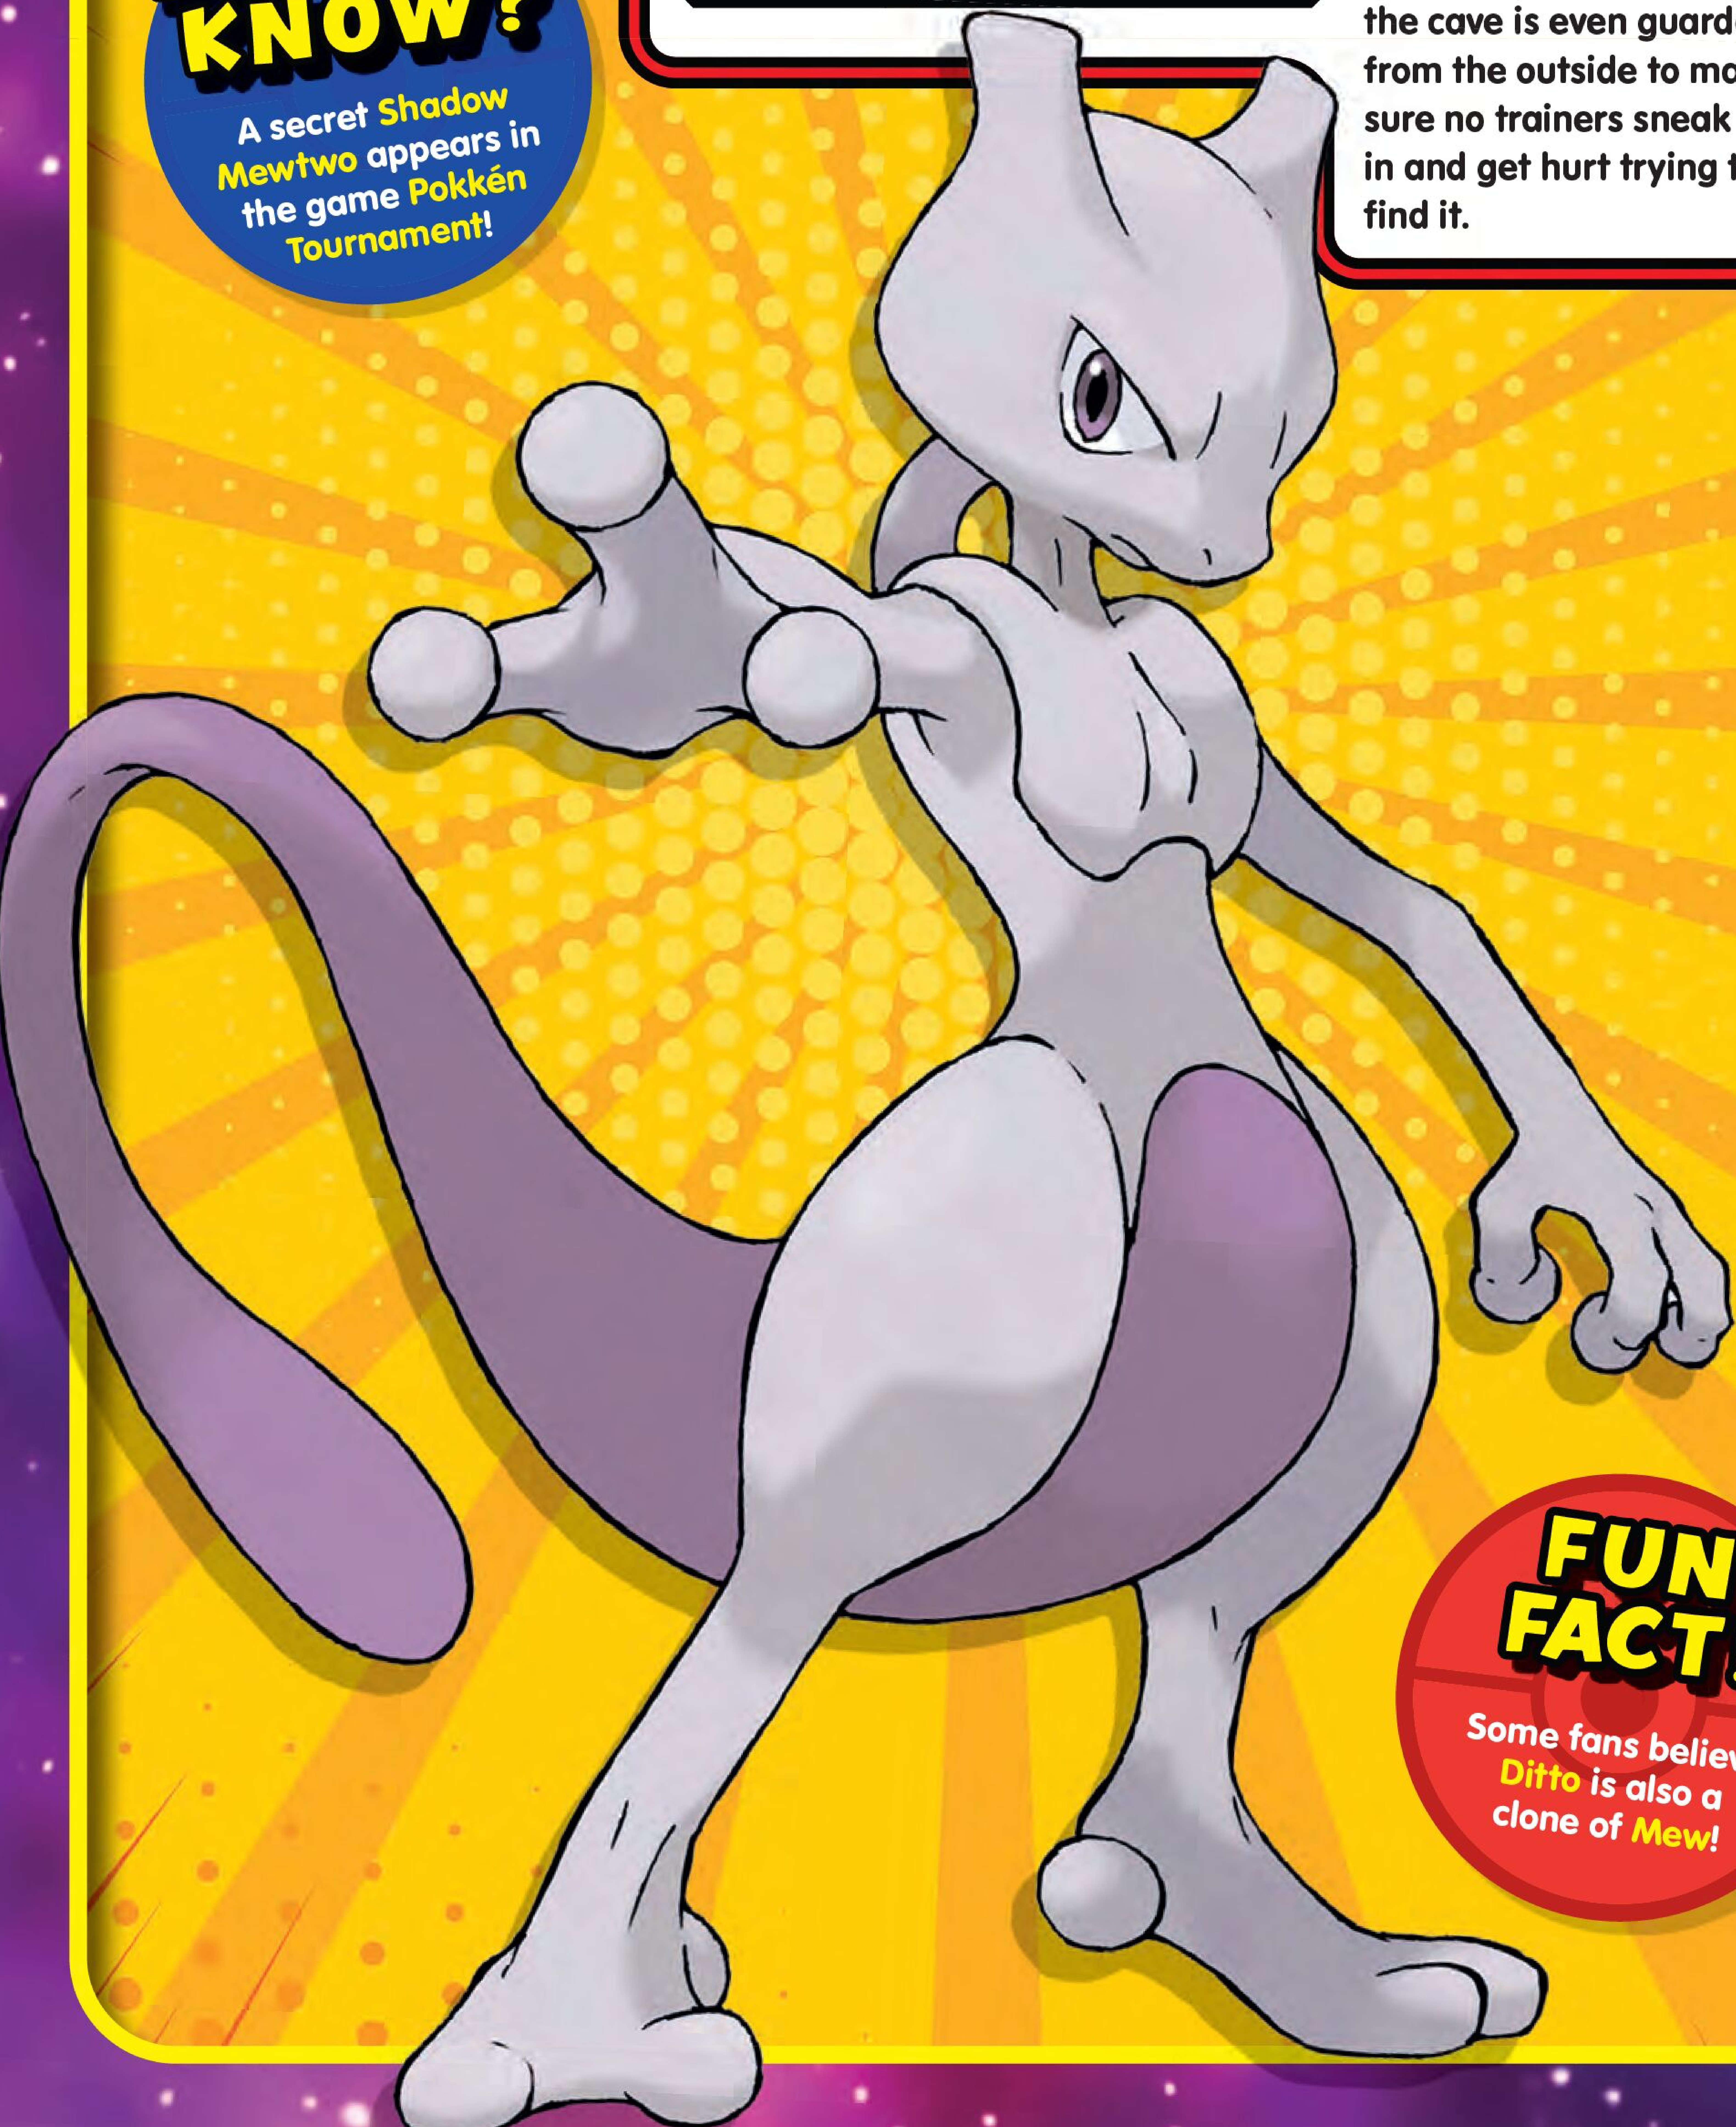
A secret **Shadow Mewtwo** appears in the game **Pokkén Tournament**!



FUN FACT!

Some fans believe **Ditto** is also a clone of **Mew**!

ZAPDOS

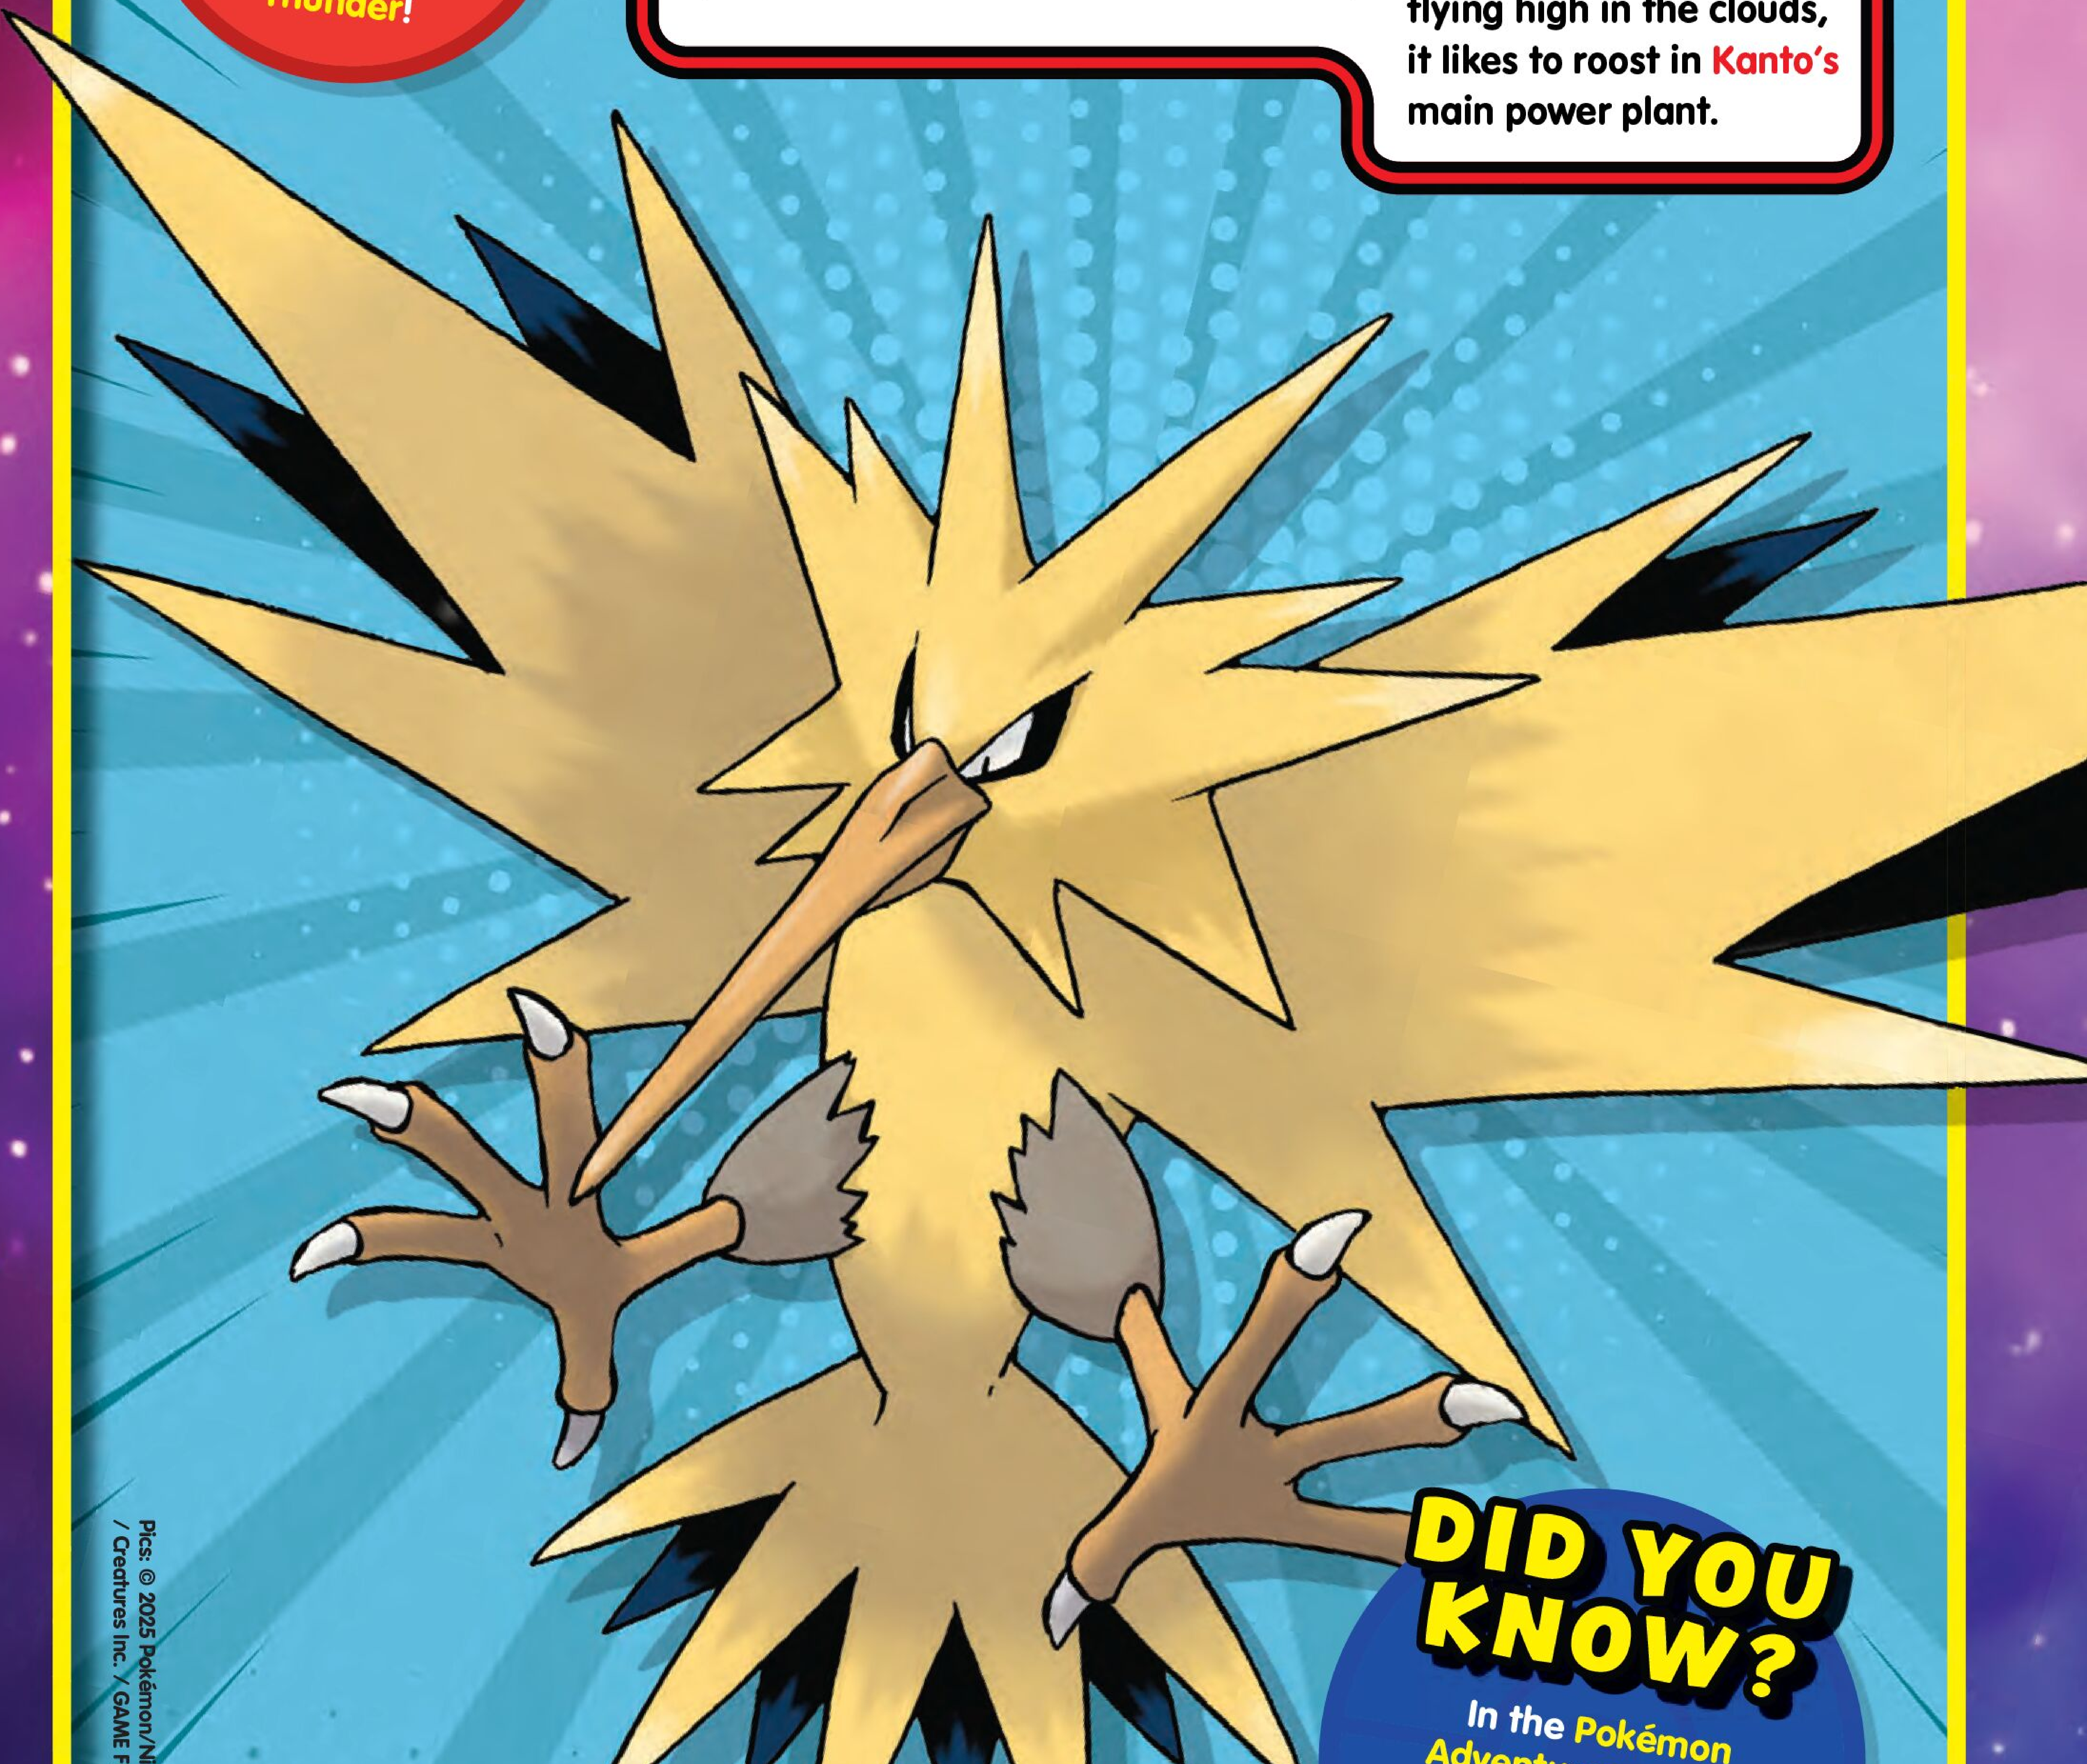
TYPE: ELECTRIC/FLYING
ABILITY: PRESSURE
HEIGHT: 1.6M
WEIGHT: 52.6KG

Zapdos is one third of a trio of Legendary birds from **Kanto** along with **Moltres** and **Articuno**. **Zapdos** has the power to control storms and lightning at will, which has led to some people worshipping it as a god of thunder. When it's not flying high in the clouds, it likes to roost in **Kanto's** main power plant.

FUN FACT!

In Japan, **Zapdos** is simply called **Thunder**!



DID YOU KNOW?

In the **Pokémon Adventures** manga, **Zapdos** gets fused with two other Legendary birds to form **Zapmolcuno**!

RAYQUAZA

NO: #384

TYPE: DRAGON/FLYING

ABILITY: AIR LOCK

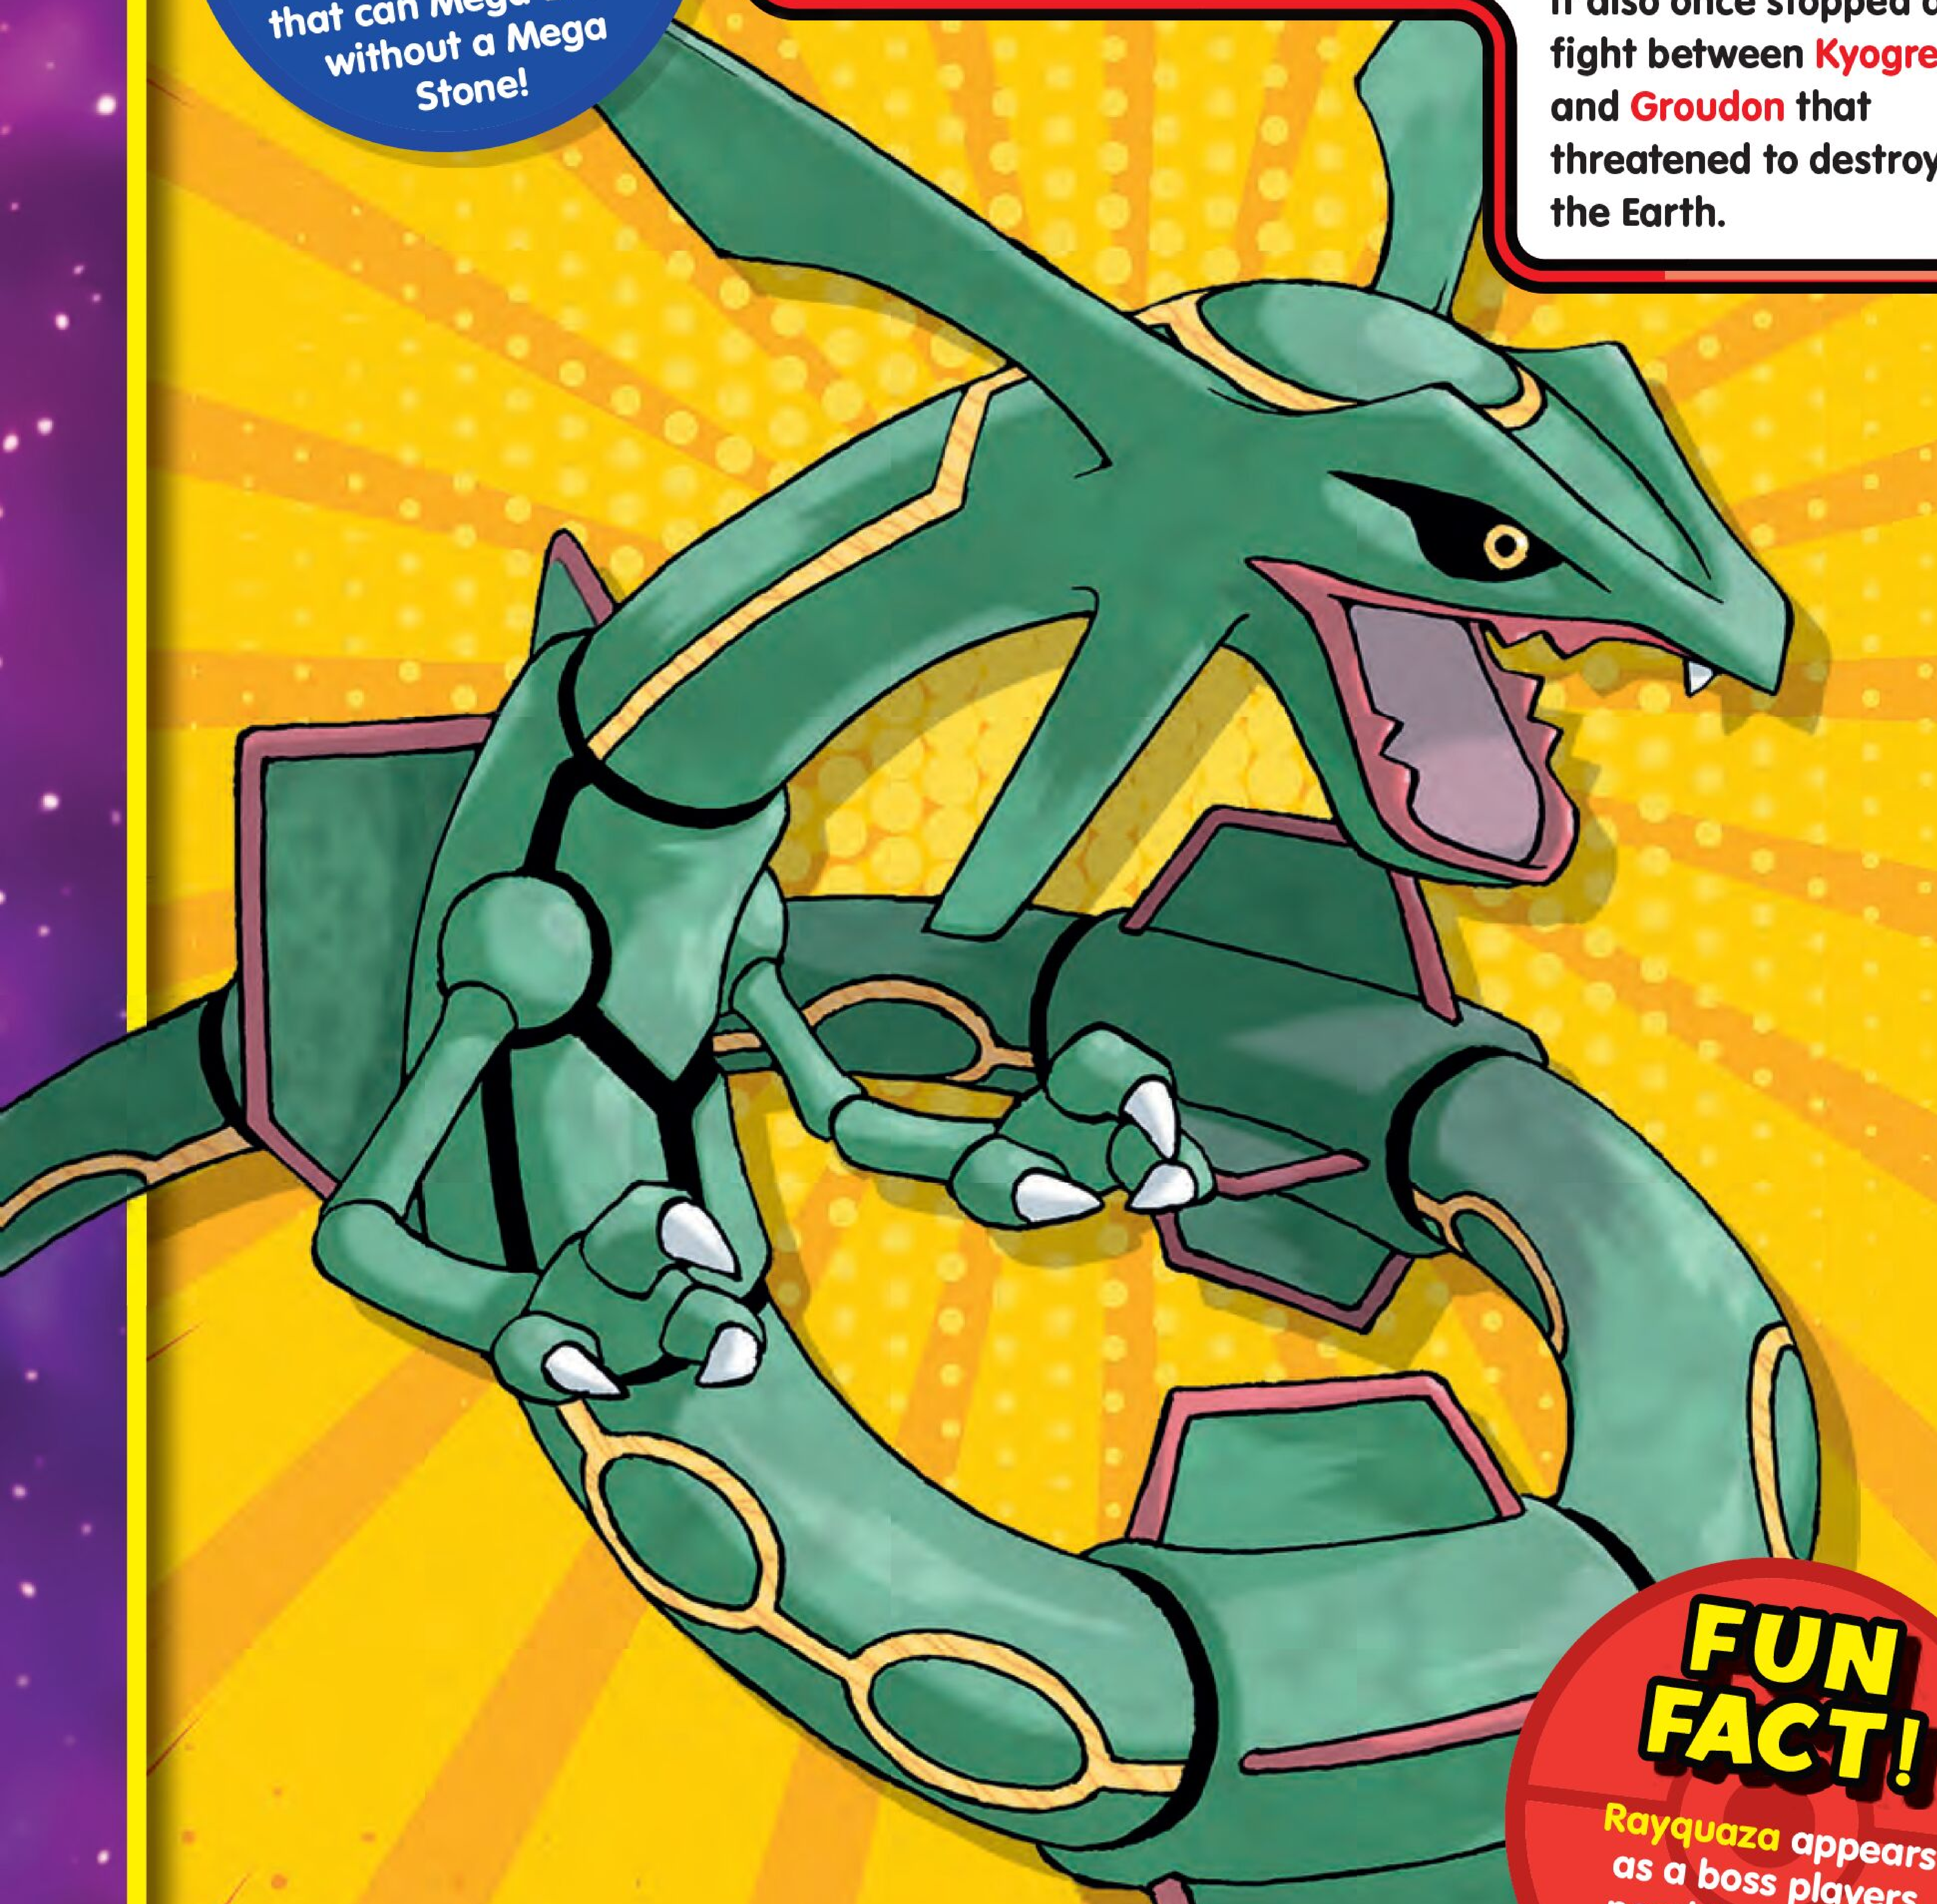
HEIGHT: 7M

WEIGHT: 206.5KG

Rayquaza lives in the ozone layer, high above the clouds, on the border between Earth's atmosphere and space. From there, it protects the Earth from meteorites, asteroids and on rare occasions, aliens like **Deoxys**. According to legend, it also once stopped a fight between **Kyogre** and **Groudon** that threatened to destroy the Earth.

DID YOU KNOW?

Rayquaza is the first and only **Pokémon** that can Mega Evolve without a Mega Stone!



FUN FACT!

Rayquaza appears as a boss players need to defeat in **Super Smash Bros. Brawl**!

GROUDON

NO: #383

TYPE: GROUND

ABILITY: DROUGHT

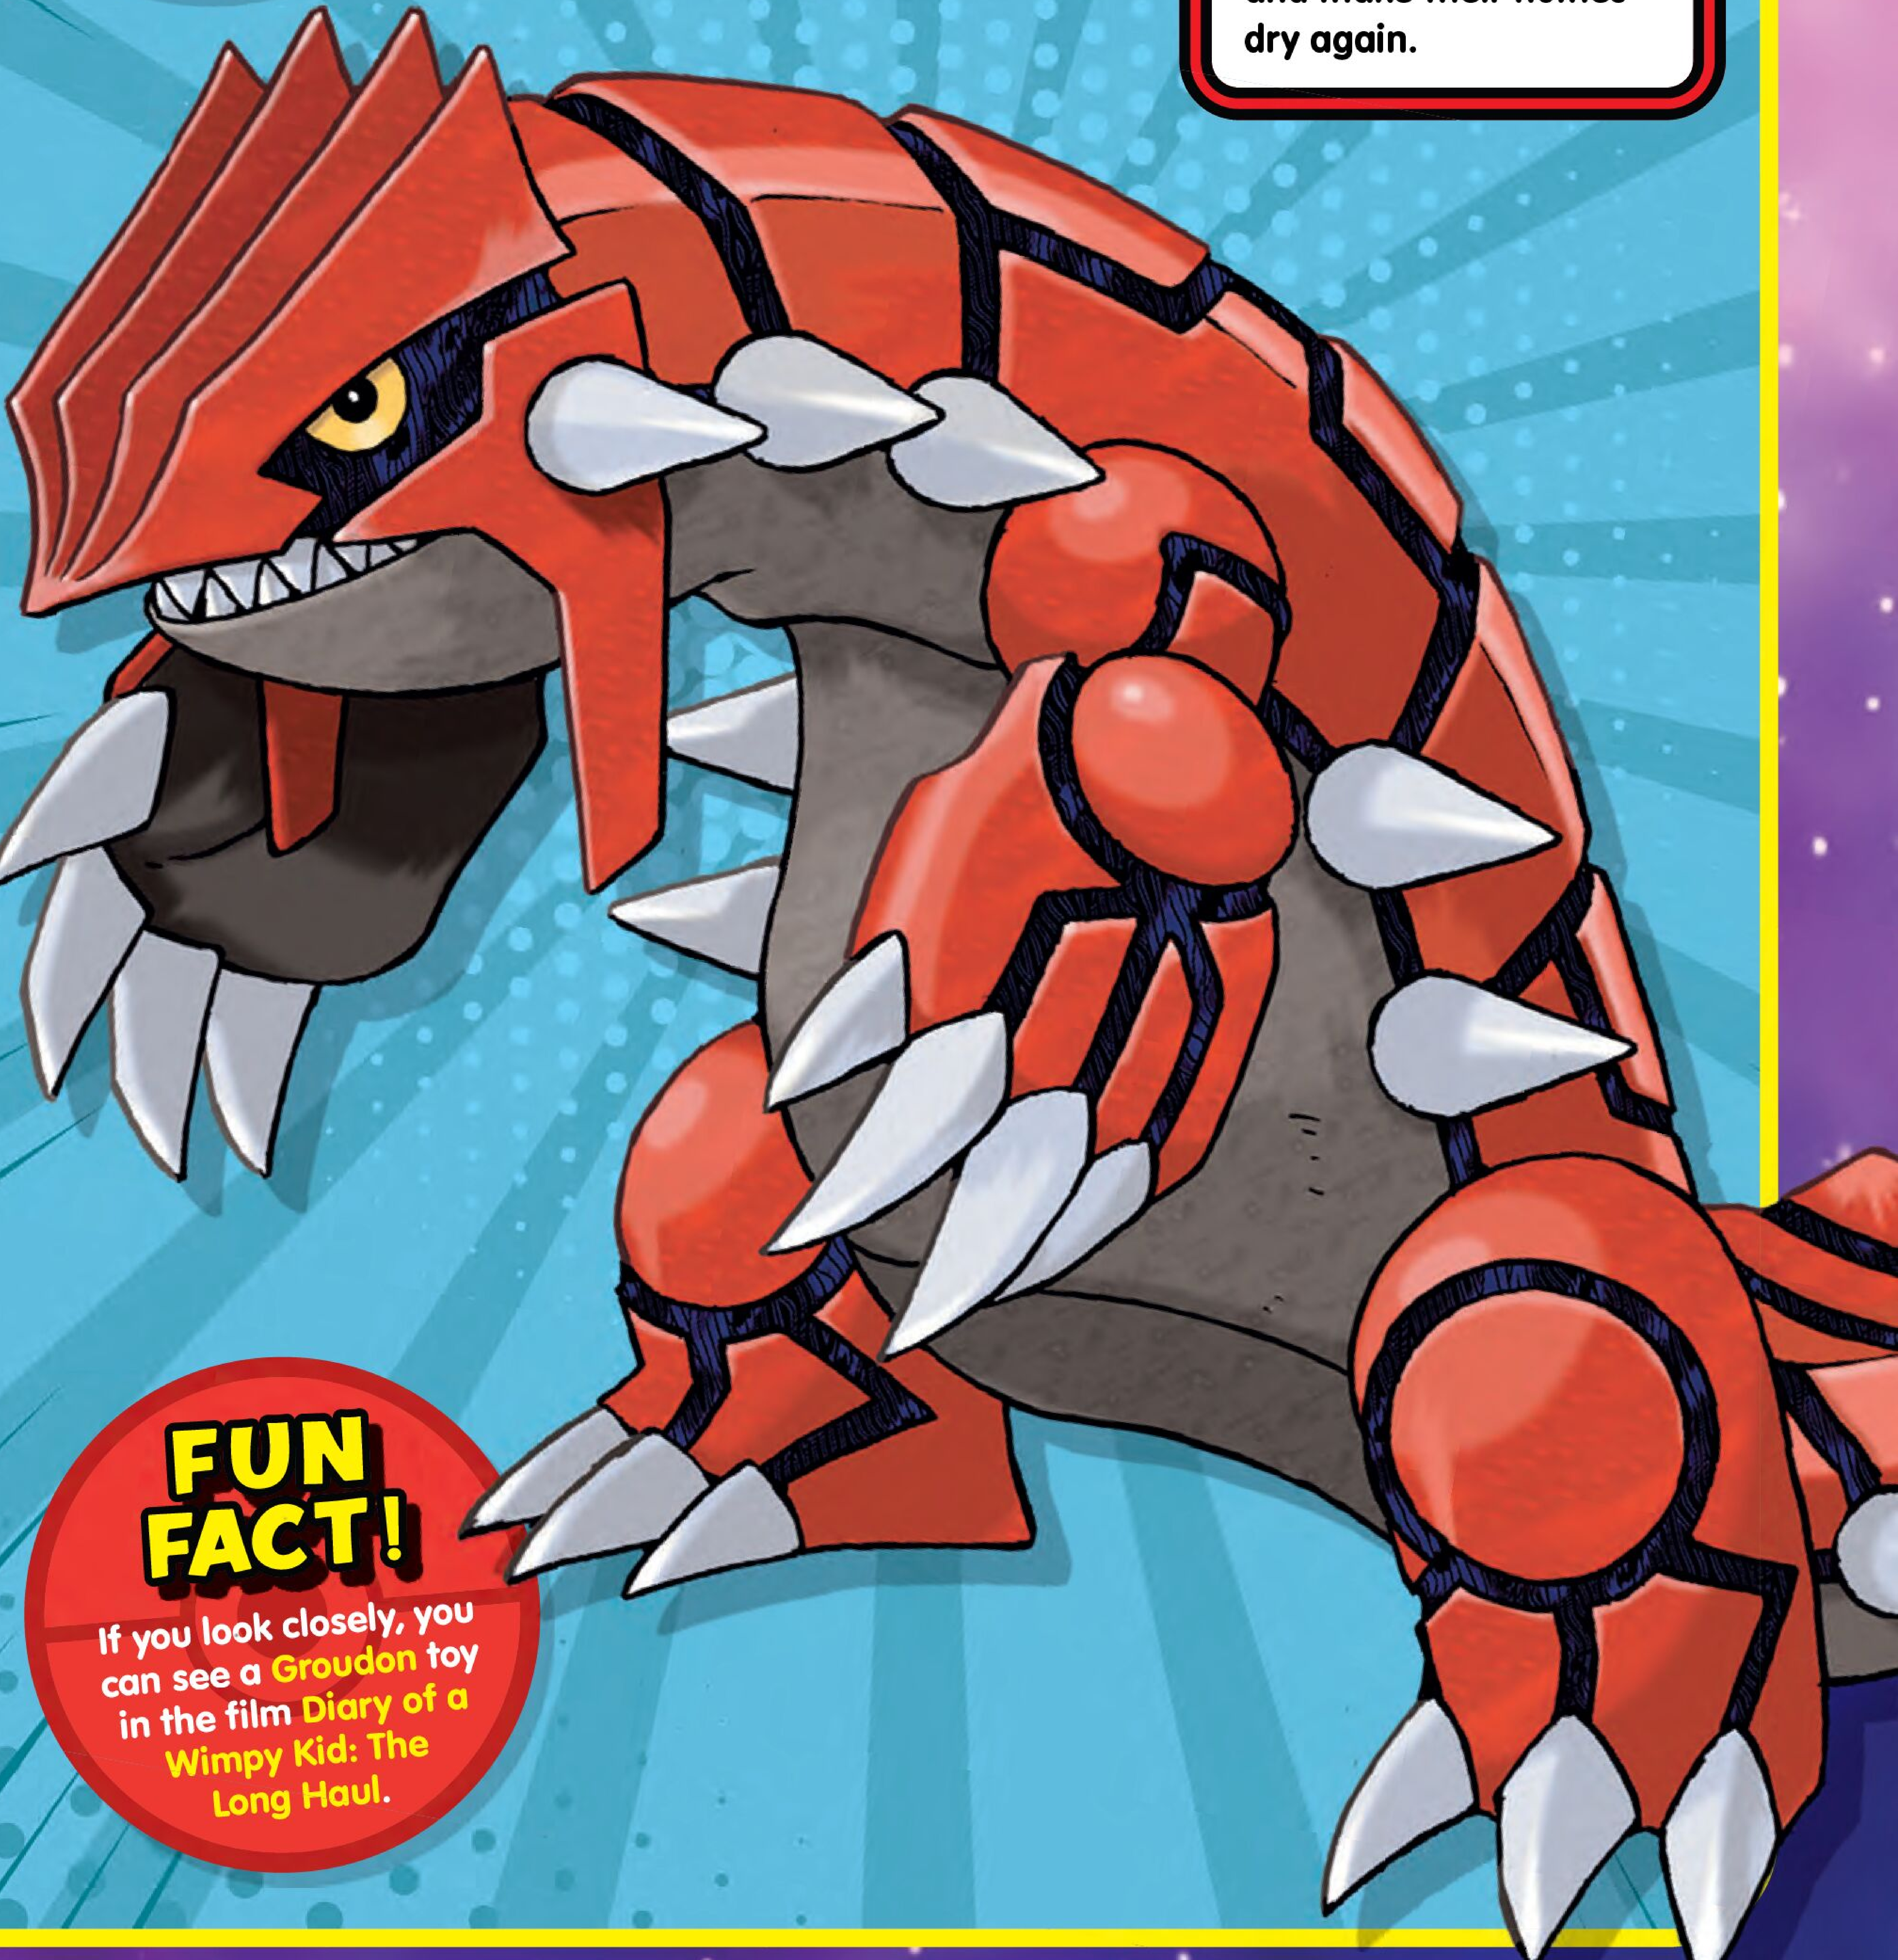
HEIGHT: 3.5M

WEIGHT: 950KG

Legends say that when the Earth was young, **Groudon** raised the land and made the continents that the people of the **Pokémon** world live on. It has a fierce rivalry with **Kyogre**, who is said to have made the oceans. In times of great floods, people would pray to **Groudon** to save them and make their homes dry again.

DID YOU KNOW?

An evil, tentacled clone of **Groudon** appears in the movie ***Jirachi: Wish Maker***.



FUN FACT!

If you look closely, you can see a **Groudon** toy in the film ***Diary of a Wimpy Kid: The Long Haul***.

REGIGIGAS

NO: #486

TYPE: NORMAL

ABILITY: SLOW START

HEIGHT: 3.7M

WEIGHT: 420KG

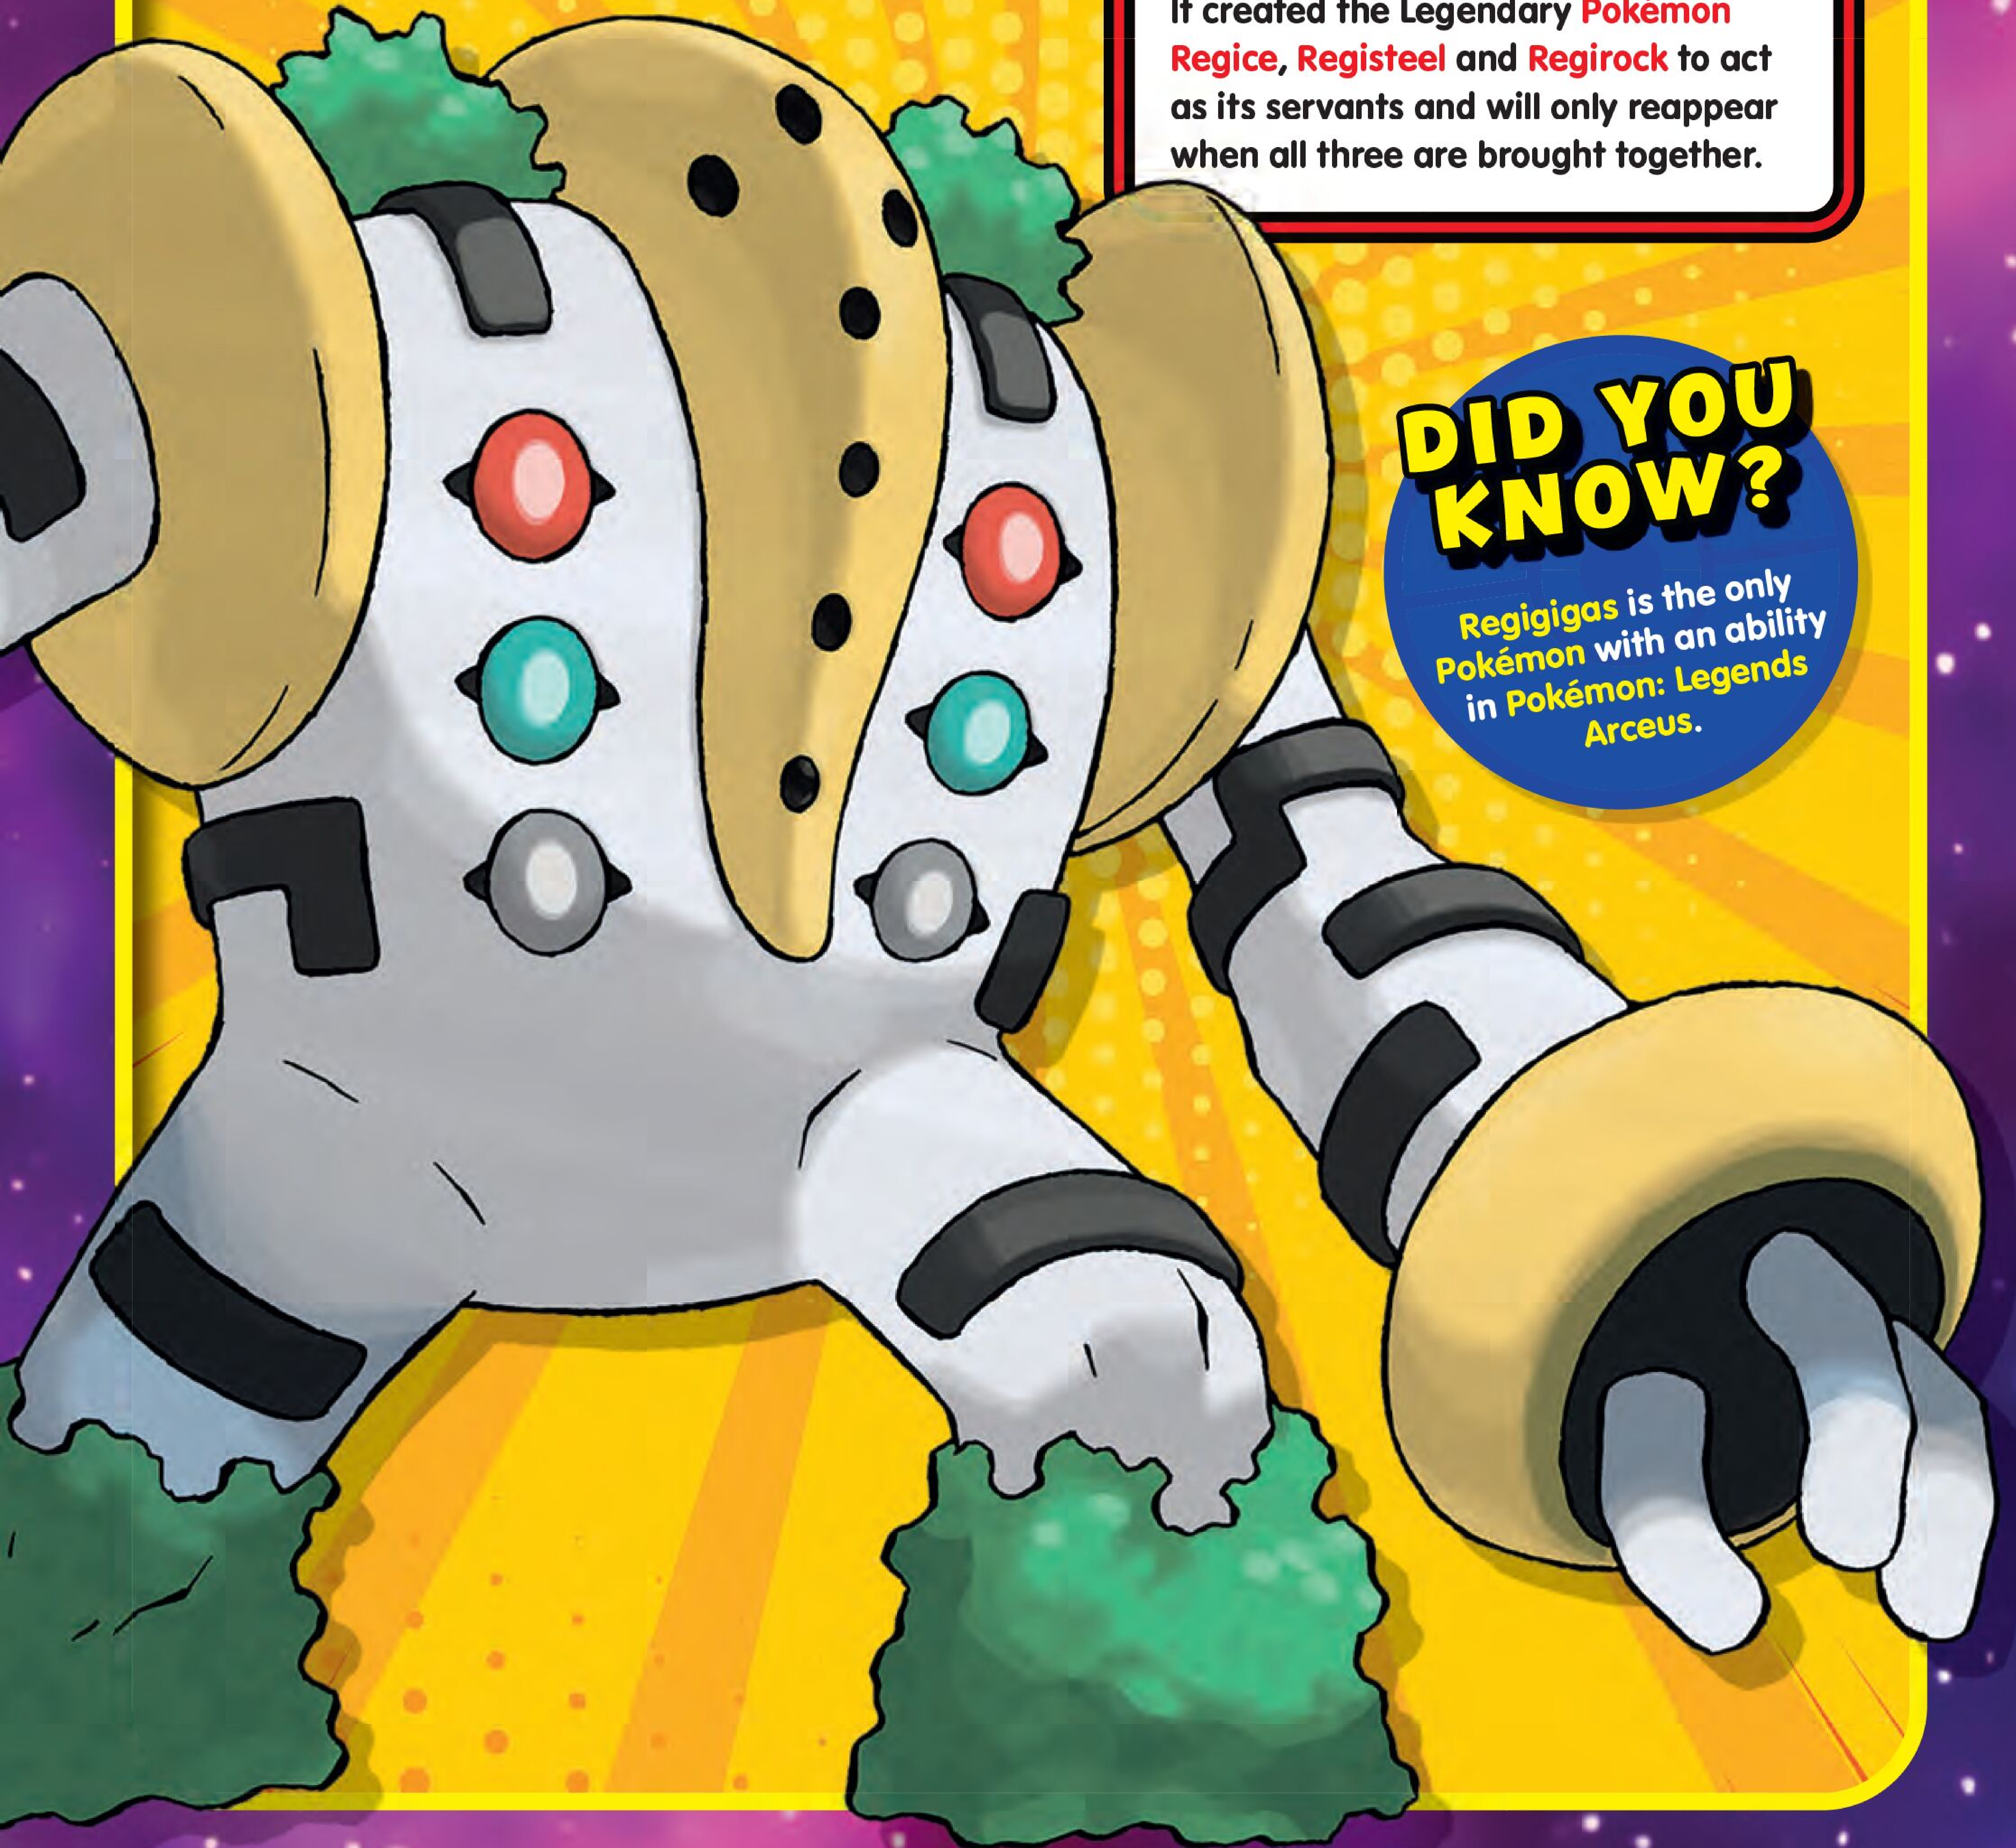
Though **Groudon** may have made the continents, it was **Regigigas** who pulled them into place, using nothing more than rope and its massive strength. It created the Legendary **Pokémon** **Regice**, **Registeel** and **Regirock** to act as its servants and will only reappear when all three are brought together.

FUN FACT!

The **Regigigas** in **Pokémon Sword & Shield** is the highest level wild Legendary at level 100!

DID YOU KNOW?

Regigigas is the only **Pokémon** with an ability in **Pokémon: Legends Arceus.**



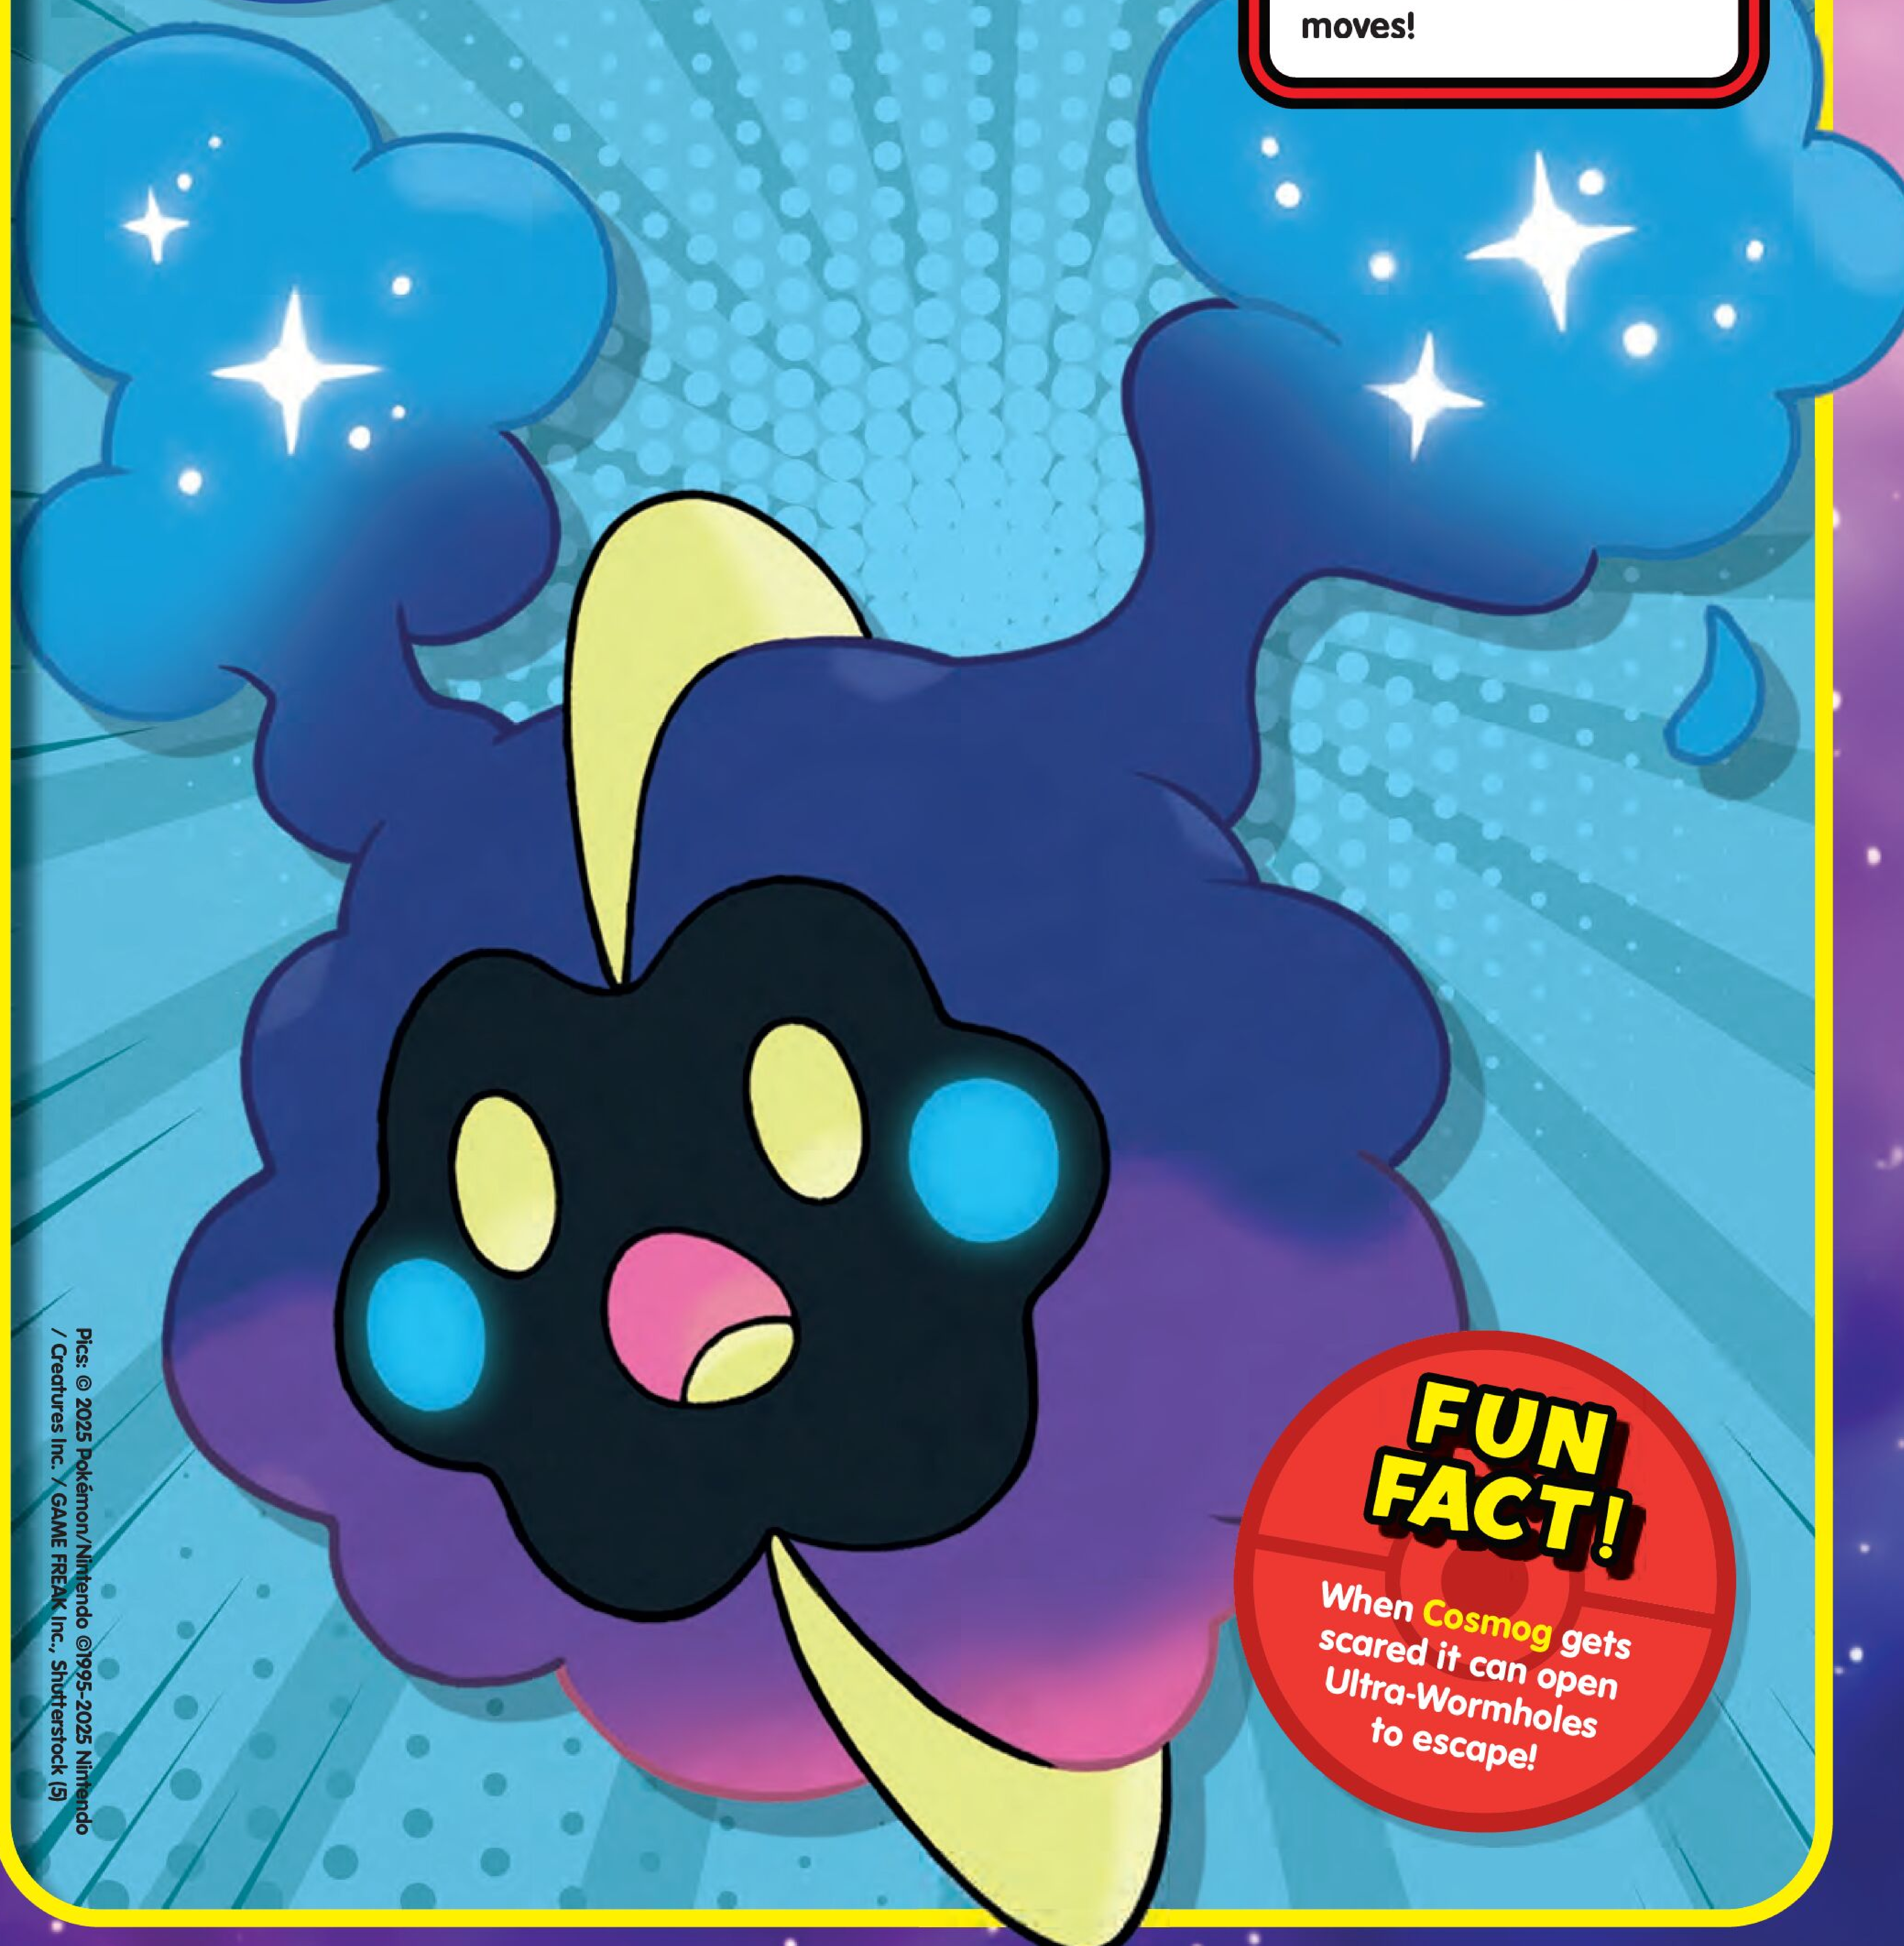
COSMOG

NO: #789
TYPE: PSYCHIC
ABILITY: UNAWARE
HEIGHT: 0.2M
WEIGHT: 0.1KG

Cosmog is a unique Legendary **Pokémon** in a number of ways. It is the smallest Legendary **Pokémon**. It is the lightest Legendary **Pokémon**. It's the only Legendary **Pokémon** that can evolve more than once and it's the only Legendary **Pokémon** that can't learn any damaging moves!

DID YOU KNOW?

Cosmog can evolve into either **Solgaleo** or **Lunala**, and bringing the two together is the only way to make more **Cosmog**!



FUN FACT!

When **Cosmog** gets scared it can open Ultra-Wormholes to escape!

CALYREX

NO: #898

TYPE: PSYCHIC/GRASS

ABILITY: UNNERVE

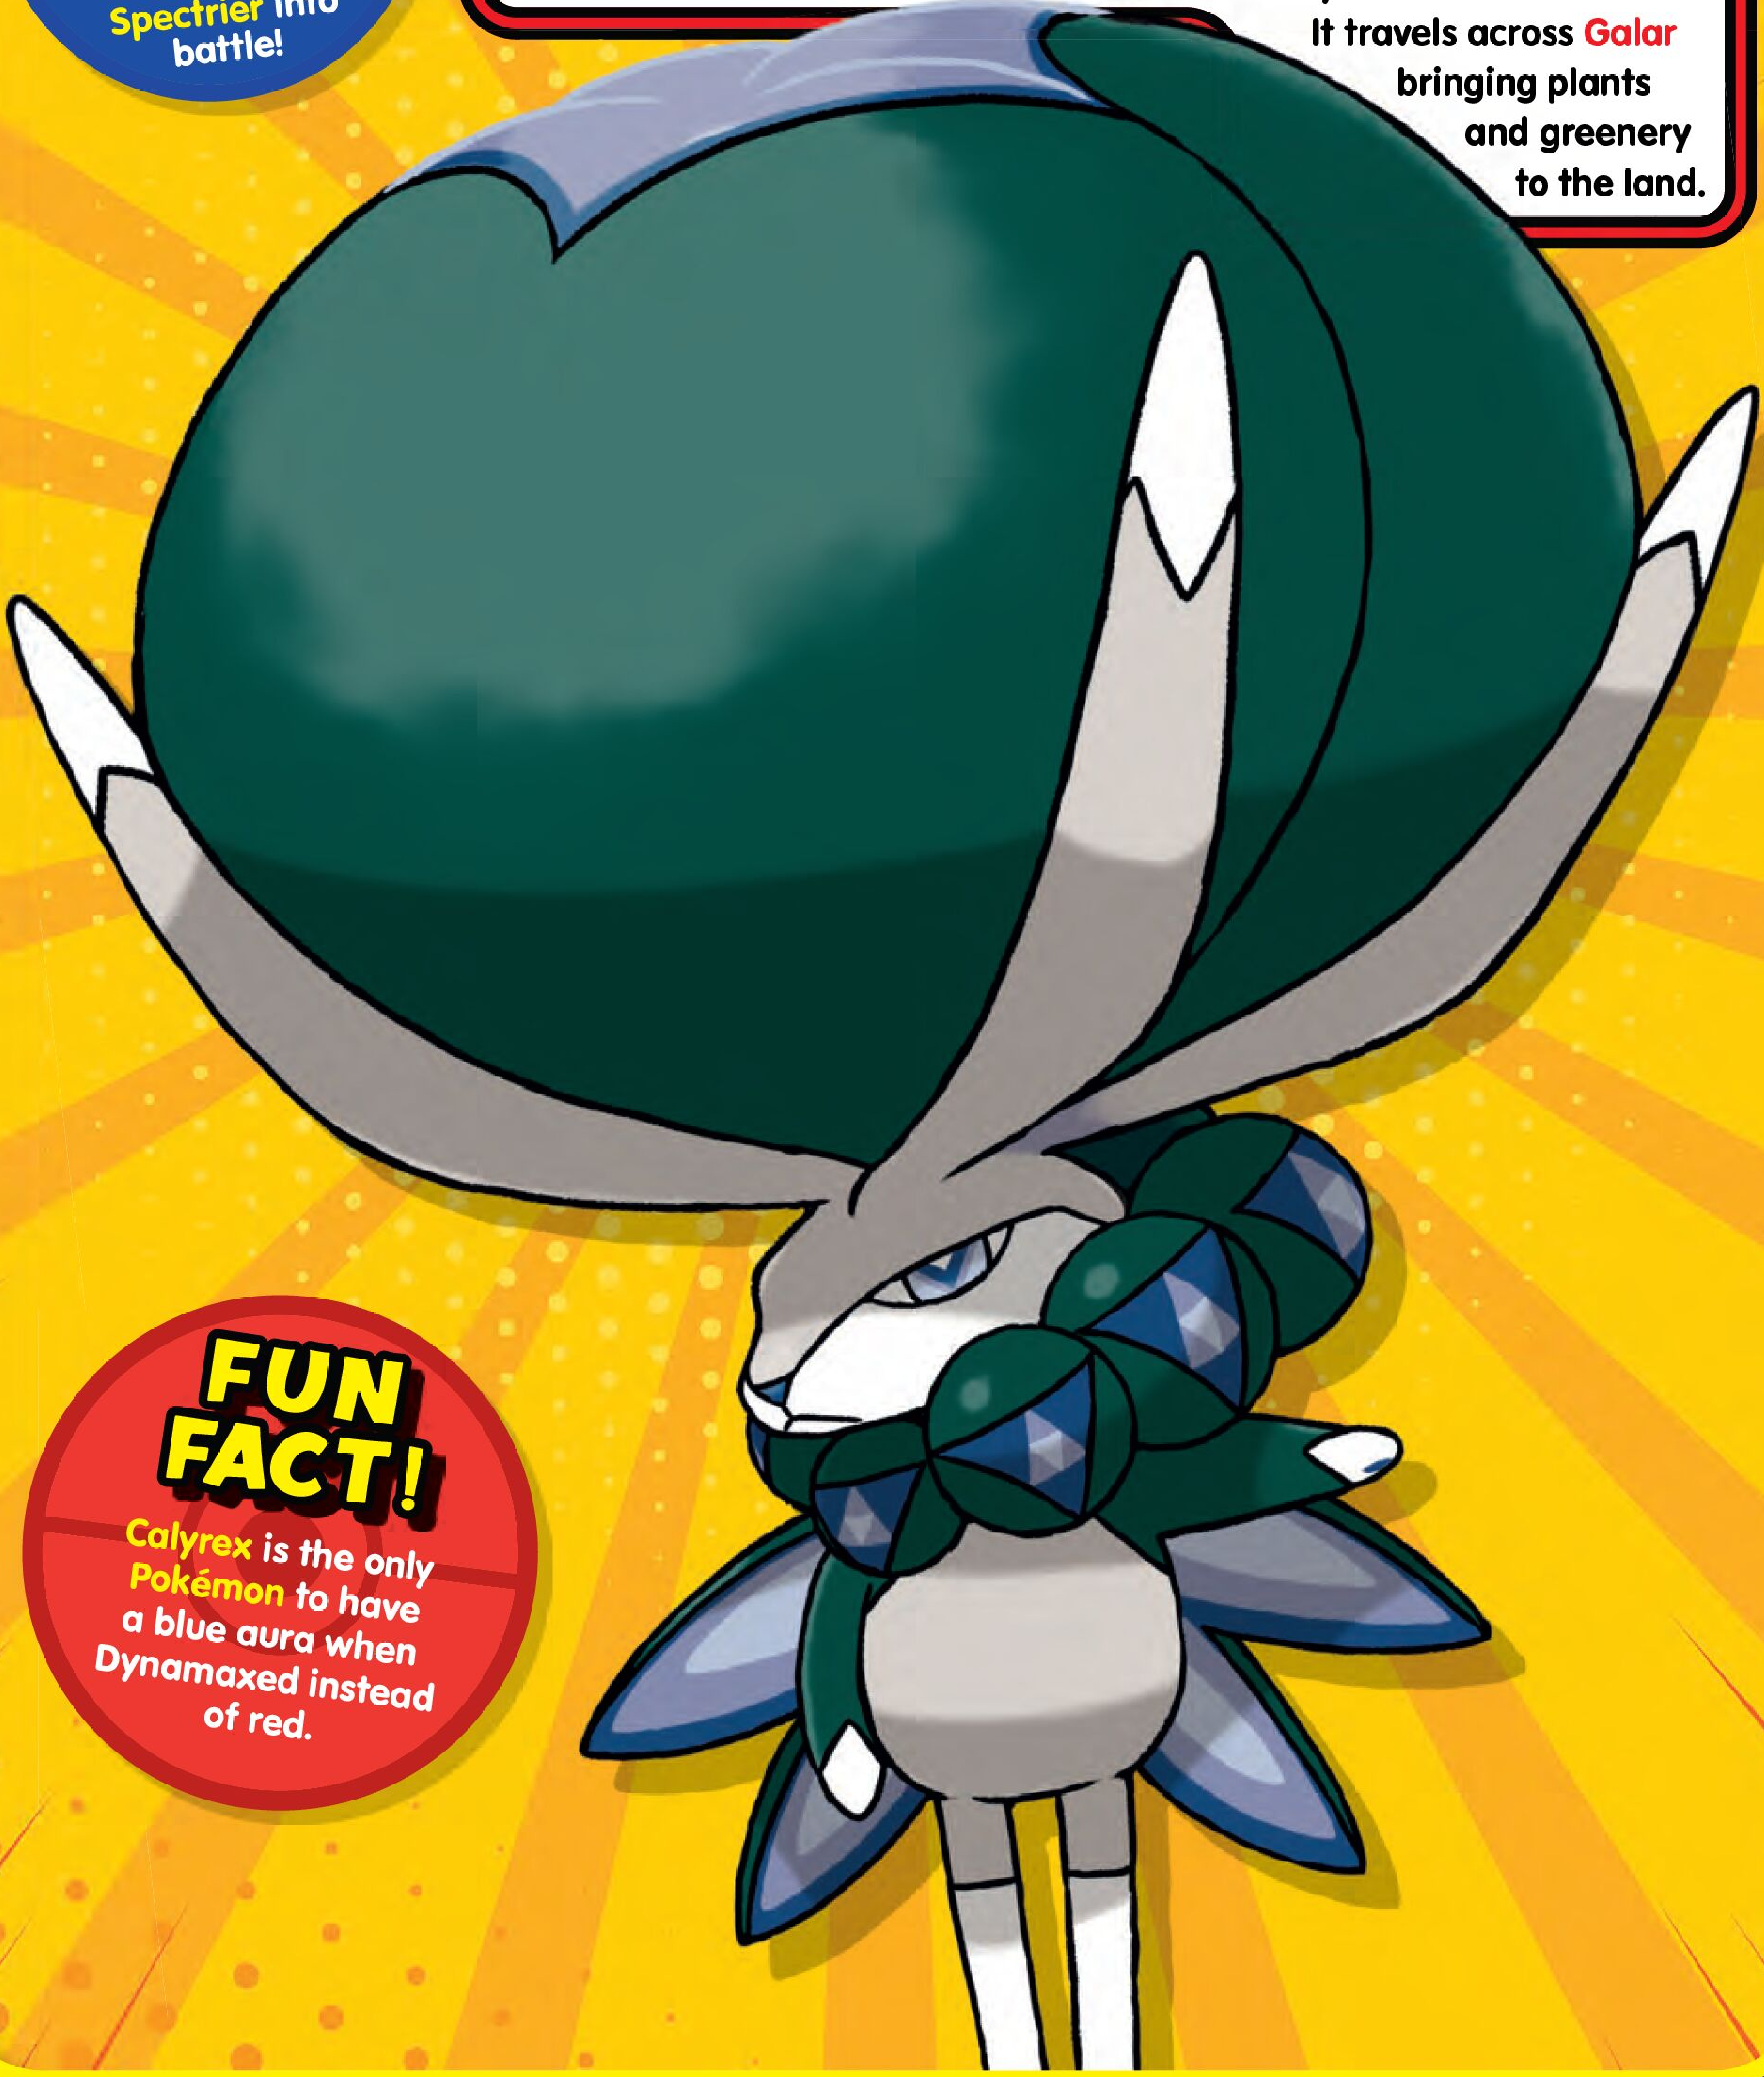
HEIGHT: 1.1M

WEIGHT: 7.7KG

Despite being a Pokémon, Calyrex was once King of Galar. The crown on Calyrex's head is actually its brain and is the source of its psychic powers. It once used those powers to move an entire forest and all the animals that lived there out of the way of a meteor strike. It travels across Galar bringing plants and greenery to the land.

DID YOU KNOW?

Calyrex can ride the Pokémon Glastrier or Spectrier into battle!



FUN FACT!

Calyrex is the only Pokémon to have a blue aura when Dynamaxed instead of red.

KORAIDON

NO: #1007

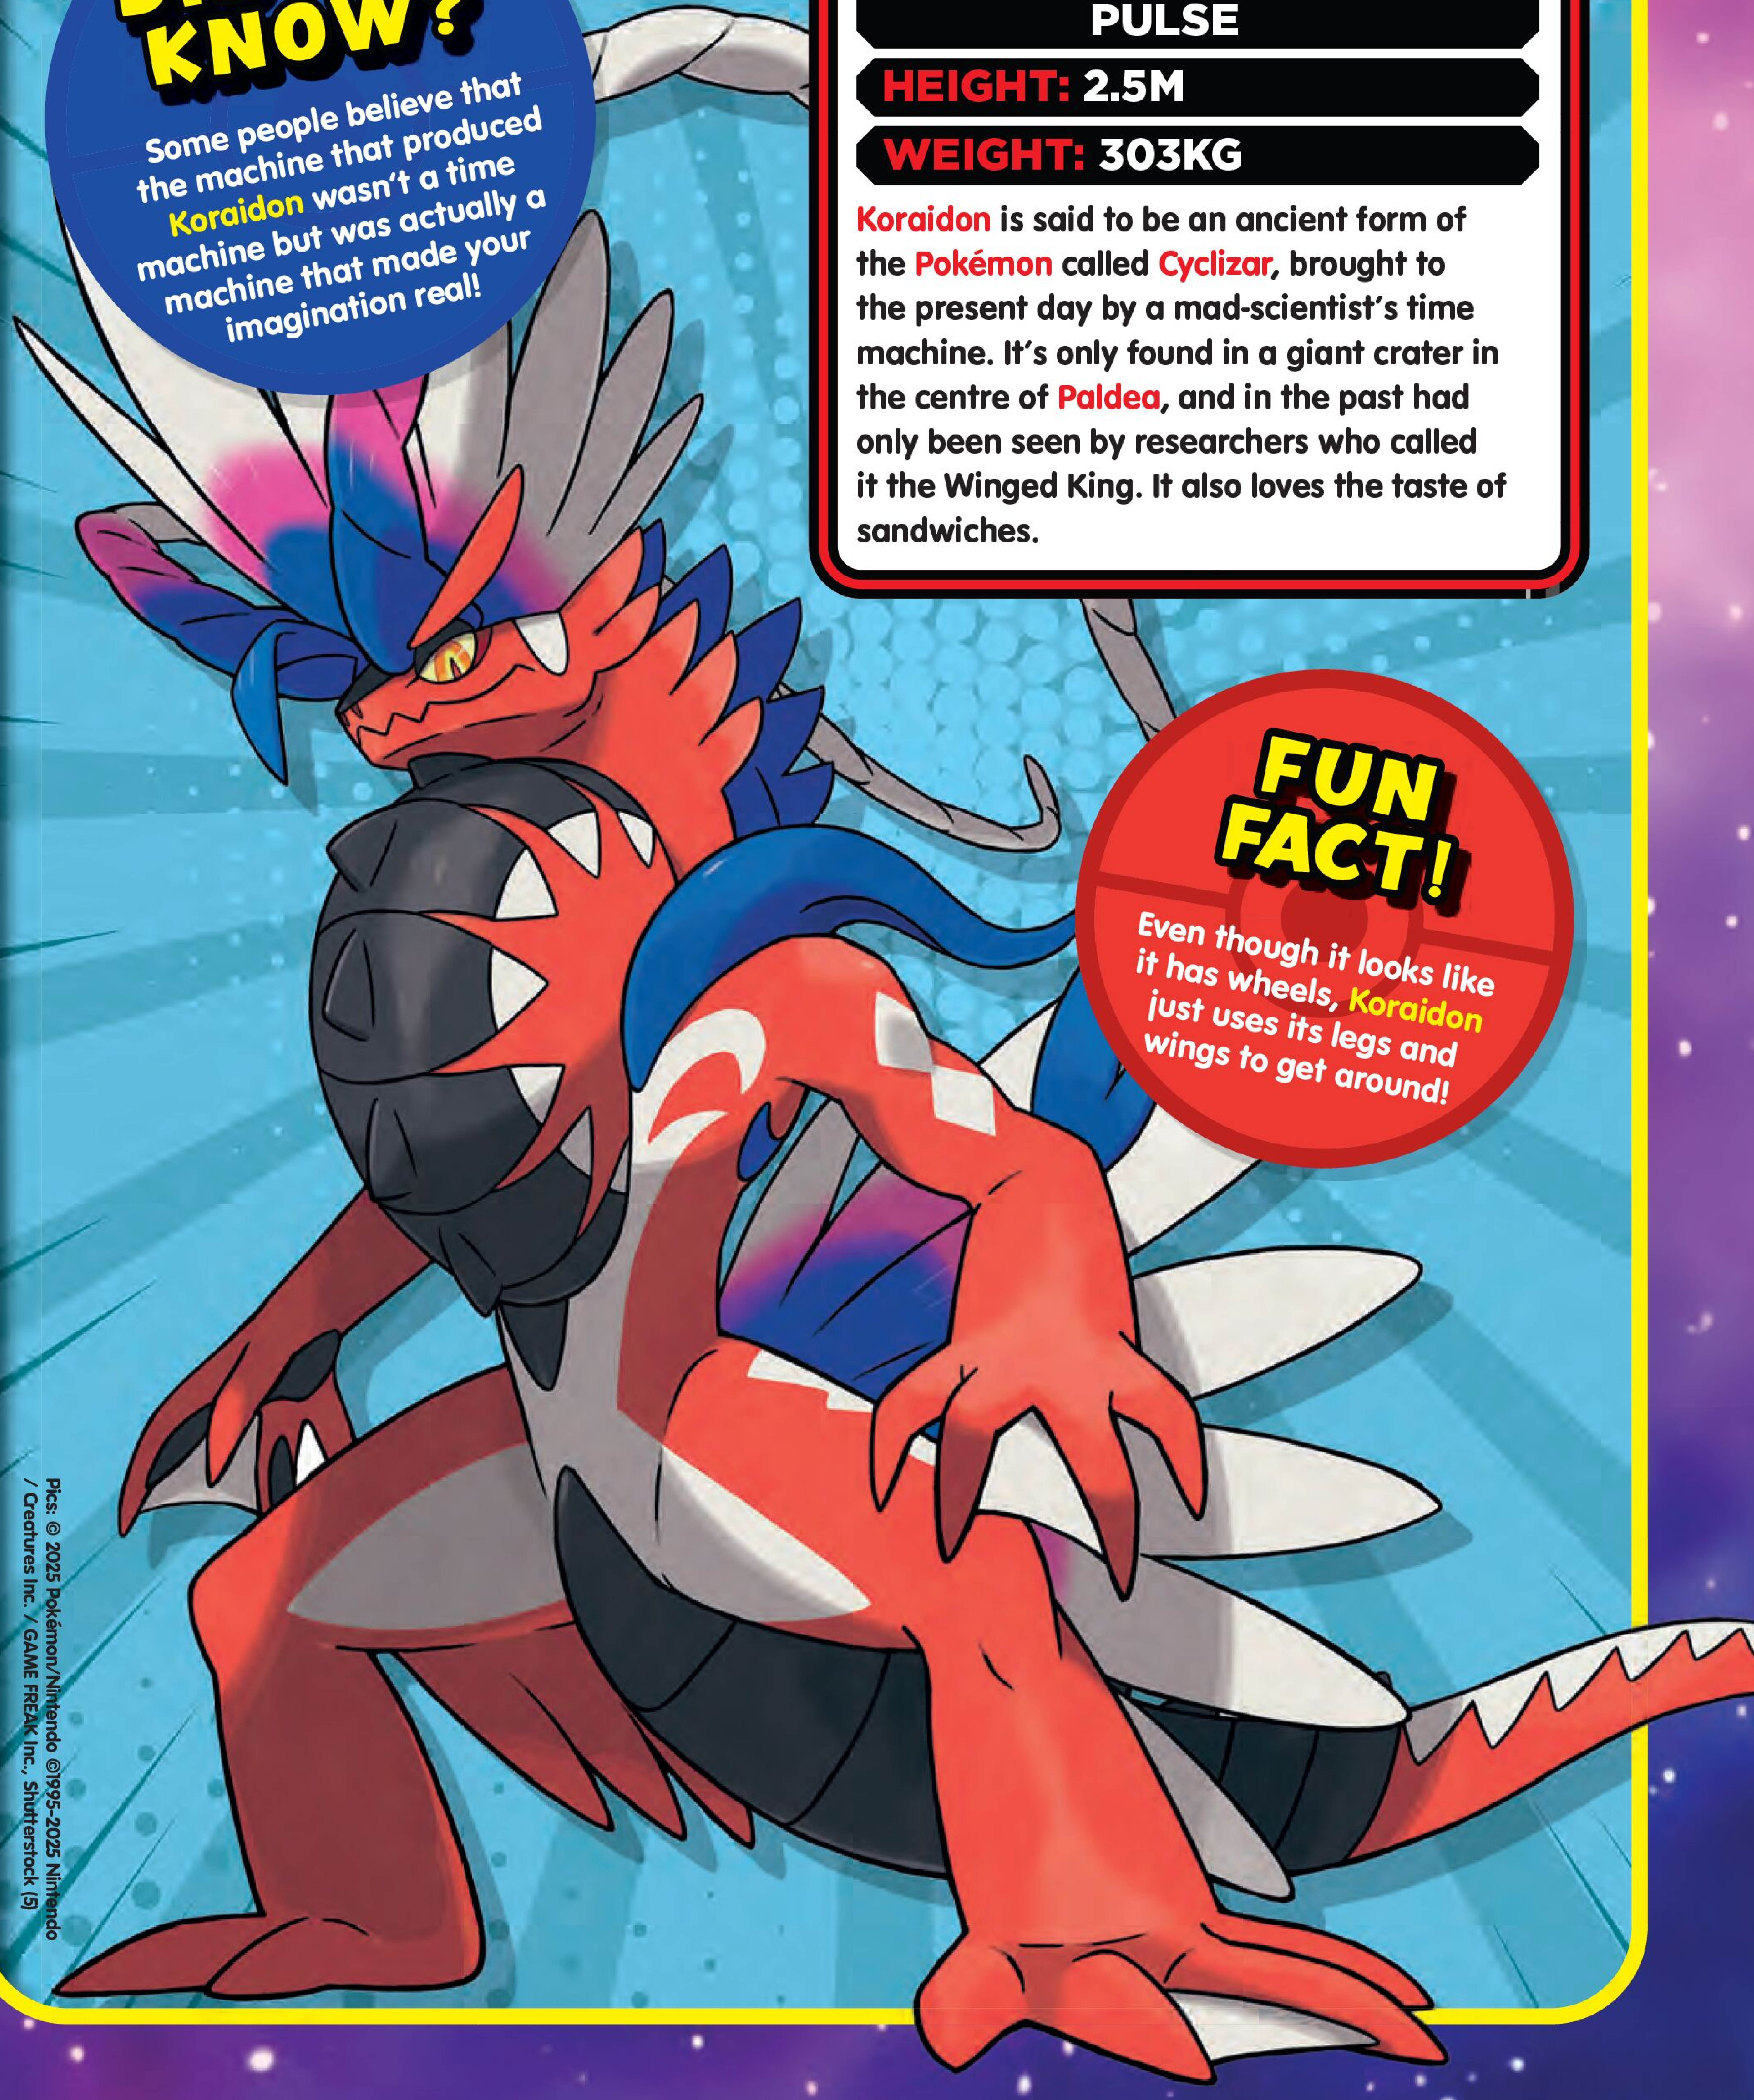
TYPE: FIGHTING/DRAGON

ABILITY: ORICHALCUM PULSE

HEIGHT: 2.5M

WEIGHT: 303KG

Koraidon is said to be an ancient form of the **Pokémon** called **Cyclizar**, brought to the present day by a mad-scientist's time machine. It's only found in a giant crater in the centre of **Paldea**, and in the past had only been seen by researchers who called it the Winged King. It also loves the taste of sandwiches.



DID YOU KNOW?

Some people believe that the machine that produced **Koraidon** wasn't a time machine but was actually a machine that made your imagination real!

FUN FACT!

Even though it looks like it has wheels, **Koraidon** just uses its legs and wings to get around!

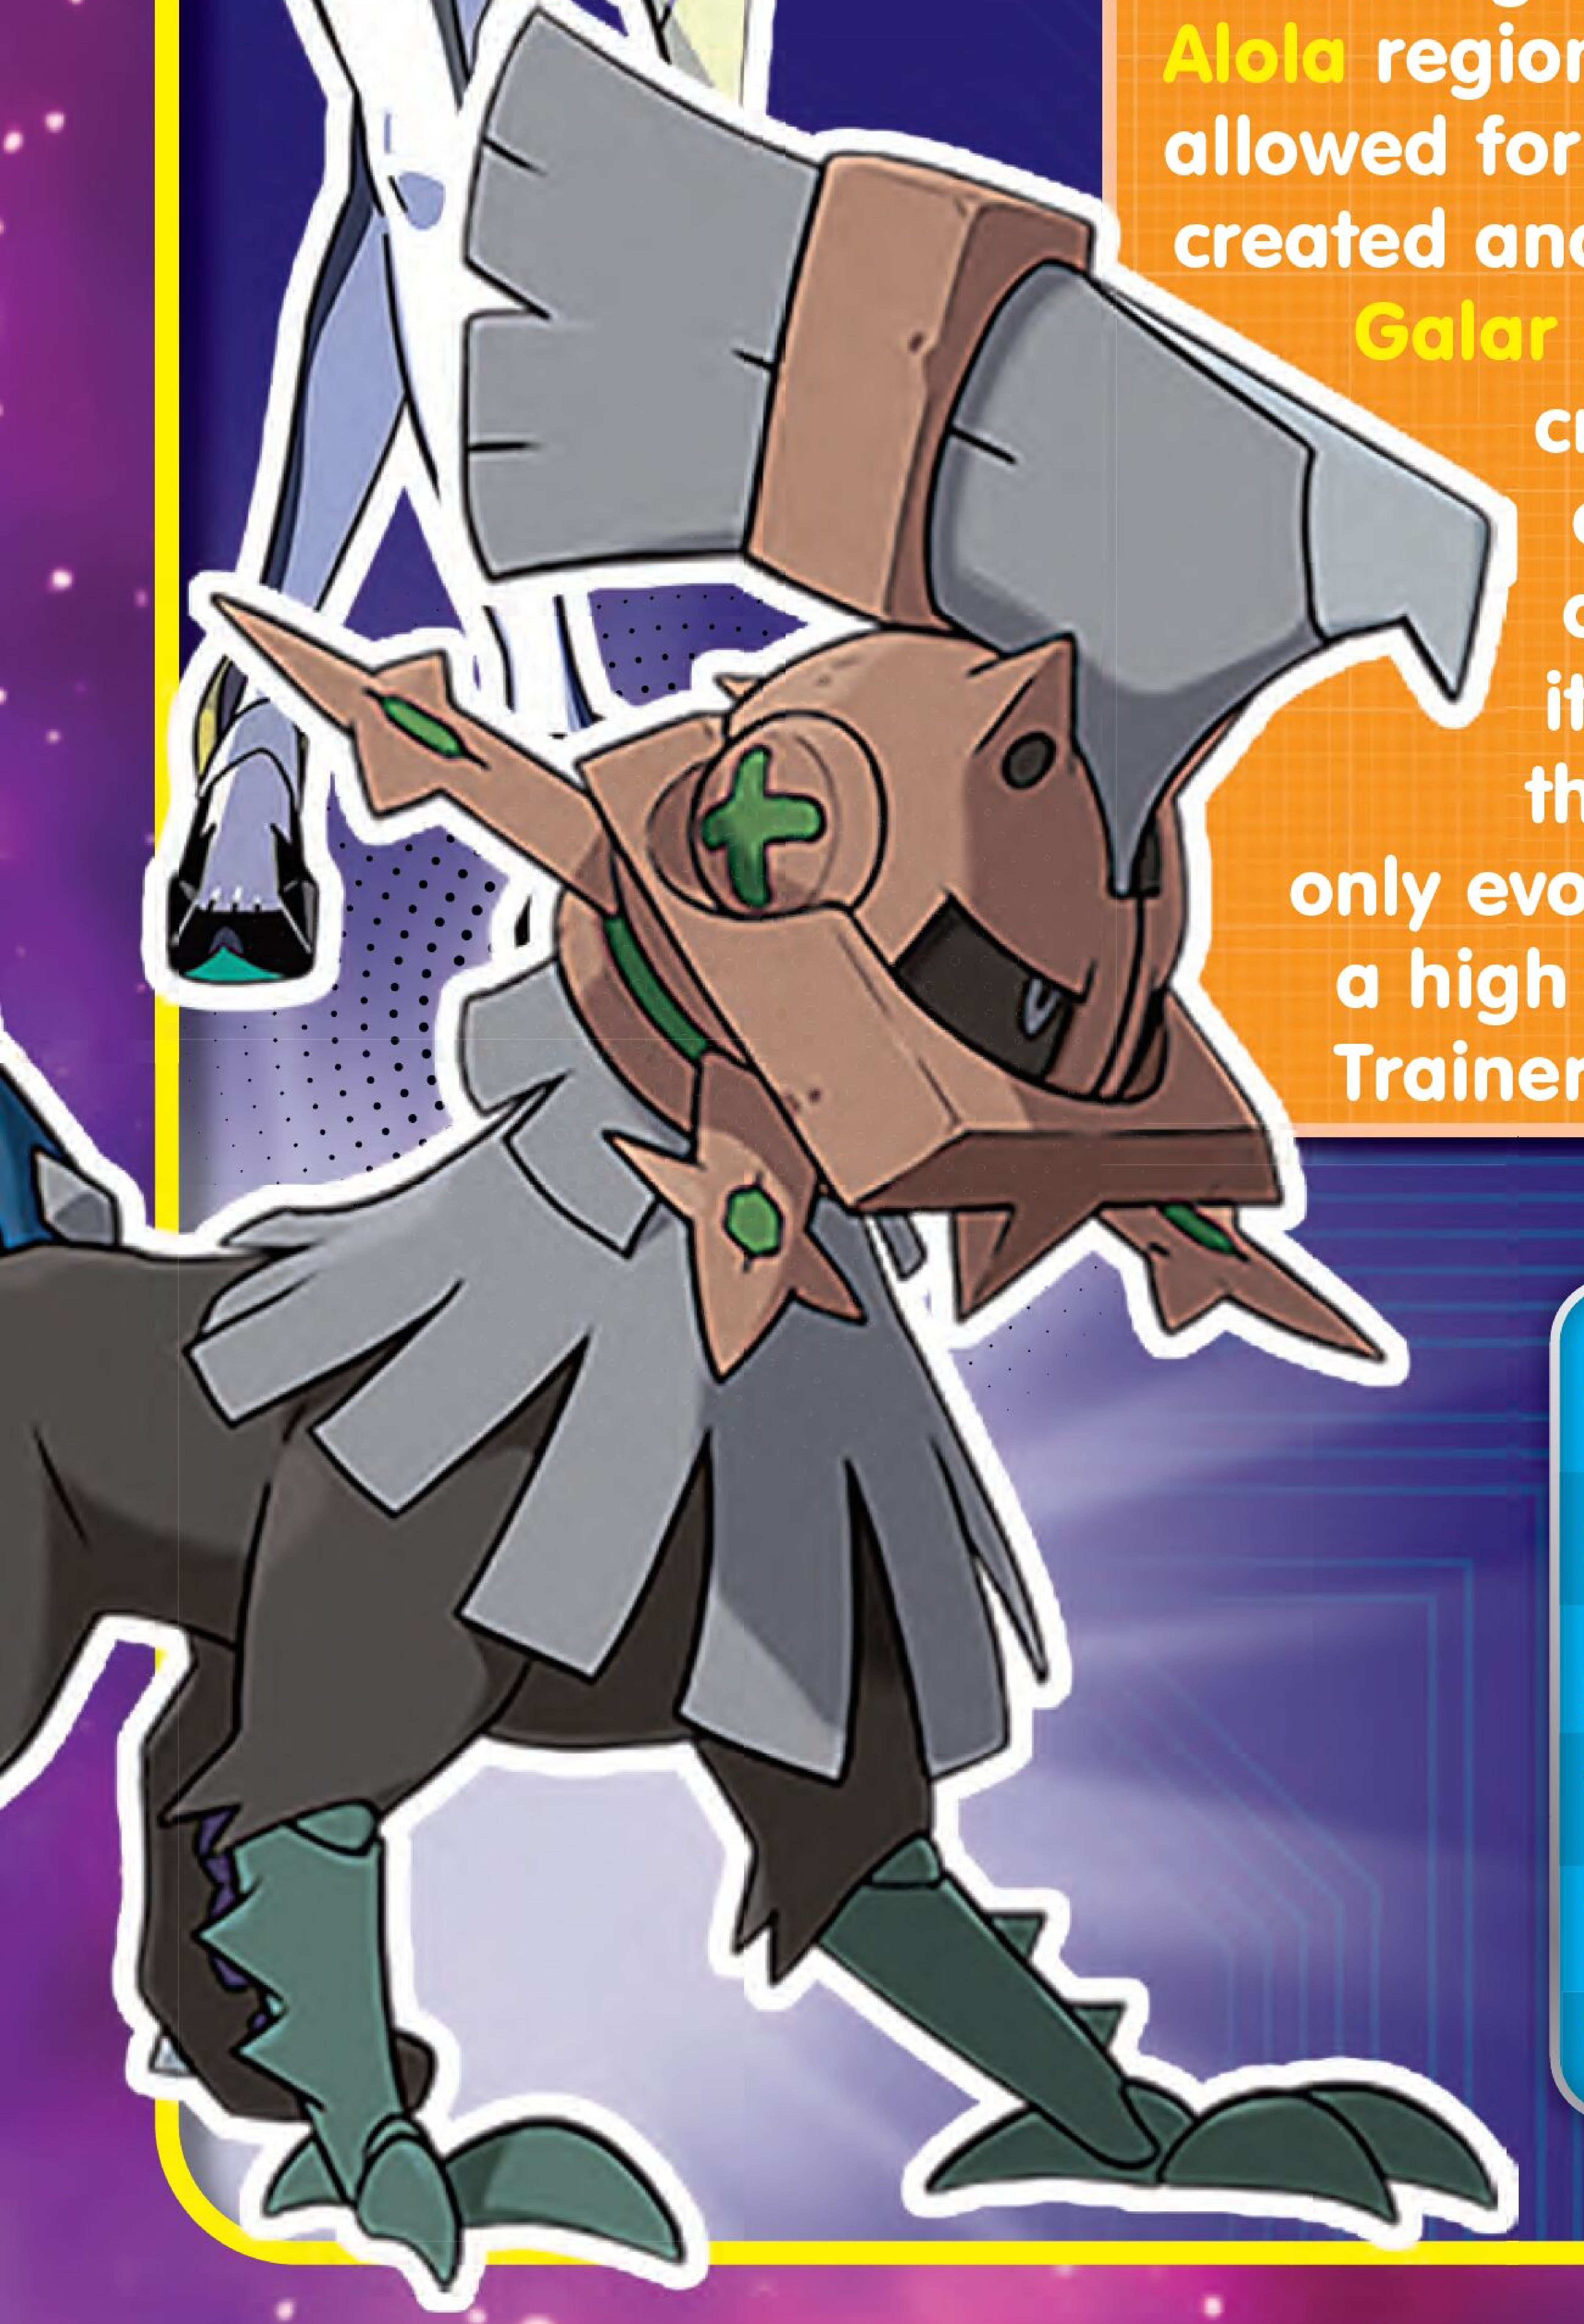
THE ARTIFICIAL LEGENDS

MEET THE **AETHER FOUNDATION'S** LEGENDARY CREATIONS!

TYPE: NULL

Although originally created in the **Alola** region, stolen research notes allowed for a new **Type: Null** to be created and introduced into the **Galar** region! Despite being created as a weapon and considered highly dangerous if not wearing its helmet, **Type: Null** thrives on friendship and only evolves into **Silvally** if it has a high friendship level with its Trainer.



STATS

NO.	#772
CATEGORY	SYNTHETIC
ABILITY	BATTLE ARMOR
TYPE	NORMAL
HEIGHT	1.9M
WEIGHT	120.5KG

The **Aether Foundation** created artificial **Pokémon** that were capable of changing their type due to a sophisticated RKS System. They were made with one main purpose in mind – destroy the **Ultra Beasts**! The original creations, called **Type: Full**, were unpredictable and known to rampage, so they were forced to wear helmets that supressed their true power and renamed to **Type: Null**.

SILVALLY

The evolved form of **Type: Null**, **Silvally**, is free of the mask that restricted its power and can use its RKS System to change type. Although it has a wild nature without its helmet, it is super-loyal to its Trainer and will protect them at all costs. Due to its unique RKS System, **Silvally** is the only **Pokémon** capable of learning the move, Mutli-Attack!

STATS

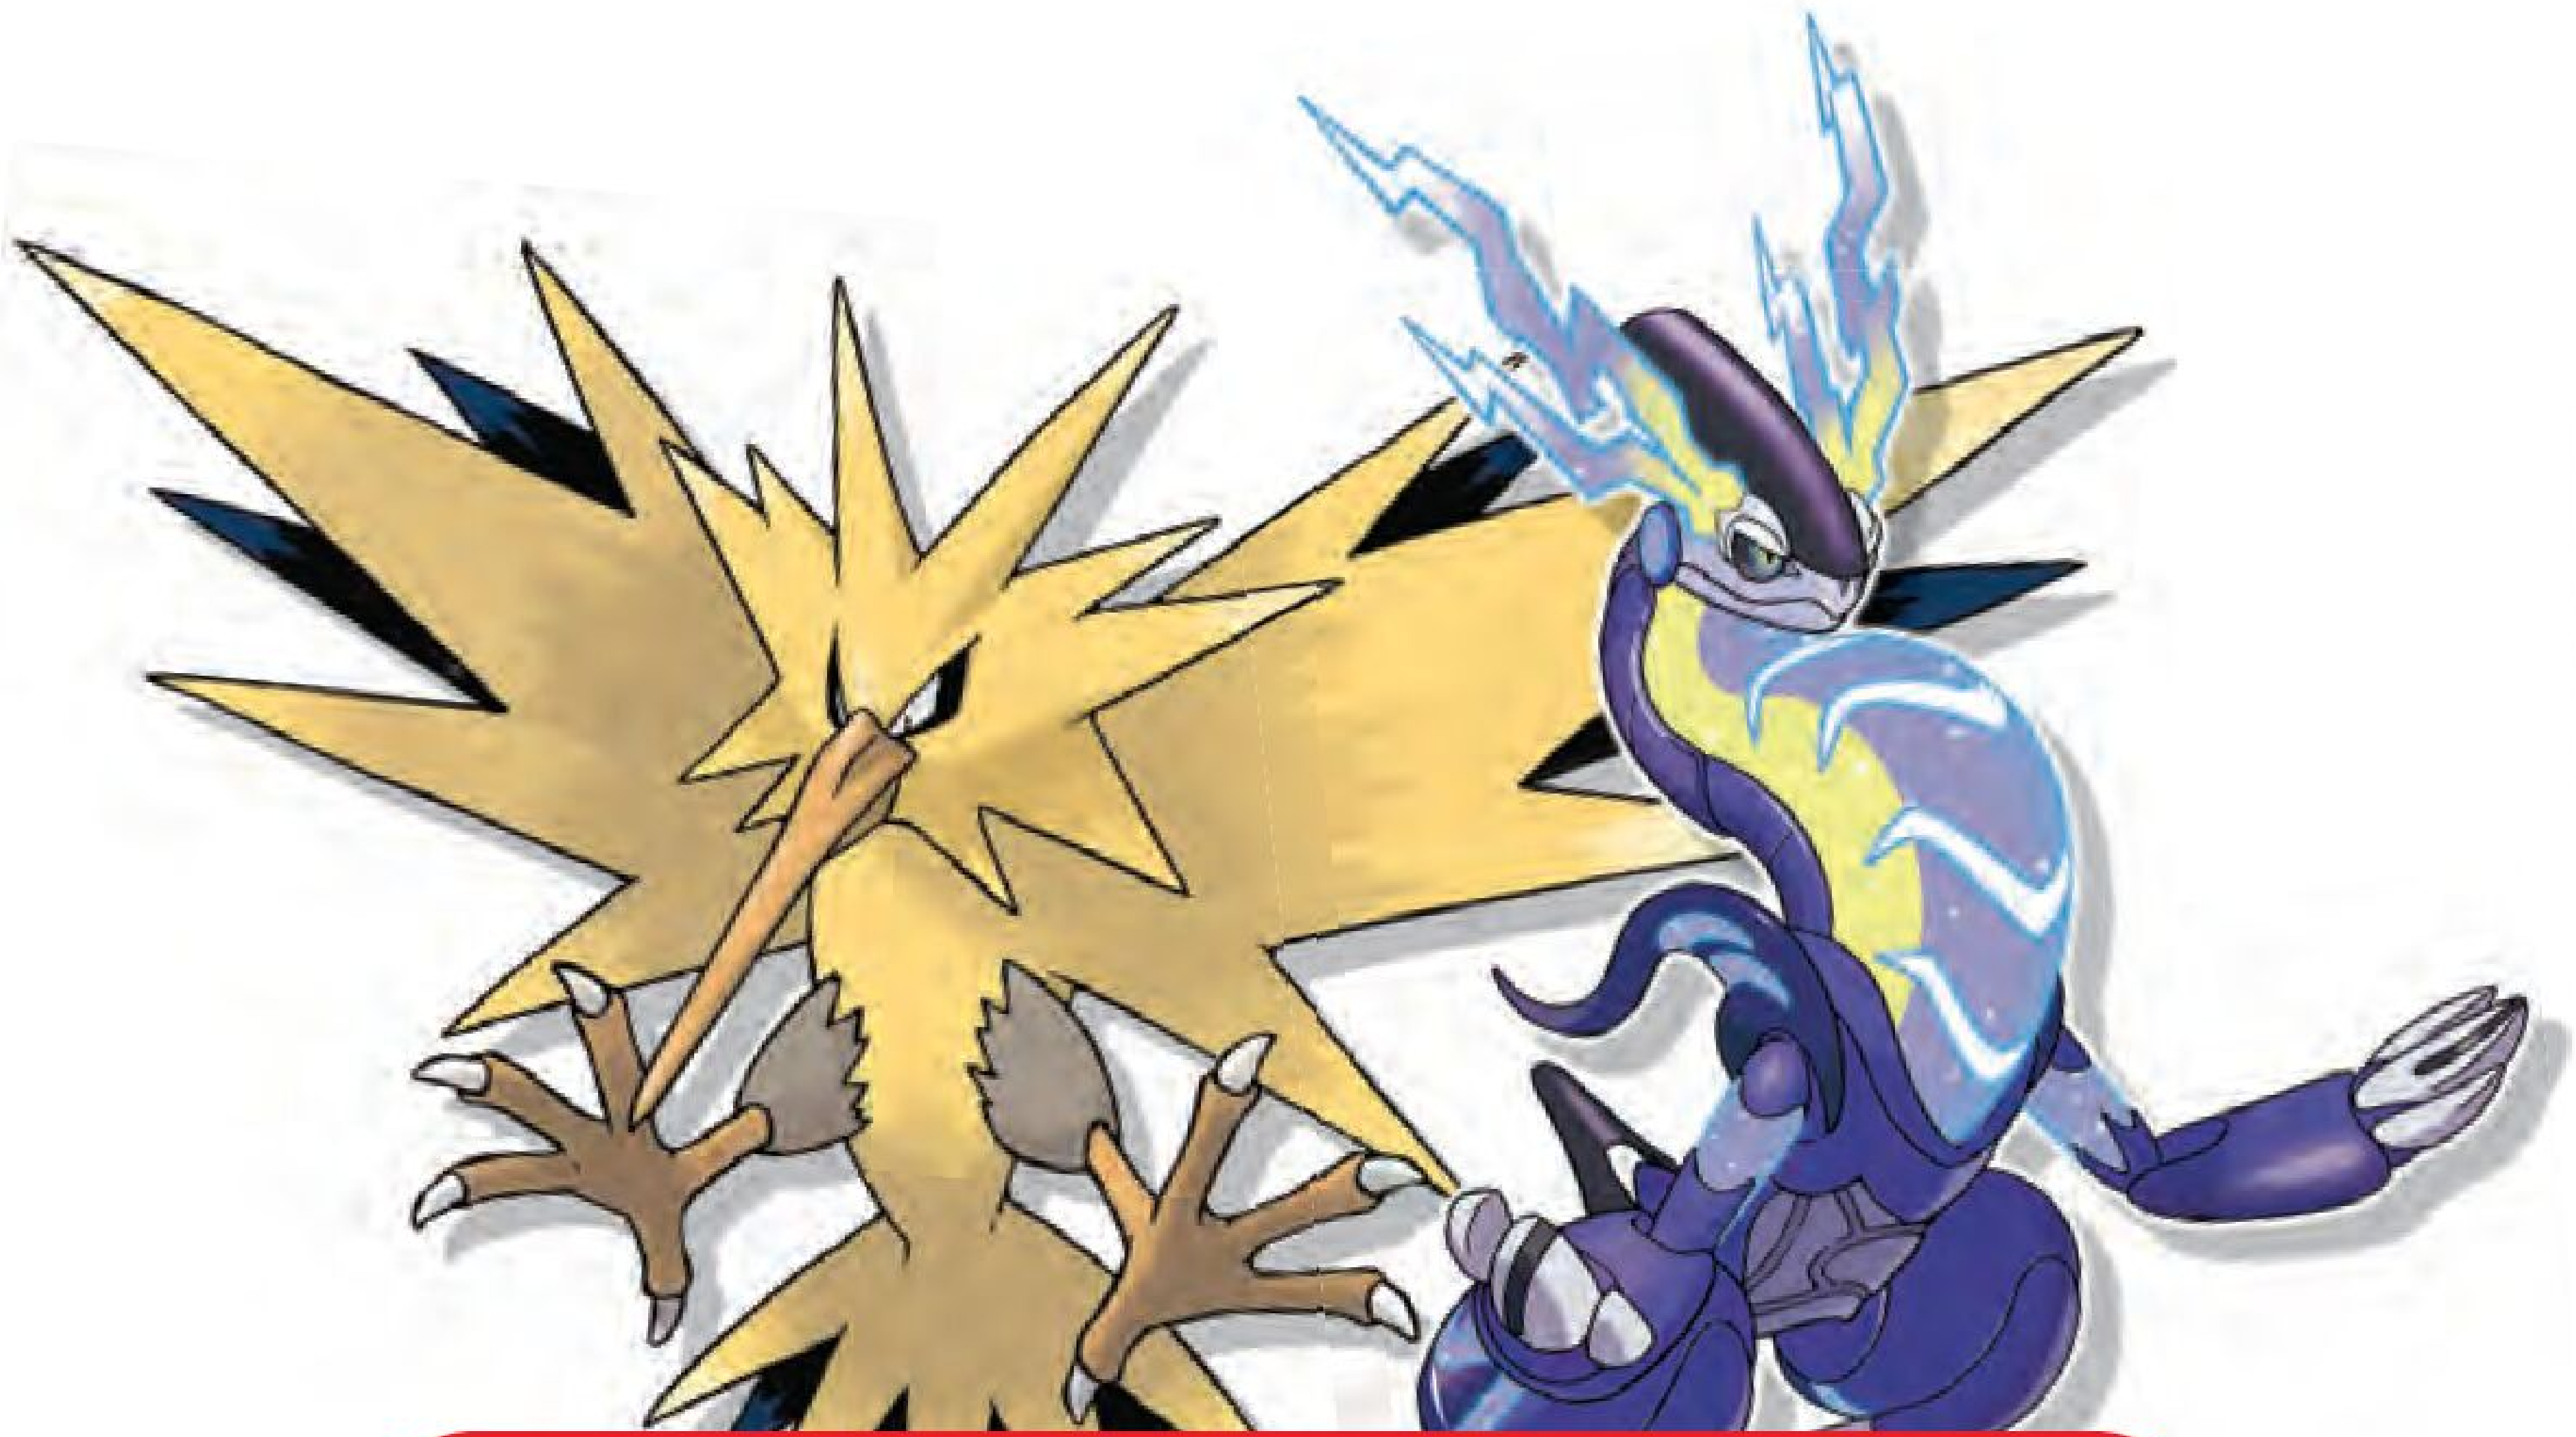
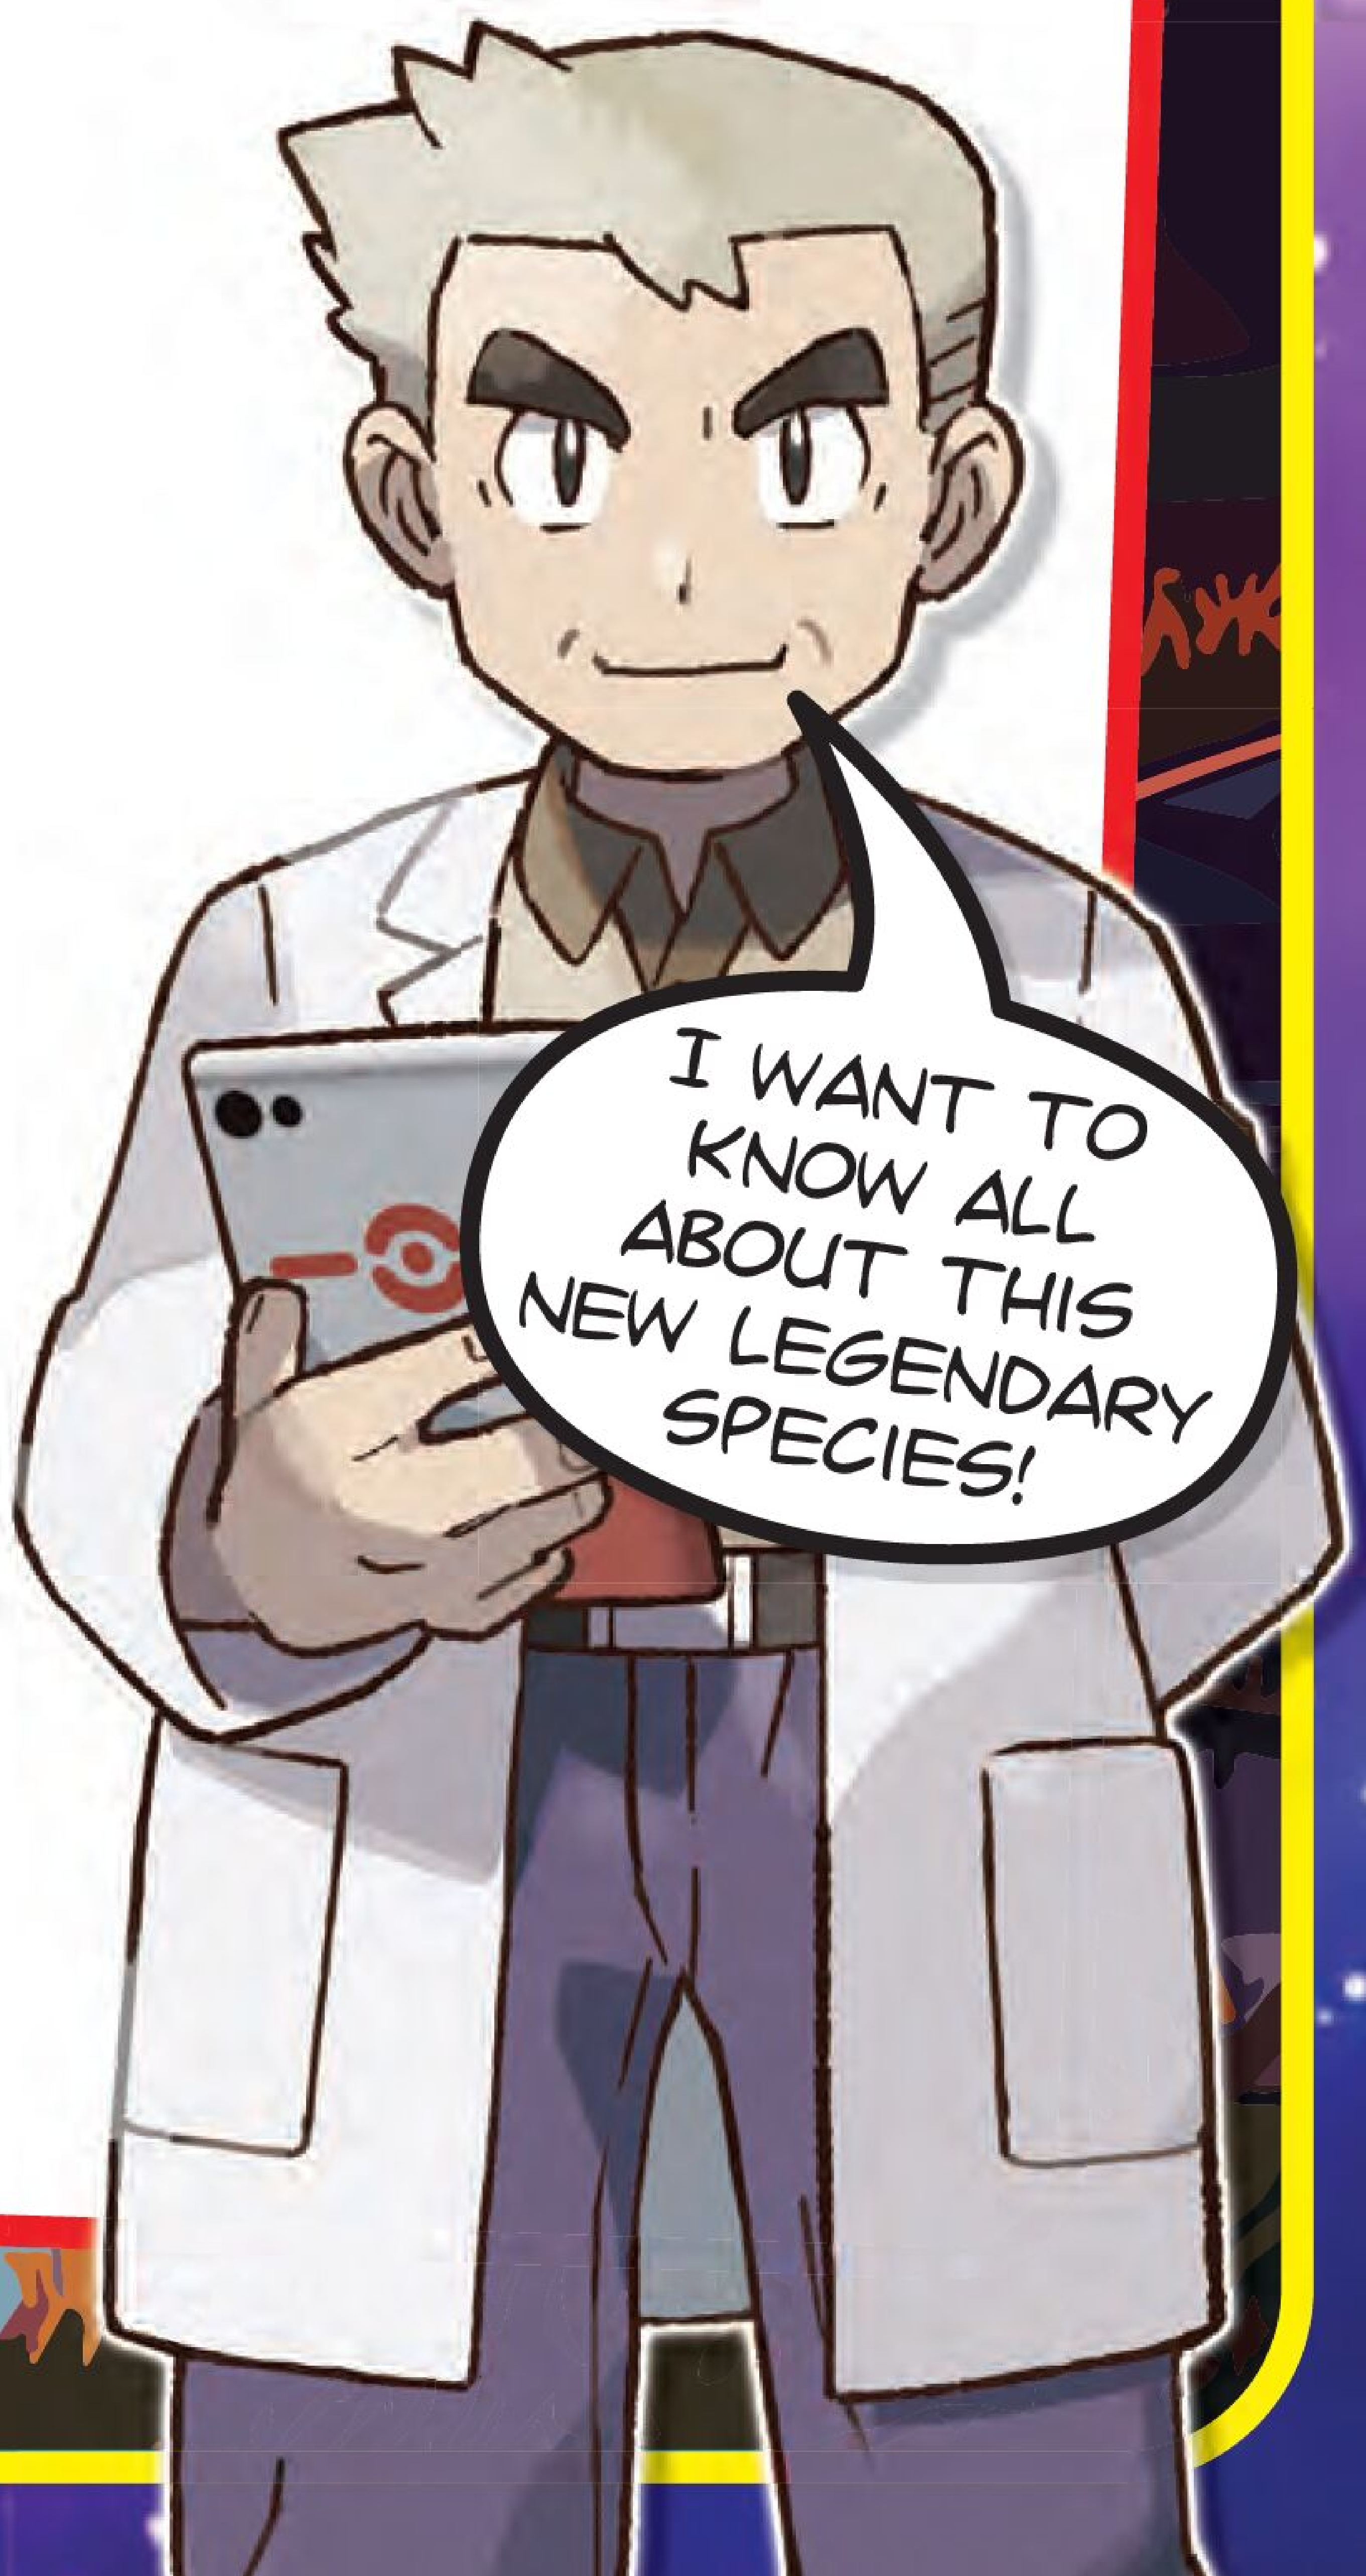
USE THIS SPACE TO DRAW YOUR *LEGENDARY* LEGENDARY!



WILL THEY BE FLYING LIKE **ZAPDOS**? OR A ROBOTIC REPTILIAN LIKE **MIRAIDON**?



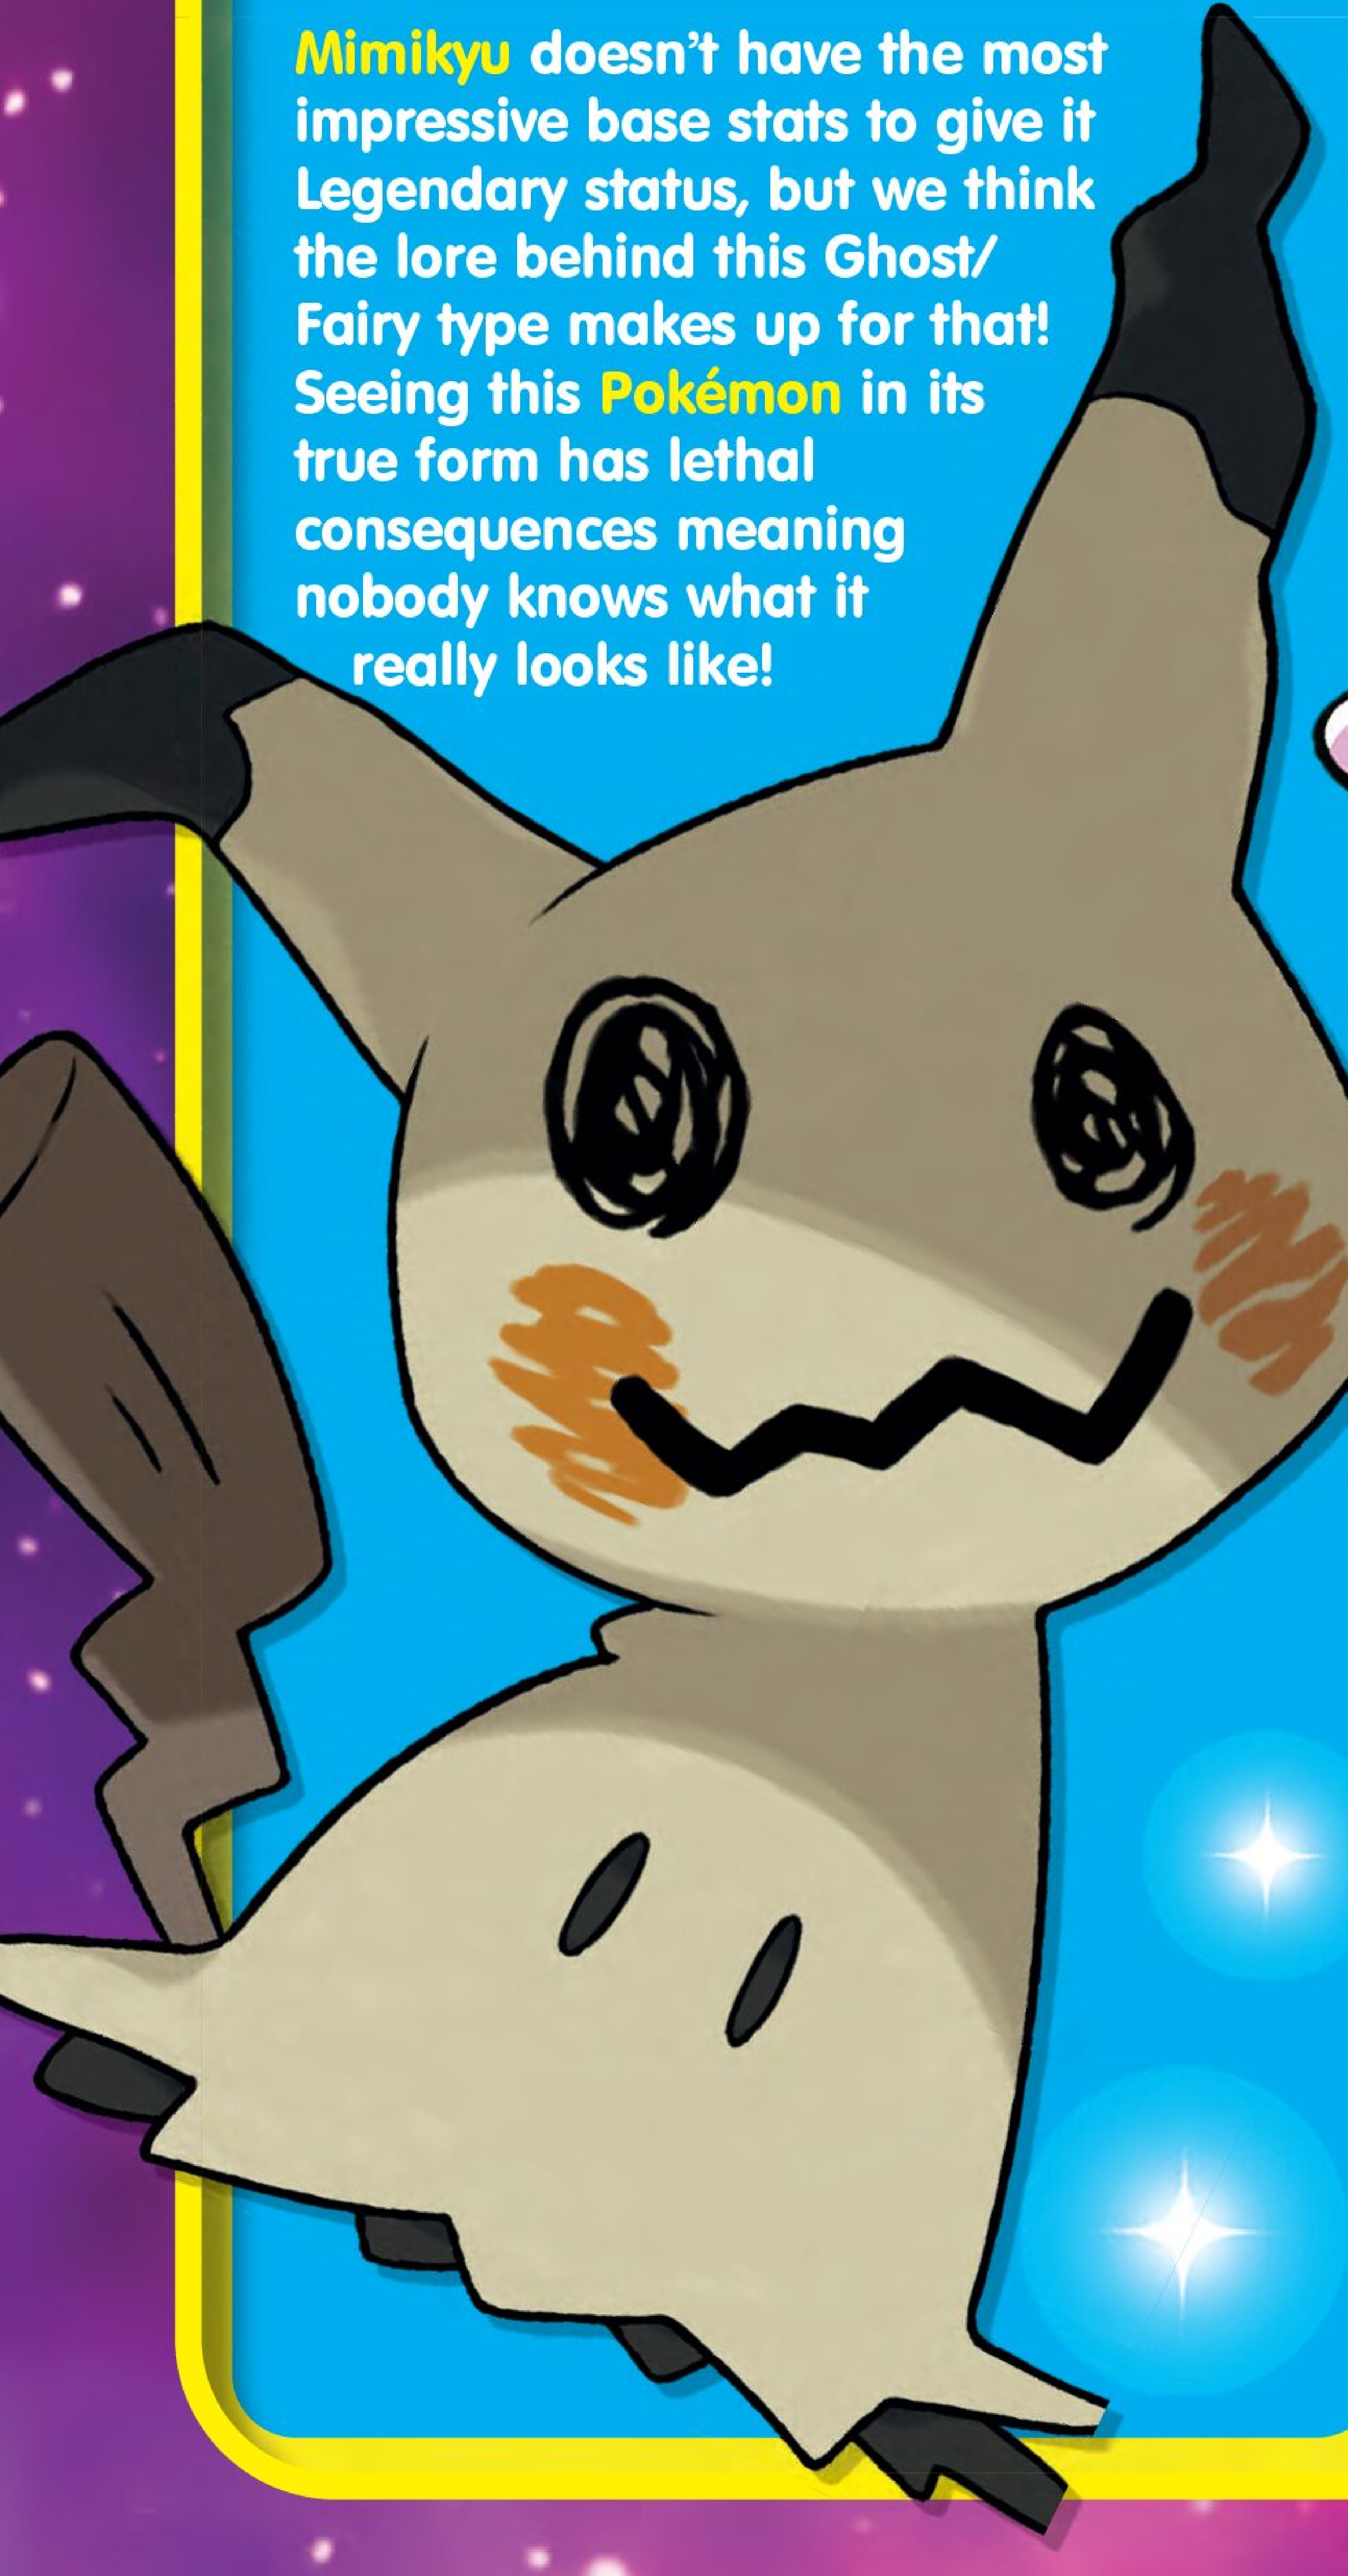
I WANT TO KNOW ALL ABOUT THIS NEW LEGENDARY SPECIES!

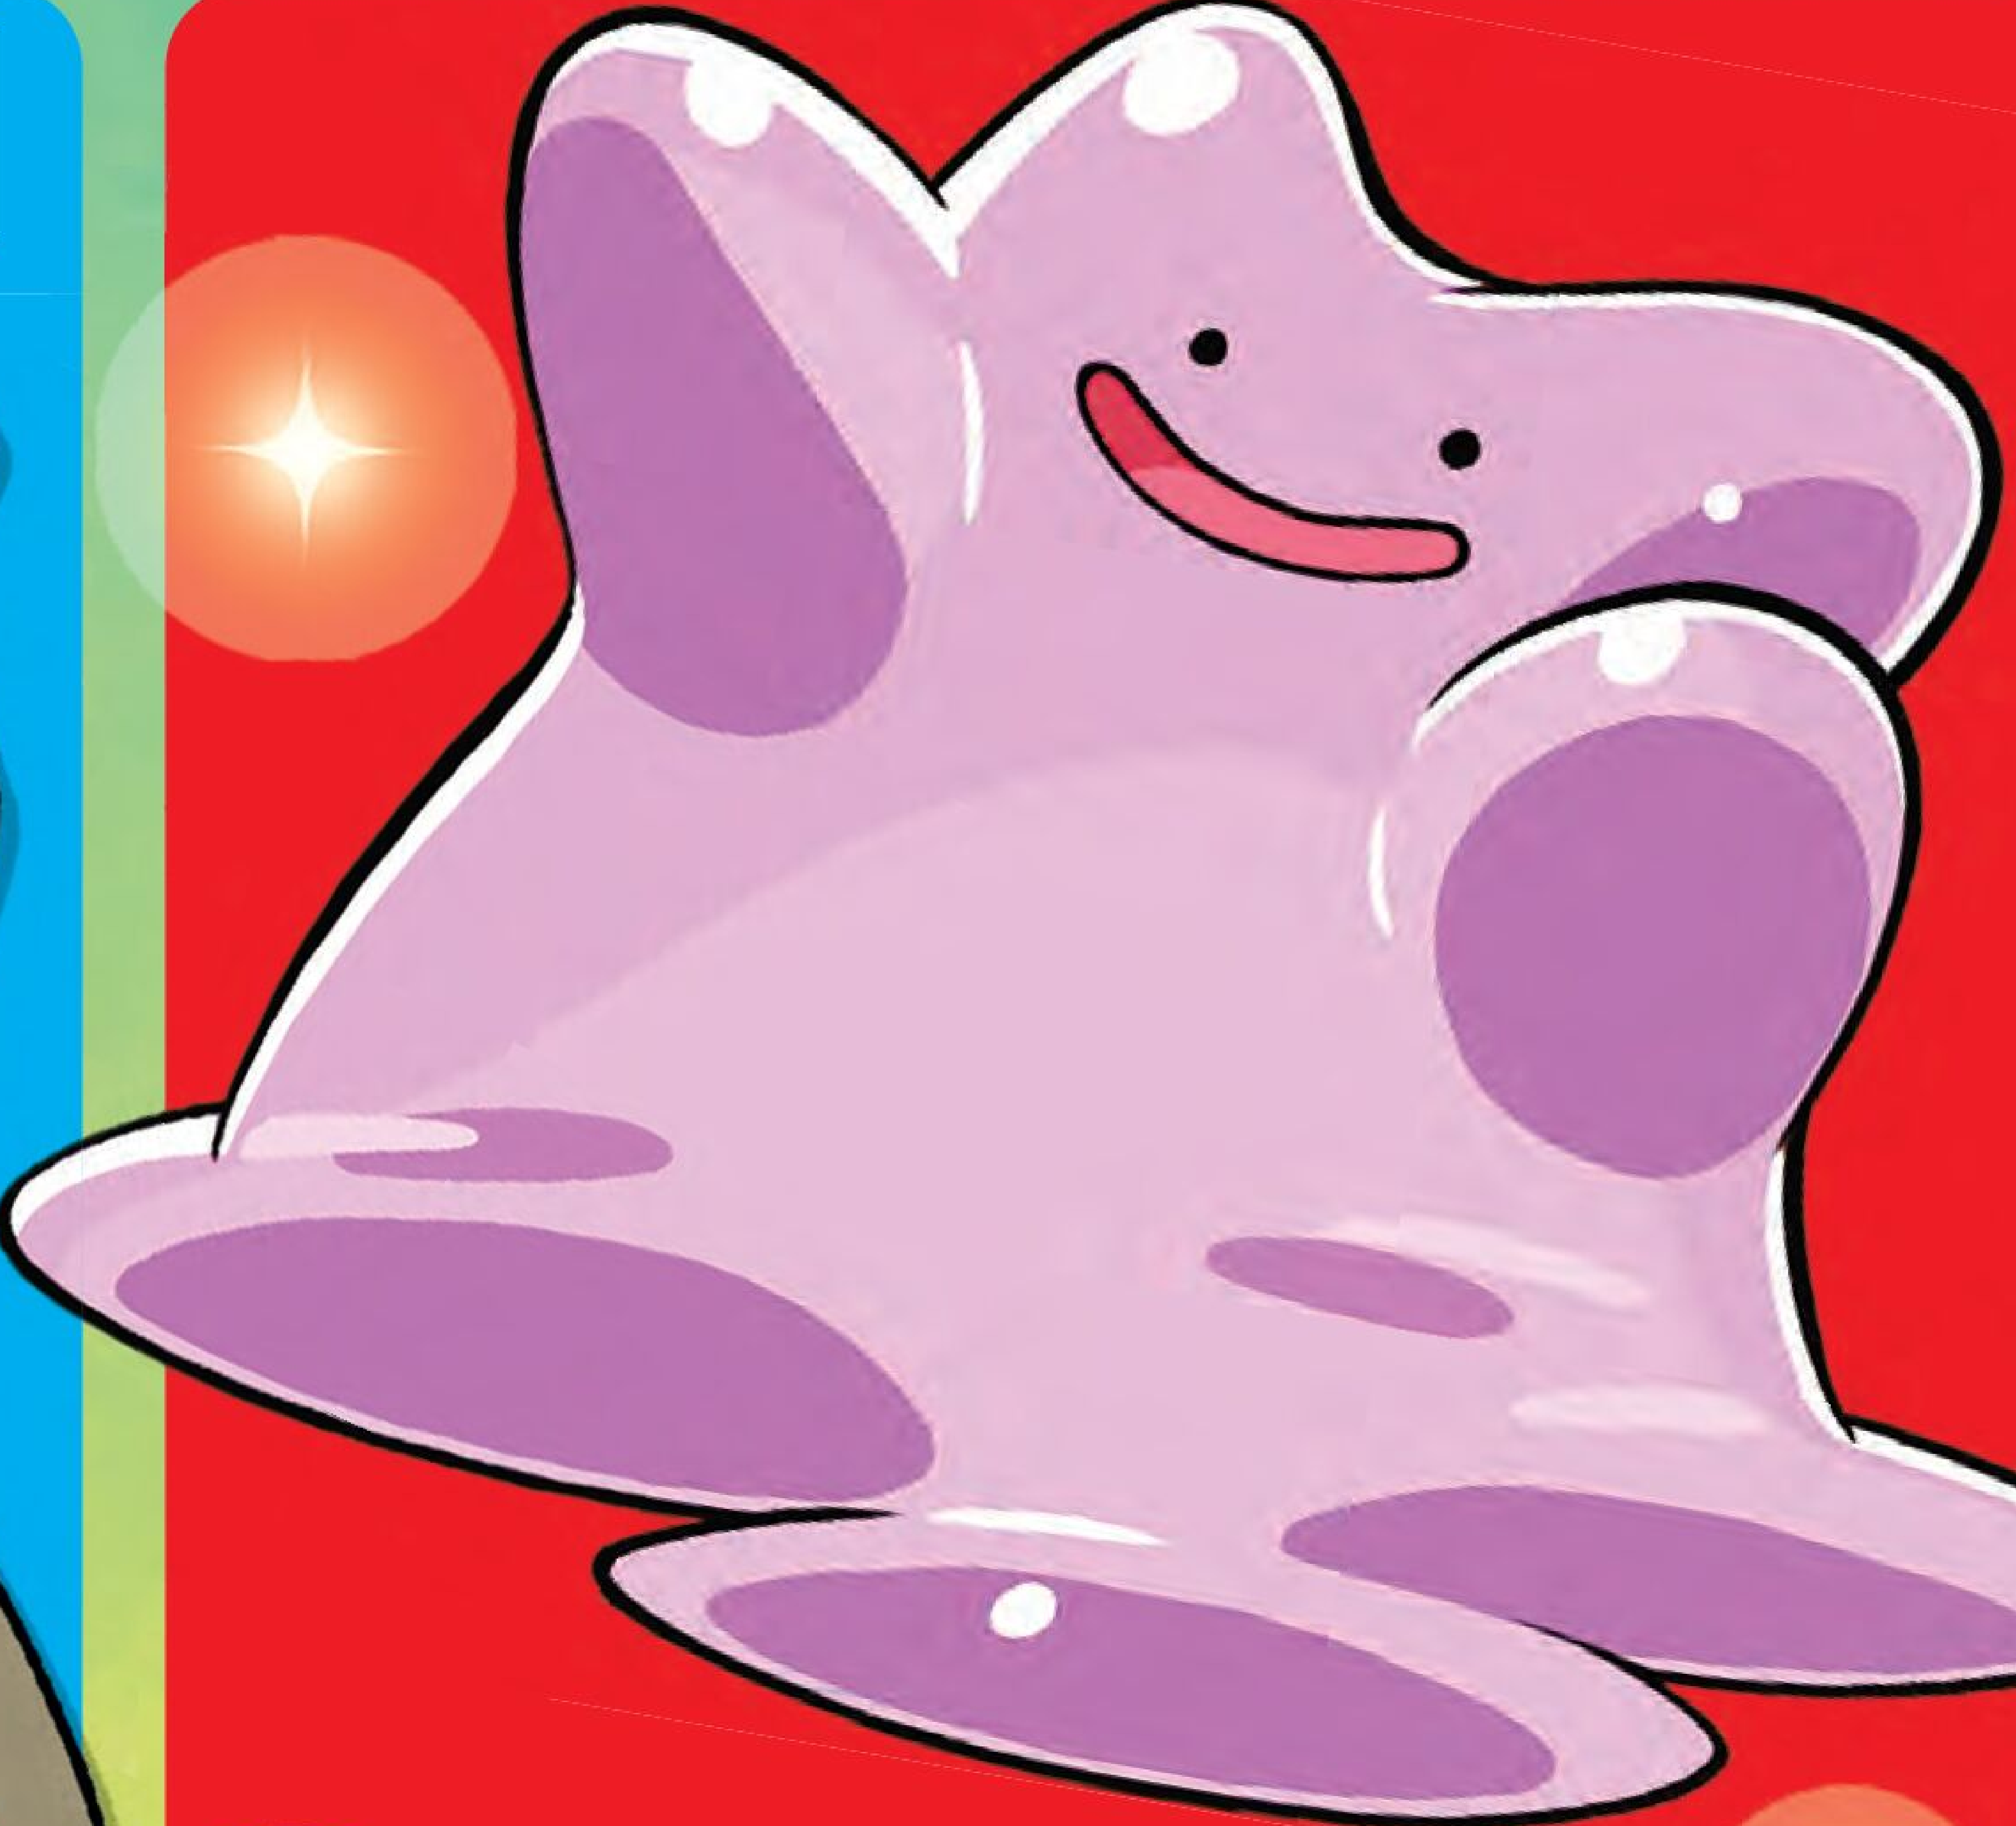
LEGENDARY WISH LIST!

THESE POKÉMON MIGHT NOT BE LEGENDARIES, BUT WE THINK THEY SHOULD BE!

5 MIMIKYU

Mimikyu doesn't have the most impressive base stats to give it Legendary status, but we think the lore behind this Ghost/ Fairy type makes up for that! Seeing this **Pokémon** in its true form has lethal consequences meaning nobody knows what it really looks like!





4 DITTO

Ditto might not seem like the most intimidating **Pokémon**, but it shouldn't be underestimated! With its perfect transformation ability, it gains the stats and moves of whatever **'Mon** its battling — this sounds Legendary to us!

LOOK, DITTO IS ALREADY A LEGENDARY!

3 HISUIAN ZOROARK

Zoroark in its Hisuian form is a Normal/Ghost type which makes them super-powerful and unique. With the tragic backstory of its first evolution, Zorua, we think it has all the qualities of a Legendary Pokémon!

2 ARCANINE

Pokédex entries show the category of this Fire type is legendary. Confusingly, this isn't the same thing as being a Legendary Pokémon. However, since many from ancient times were mesmerised by Arcanine, we think they deserve to be recognised as one!

1 TYRANITAR

This Pseudo-Legendary totally deserves to be bumped up to full Legendary status – Tyranitar are so tough, they can trigger earthquakes and destroy entire mountain ranges just from being in a bad mood!
